## SAMPLE ENTRY

Title	<b>The Convention refugee determination process in Canada</b>
Author, Place of publication, Publisher, Date of publication, Pagination	by M. Young. Ottawa : Library of Parliament, Research Branch, 1987. 13 p. Bibliogr. (Current issues review ; 86-26E) <i>French ed. (La reconnaissance au Canada . . .) on the same fiche.</i>
Series statement	ISBN 0-660-12567-6 MICROLOG 88-00800 1 fiche
Notes	
ISBN	
Microfiche	
Accession Number	The increase of refugee status claiming immigrants in Canada has led to a review of the immigration policy concerning this group. This report looks at the weaknesses of current legislation which is linked to the Geneva Convention and its Protocol, studying Canada's past adherence to the rights afforded under its protection. Also discusses public and government opinion on support for a humanitarian and generous refugee policy and questions of balancing efficiency with procedural fairness to claimants. Gives a chronology of events since 1969.
Abstract	CA EX JU

## ENTRÉE PRINCIPALE TYPE

Titre	<b>La Reconnaissance au Canada du statut de réfugié au sens de la Convention</b>
Auteur, Lieu de publication, Éditeur, Date de publication, Pagination	par M. Young. Ottawa : Bibliothèque du Parlement, Service de recherche, 1987. 14 p. Bibliogr. (Bulletin d'actualité ; 86-26F) <i>L'éd. anglaise (The Convention refugee . . .) sur la même fiche.</i>
Collection	ISBN 0-660-92124-3 MICROLOG 88-00800 1 fiche
Notes	
ISBN	
Numéro d'ordre de la microfiche	Le processus de reconnaissance du statut de réfugié au sens de la Convention de Genève, tel qu'il est énoncé dans la Loi sur l'immigration, sert à déterminer si les personnes qui revendiquent ce statut y ont effectivement droit et peuvent bénéficier de la protection accordée aux réfugiés au sens de la Convention. Ce processus s'est avéré inadéquat, tant au point de vue juridique que pratique. Dans ce bulletin, on examine les mécanismes en vigueur actuellement et le projet de réforme contenu dans la loi C-55 déposé en mai 1987.

# Introduction

The **Canadian Research Index - Microlog** puts all of Canada's hard-to-find government and research literature at your fingertips. **Canadian Research Index** in print is a monthly indexing and abstracting service. An electronic version on CD-ROM or via the Internet is also available. **Microlog** represents our fulltext document service. Most titles included in **Canadian Research Index** are available in paper as well as microfiche format. Together, these services are a powerful tool for finding Canadian report publications.

The **Canadian Research Index** includes scientific and technical research papers in physical, natural and social sciences. It also includes policy papers, important statistical publications, and annual reports.

Documents issued in English or French are catalogued, indexed and abstracted in the language of the publication, while bilingual documents are catalogued, indexed and abstracted in both languages.

Every effort is made to ensure the currency of the index. For instance, documents appearing in the checklist of Canadian Government Publications are delivered by the **Microlog Service** approximately two months after publication of the list.

## SOURCES

- government publications from the federal, provincial and municipal levels
- depository publications of reference value
- non-depository publications issued by government organizations, laboratories and research centres
- non-profit organizations, educational institutions and research groups
- some monographs and serials issued by Statistics Canada

## ORGANIZATION

**Canadian Research Index** comprises the following sections:

**Titles and abstracts:** A full bibliographic citation and a descriptive abstract for each title.

**Corporate name index:** Access by controlled format corporate names based on Canadian Authorities.

**Personal name index:** Access by personal name.

**Subject index:** Subject terms based on Library of Congress and Canadian Subject Headings are assigned to each document. A cross-referencing structure assists searchers.

**Series titles:** Lists by title and numbers all reports in a series; series are available as an on-going subscription or retrospective collection.

**Microfiche collections:** Lists contents of each fiche collection for quick reference. These collections can be used as current awareness lists in broad subject areas to notify users of new acquisitions.

## ELECTRONIC ACCESS

The full **Canadian Research Index** file from 1982 to date is available in electronic formats on the SilverPlatter SPIRS platform. It is accessible on CD; it may be licensed for network use on a local server or on a SilverPlatter ERL server; and it is available for Internet subscription. Reports may be ordered through the National Technical Information Service in the U.S.A., or directly through **Micromedia's Technical Information Centre**. All catalogued documents issued by Statistics Canada are now included in electronic versions of **Canadian Research Index**. For information, contact Micromedia's CD Centre at 1-800-387-2689.

## DOCUMENT DELIVERY

The unique **Microlog Accession Number** is the key to immediate retrieval of any document. Most documents cited in **Canadian Research Index** are available as part of the **Microlog Microfiche Subscription Service**, institutions may subscribe to complete or partial collections of the documents in the Index. Individual copies on microfiche or paper reprints may be ordered through **Micromedia's Document Delivery Service**. To order, please contact:

# Introduction

**Microlog : Index de recherche du Canada** met à votre disposition toutes les publications du gouvernement et les travaux de recherche difficiles à se procurer. L'**Index de recherche du Canada** imprimé est un service mensuel d'indexation et de résumés. Une version électronique est également offerte sur CD-ROM ou dans Internet. **Microlog** représente notre service de documents en texte intégral. La plupart des titres figurant dans l'Index sont disponibles sous forme imprimée et sur microfiche. Ces services combinés constituent un outil très efficace pour retrouver les publications des différents gouvernements du Canada.

L'Index contient entre autres des recherches en sciences physiques, naturelles et sociales, des énoncés de politique, des statistiques et des rapports annuels.

Les ouvrages publiés en français ou en anglais sont indexés et résumés dans la langue de publication; les ouvrages bilingues sont traités dans les deux langues.

De vastes efforts sont déployés pour assurer la pertinence de l'index. Par exemple, on peut obtenir les documents qui figurent sur la Liste des publications du gouvernement du Canada environ deux mois après leur parution sur cette liste.

## SOURCES

- publications fédérales, provinciales et municipales
- publications déposées servant de référence
- publications non déposées publiées par les organismes gouvernementaux, les laboratoires et les centres de recherche
- publications d'organismes à but non lucratif, d'établissements d'enseignement et de groupes de recherche
- certaines monographies et publication en série publiées par Statistique Canada

## ORGANISATION DE L'INDEX

L'**Index de recherche du Canada** comprend les sections suivantes :

**Titres et résumés:** tous les titres sont catalogués et accompagnés d'un résumé descriptif.

**Index des dénominations sociales:** donne un accès par dénominations sociales fondées sur les vedettes d'autorité du service Canadiana.

**Index des noms:** donne un accès par auteur.

**Index des matières:** des descripteurs fondés sur les vedettes matières des documents Library of Congress Subject Headings et Canadian Subject Headings sont

associés à chaque publication; un réseau de renvois facilite la recherche.

**Titres de collections:** tous les rapports publiés en série sont classés par titre et numéro. Ces documents sont disponibles par le biais d'un abonnement permanent et ils sont aussi intégrés à une collection rétrospective.

**Collections de microfiches:** chaque collection apparaît dans une section séparée pour faciliter la recherche. Ces listes peuvent aussi servir à renseigner les usagers sur les nouveautés.

## ACCÈS ÉLECTRONIQUE

Le fichier complet de l'**Index de recherche du Canada**, de 1982 à aujourd'hui, est disponible sous forme électronique à partir de la plate-forme SilverPlatter SPIRS. Il est offert sur CD-ROM et il est possible d'obtenir des licences d'utilisation en réseau pour un serveur local ou pour un serveur SilverPlatter ERL. Il est également disponible par le biais d'un abonnement Internet. Les rapports peuvent être commandés par l'intermédiaire du National Technical Information Service aux États-Unis ou encore directement au **Centre d'information technique de Micromedia**. Tous les documents catalogués publiés par Statistique Canada sont intégrés dans les versions électroniques de l'Index de recherche du Canada. Pour plus de détails, contactez le personnel de Micromedia au 1 800 387-2689.

## LIVRAISON DE DOCUMENTS

Le numéro d'accès unique de **Microlog** est la clé qui permet de repérer immédiatement tout document. La majorité des documents cités dans l'**Index de recherche du Canada** sont offerts par le service d'abonnement aux microfiches de **Microlog**. Les organismes peuvent s'abonner à l'ensemble ou à certaines des collections de documents de l'Index. On peut également commander des reproductions de documents sur microfiches ou sur papier par l'intermédiaire du service de livraison de documents de **Micromedia**. Pour commander, communiquer avec:

Micromedia Ltée  
Centre d'information technique  
240 rue Catherine, bureau 305

# Sample CRI Search

*"How can a person from a foreign country  
qualify for refugee status in Canada?"*

The researcher can search in CRI as in any library catalogue - by subject, author and title.  
Because the index is bilingual, searching can be done in English or in French.

## Recherche type avec IRC

*"Comment une personne d'un pays étranger  
peut-elle demander le statut de réfugié au Canada?"*

La méthode de recherche dans IRC est la même que dans une bibliothèque, puisque les documents sont indexés par auteur, par sujet et par titre. L'index étant bilingue, la consultation peut se faire en français ou en anglais.

## STEP 2/DEUXIÈME ÉTAPE

### A unified search strategy

The search strategy should include all the monthly issues. Start with the most recent issue and work back. Monthly issues are cumulated annually.

### Établir une stratégie de recherche unifiée

La stratégie de recherche doit tenir compte de toutes les publications mensuelles, à commencer par les plus récentes. Chaque année, ces publications font l'objet d'une refonte.

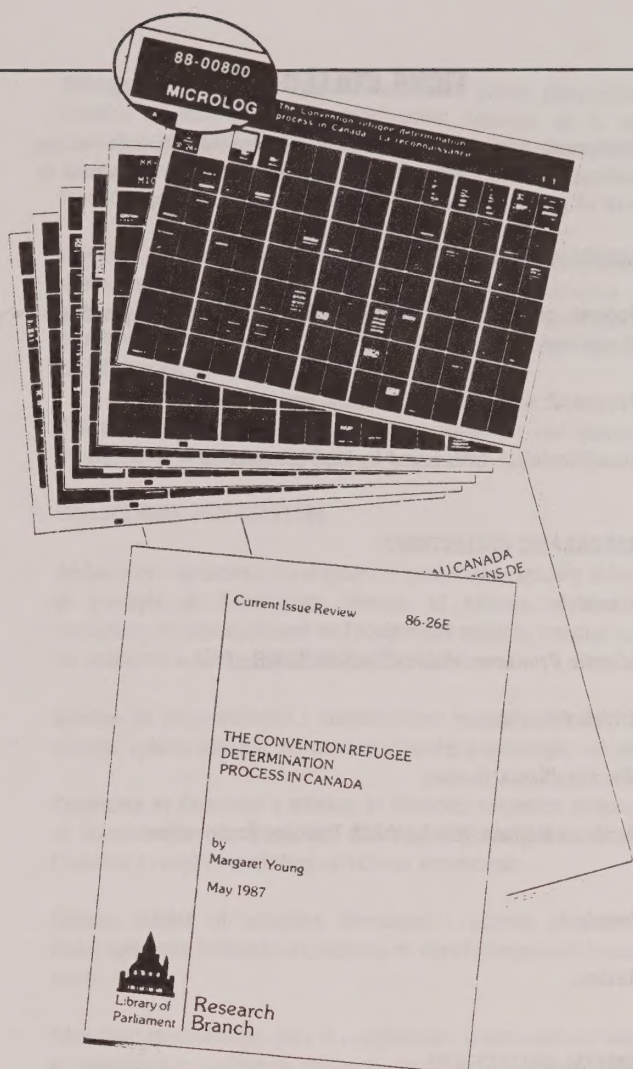

## STEP 3/TROISIÈME ÉTAPE

### Retrieve the publication

Each bibliographic citation gives a full description of the relevant document. Locate the document by the microfiche number in the library's collection or order from Micromedia. Individual publications are available for purchase on microfiche or paper. The bibliographic description provides publisher source information.

### Repérer la publication

Chaque notice bibliographique comprend une description complète du document; celui-ci peut être repéré grâce au numéro de microfiche de la bibliothèque; sinon, il faut le commander à Micromedia. On peut se procurer les monographies sur microfiches ou sur papier. La description bibliographique comporte également des indications sur l'éditeur.

## FICHE COLLECTIONS

Documents from CRI are available on microfiche through various subscription plans ranging from the complete collection to subsets by level of government (jurisdiction), geographic area, or subject.

### JURISDICTION COLLECTIONS

**Federal:** titles issued at the federal level, both depository and non-depository

**Provincial:** titles issued by provincial governments

**Local/Municipal:** titles issued by local governments

### GEOGRAPHIC COLLECTIONS

Alberta

Atlantic Provinces: Newfoundland, N.S., N.B., P.E.I.

British Columbia

Manitoba/Saskatchewan

Northern Regions: N.W.T., Yukon Territory, Arctic regions

Ontario

Quebec

### SPECIAL COLLECTIONS

**Critical issues:** documents from Canadian jurisdictions on issues that receive public attention and are the subject of debate

**Fisheries and Oceans Canada:** documents published by the Dept. of Fisheries and Oceans

**Canada Centre for Mineral and Energy Technology (CANMET):** documents published or contracted out by the Centre

**Depository Collection:** documents published by the federal government issued through the Federal Depository Program

**FEARO:** documents published by the Canadian Environmental Assessment Research Council (CEARC) and/or the Federal Environmental Assessment Research Office (FEARO)

**Non-Depository Collection:** documents published by the federal government, not issued through the Federal Depository Program. Available as a complete collection or as a science or social science sub-collection

**ONTERIS (ON COLLECTION):** ONTERIS documents for which we have microfilming rights and which meet our inclusion policy

## COLLECTIONS DE MICROFICHES

Les publications incluses dans l'IRC sont en vente sur microfiches, en collection complète ou en collections plus petites regroupant des titres par juridiction, par aire géographique ou par matière.

### COLLECTIONS GOUVERNEMENTALES

**CA** **Fédéral :** publications émises par le gouvernement fédéral, régies ou non par le Programme de dépôt

**PR** **Provincial :** publications émises par les gouvernements provinciaux.

**MU** **Local/Municipal :** publications émises par les gouvernements locaux et municipaux

### COLLECTIONS GÉOGRAPHIQUES

**AL** **Alberta**

**AP** **Provinces de l'Atlantique :** T.-N., N.-É., N.-B., Ile-du-Prince-Édouard

**BC** **Colombie-Britannique**

**MS** **Manitoba et Saskatchewan**

**NO** **Régions du nord :** Territoires du Nord-Ouest, Yukon, régions arctiques

**ON** **Ontario**

**QU** **Québec**

### COLLECTIONS PARTICULIÈRES

**CI** **Sujets d'actualité :** documents publiés au Canada et portant sur des questions d'intérêt public et des sujets de débat

**CF** **Pêches et Océans Canada :** documents publiés par le Département des pêches et océans

**CM** **Centre canadien de la technologie des Minéraux et de l'énergie (CANMET) :** documents publiés ou commandés par le Centre

**DE** **Programme de dépôt :** documents publiés par le gouvernement fédéral régis par le Programme de dépôt

**FE** **BFEE :** documents publiés par le Conseil canadien de recherche sur les évaluations environnementales (CCREE) et/ou le Bureau fédéral d'examen des évaluations environnementales (BFEE)

**ND** **Collection non déposée :** documents publiés par le gouvernement fédéral, non régis par le Programme de dépôt, disponible en collection complète ou en sous-collection Scientifique ou Sciences humaines.

**OR** **ONTERIS (COLLECTION ON) :** documents d'ONTERIS pour lesquels nous avons les droits de microfilmage et qui satisfont à nos politiques d'inclusion

### 1989 Atlantic salmon sport catch statistics : Maritime Provinces

S.F. O'Neill...et al. Halifax : Dept. of Fisheries & Oceans, Maritimes Science Branch, Diadromous Fish Division, 1996. v, 81 p. : *ill.*, *Bibl.* (Canadian data report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 999 ISSN 0706-6465)  
MICROLOG 97-02989 (1 fiche)

Annual report providing catch and effort statistics for the Atlantic salmon sport catch in the Maritime provinces. The data comes from catch and effort information for rivers in New Brunswick and Prince Edward Island and was collected by Fisheries and Oceans and the New Brunswick Department of Natural Resources and Energy field personnel. The data on Nova Scotia's waterways was compiled from reports supplied by Nova Scotia salmon anglers. Detailed data is presented by province, river, river system, county, and salmon fishing area. A detailed map showing salmon rivers and boundaries is also included, as well as methods of calculation. Includes data for 1965 to the present.

### 1991 update of BST and pavement management systems

By D.R. MacLeod. Ottawa : Public Works Canada, Architecture & Engineering, 1992. i, 60 p. : *ill.*  
MICROLOG 97-02778 (1 fiche)

Bituminous surface treatment (BST) is used extensively in the Yukon as a low-cost highway surface course. This report updates 1989-90 BST condition data, based on field data collected on 264 sections of the Alaska Highway in Yukon and British Columbia representing some 2,343 kilometres of BST. Sections are rated to identify those parts of the highway needing work. Markov analyses used for prediction of future pavement performance are also included, and overall system condition is evaluated and compared to conditions in previous years back to 1987. The field evaluation has identified sections that should be studied in greater depth for potential rehabilitation in 1992.

### 1992 update of BST and pavement management systems

By D.R. MacLeod. Ottawa : Public Works Canada, 1993. 61 p. : *ill.*  
MICROLOG 97-02747 (1 fiche)

Bituminous surface treatment (BST) is used extensively in the Yukon as a low-cost highway surface course. This report updates 1990-91 BST condition data, based on field data collected on 286 sections of the Alaska Highway in Yukon and British Columbia representing some 2,212 kilometres of BST. Sections are rated to identify those parts of the highway needing work. Markov analyses used for prediction of future pavement performance are also included, and overall system condition is evaluated and compared to conditions in previous years back to 1987. The field evaluation has identified sections that should be studied in greater depth for potential

rehabilitation in 1993.

### 3D models, an analysis of 3D terrain desktop and architectural models using digitizing hardware

Ottawa : Public Works Canada, A&ES National Office, Buildings Sector, 1994. 19 p. : *ill.* On cover: A&ES funded R&D project.  
MICROLOG 97-02746 (1 fiche)

This paper serves as an introduction to some of the systems which are being developed for three-dimensional (3D) modelling. Commercially available software and hardware is described for application to terrain modelling, digital image processing, digital mapping, design modelling, scanning and modelling of physical objects, and architectural photography. Advantages and drawbacks of each system are noted.

### Aboriginal post-secondary education and training policy framework

British Columbia. Ministry of Education, Skills & Training. Victoria : The Ministry, 1996. 20 p.  
MICROLOG 97-03054 (1 fiche)

The framework presented in this document has the following objectives: to increase participation and success rates of Aboriginal people in post-secondary education and training; to support capacity building toward self-government; to establish a long-term plan to ensure that Aboriginals can acquire knowledge and skills required for effective self-government; and to secure federal commitment to maintain funding for Aboriginal post-secondary education and training. The document begins with a review of the general background and principles of the framework, including government strategic priorities and the legal context. It then reviews Aboriginal post-secondary education and training initiatives and organizations in British Columbia and other jurisdictions, the available funding sources, and constraints on Aboriginal participation in post-secondary education and training. Finally, the policy framework sets out three fundamental strategies to strengthen public post-secondary institutions to meet Aboriginal needs, stabilize public/private partnerships, and provide for designation of public Aboriginal controlled institutions such as the Institute of Indigenous Government.

### The Accessible Canadian library II, a resource tool for libraries serving persons with disabilities

By Wendy Scott ; with the assistance of Ann Archer. Ottawa : National Library of Canada, 1996. 104, 106 p. : *Bibl.* *Bilingual* (*La Bibliothèque canadienne accessible II...*). ISBN 0-660-66057-9 CCG-P no. SN3-227/1-1996  
MICROLOG 97-02838 (3 fiche)

In addition to the library-specific facilities covered in the first edition, this edition also features the CLA Guidelines on Library and Information Services for People with Disabilities, as well as several lists of resources to help librarians access government agencies, organizations serving the disabled, sites on the Internet and other information. The "Resource Lists" in this document are aimed to serve as guideposts to appropriate sources of information. Also included are information on building codes, federal and provincial government agencies, non-governmental organizations specializing in disability issues, sources of information on adaptive technologies, on-line discussion groups and Internet sites dealing with disabilities, sources for library materials in alternative formats and a bibliography.

### An Action plan for Manitoba's network of protected areas, 1996-98

Manitoba. Parks & Natural Areas Branch. Winnipeg : The Branch, 1996. 10 p. : *ill.*  
MICROLOG 97-02794 (1 fiche)

Manitoba intends to assemble a network of protected lands that conserve ecosystems and maintain the province's biodiversity. This document sets out the statement of intent to assemble such a network and the actions to be taken, as well as a two-year strategic plan with clear goals for the completion of a system of protected areas. The appendix describes the application of ecological criteria to the selection and designation of a network of protected areas in Manitoba.

### Advanced windows training needs study : final report

By Edward Morofsky. Ottawa : Public Works & Government Services Canada, Real Property Branch, Asset Management, 1994. vi, 56 p.  
MICROLOG 97-02730 (1 fiche)

Presents results of a survey of Public Works & Government Services Canada staff conducted to determine: the knowledge of those people in Public Works departments dealing with windows; whether the need for training is substantial enough to justify setting up a training package; and the nature of recent or planned windows-related projects at Public Works. Survey questionnaires were sent to staff in Real Property, Realty Services, and Architectural &

Engineering Services in all five regions. Questionnaires sought information on the respondent, knowledge of advanced window technology, and perceptions of training needs. Recommendations are made regarding training related to high-performance windows. The appendix contains copies of the questionnaires and tables of survey results and advanced window projects.

### Air leakage control : guidelines for installation of air leakage control measures in commercial buildings

Ottawa : A&E Services Branch, RD&D Division, Technology Sector, 1993. 107 p. : *Ill.* On cover: *PERD.*  
MICROLOG 97-02732 (2 fiche)

After an overview of the issues involved with regard to air leakage in commercial buildings and the potential cost benefits of air leakage control, this document presents specific guidelines on sealing and installation of air barriers. Sealing and installation methods and materials are described for various components of commercial buildings, including below-grade features, exterior walls, openings, interior walls, roofs, and shafts. It also includes an outline of the air leakage control design process and contracting procedures.

### Air leakage control : retrofit measures for high-rise office buildings

Canada. Public Works Canada. Technology. Ottawa : Public Works Canada, RD&D Division, A&E Services Branch, Technology Sector, 1993. v, 88 p. : *Ill.*, *Bibl.*  
MICROLOG 97-02731 (2 fiche)

The main objectives of this study are: to identify key parameters associated with air leakage in buildings; to determine the range of heating and cooling load energy savings associated with sealing the uncontrolled air leakage; to develop preparatory application guidelines for implementing air leakage control measures in office buildings; and to prepare a preliminary draft of best practices. After an introduction, the study reviews previous studies on air leakage control in office buildings and discusses four key factors: building tightness, climatic influence, interaction of a building's heat-

ing/ventilation and air conditioning system, and the building's topographic environment. Section three presents application guidelines for air leakage control retrofit measures, including air barrier installation for some common scenarios and sealing details for roofs, windows, doors, and other penetrations.

### Air pollution regulation 308 : appendices A - G

Toronto : Environment Ontario, 1987. 166 p. : *Ill.*, *Bibl.*  
MICROLOG 97-02642 (2 fiche)

These appendices contain background documentation to Ontario Air Pollution Regulation 308. The first explains the rationale and scoring criteria for parameters developed to determine the concern level for a chemical in the environment. The parameters relate to environmental behaviour (transport, persistence, and bioaccumulation) and toxicity. The second appendix discusses and provides examples of the de minimis concept with regard to air quality standards. The third presents a method for calculating standards for differing averaging times. The fourth reproduces an extract from US Environmental Protection Agency regulations on standards of performance for new stationary sources. The fifth reviews US approaches to air pollution control technology. The sixth explains the derivation and significance of Ontario Ministry of Environment 'upper limits of normal' contaminant guidelines. The final appendix contains the proceedings of the Air Pollution General Regulation Workshop, November 1985, held to discuss proposals for changes to Regulation 308.

### Air pollution regulation 308 : appendix H

Toronto : Environment Ontario, 1987. i, 170 p. : *Ill.*, *Bibl.*  
MICROLOG 97-02643 (2 fiche)

The first part of this appendix describes several air quality models suitable for regulatory applications, covering all types of short-range models applicable for averaging times on the order of 30 minutes and greater. Models selected for inclusion are classified according to the meteorological conditions and the source situation, and are for continuous releases of non-reactive contaminants. Some practical aspects of routinely applying small-scale air quality models for source assessment are discussed, and some methods for determining the critical meteorological conditions which would result in the maximum concentration of a pollutant are outlined. The second part is a summary report of the Regulation 308 Review Modelling Workshop, June 1986. The Workshop addressed the following issues relating to proposed revisions of existing air quality models: how proposed model results compare with existing models; whether the proposed models have been evaluated in an integrated manner; the uncertainty in model outputs, and how this uncertainty will be taken into account in model application; and how the models are to be applied.

### **Air quality monitoring in Alberta : data report, 1994**

By R.H. Myrick. Edmonton : Alberta Environmental Protection, Chemicals Assessment & Management Division, Air Issues & Monitoring Branch, 1996. iv, 201 p. : *Maps*  
MICROLOG 97-02857 (3 fiche)

Presents data summaries for continuous, intermittent, static & precipitation quality monitoring networks operated in Alberta. Continuous air pollutants monitored include ammonia, carbon monoxide, carbon dioxide, dust & smoke (the coefficient of haze), hydrogen sulphide, nitrogen dioxide, nitric oxide, total oxides of nitrogen, ozone, inhalable particulates, sulphur dioxide & total hydrocarbons. Concentrations of these pollutants are reported once an hour, 24 hrs/day, 365 days/year. Intermittent air quality monitoring refers to air pollutants which are monitored as a 24 hr accumulated loading, once every 6th day. Suspended particles, benzo (a) pyrene, sulphates & nitrates are monitored here, with annual average values of historical data. Static monitoring is the measurement of total accumulated loadings of pollutants on a 1 and 3 month

schedule. Parameters monitored include total sulphation, hydrogen sulphide, dustfall, calcium & fluorides. Data are presented as monthly or tri-monthly average loadings, along with the number of stations at each location. Rain & snow samples are collected on a weekly basis at precipitation quality monitoring stations. Samples are collected on a daily & monthly basis at some stations. Chemical analysis on these samples were conducted to obtain pH as well as other compounds contained in the precipitation. Anion & cation wet deposition rates, & the calculated effective acidity deposition rates are presented for monthly & weekly precipitation samples.

### Analyse des données d'une étude sur la formation des bancs de glace : rapport final

Scanada Consultants Ltd. Ottawa : Société canadienne d'hypothèques et de logement, Division des politiques et de la recherche en matière technique, 1996. 8 p. *L'éd. anglaise (Ice dam research...)* : 97-01548/1.  
MICROLOG 97-03027 (1 fiche)

Les conditions de l'hiver 1995-1996 étaient plus favorables que d'habitude à la formation de banc de glace sur les toits dans beaucoup de villes canadiennes. La Société canadienne d'hypothèques et de logement a demandé à des consultants de surveiller la température des greniers de 33 maisons d'Ottawa afin de déterminer si la formation de banc de glace sur les toits était provoquée par la température plus élevée des greniers. Au cours de la première phase de l'étude, des thermomètres ont été installés dans les greniers de 33 maisons, 16 avec banc de glace sur le toit et 17 sans banc de glace sur le toit. Des données relatives à la maison, au grenier, à l'isolation et au toit ont été réunies au cours de l'enquête, sans toutefois être analysées au cours de la première phase. La deuxième phase du projet consistait à analyser les données recueillies. Il s'agissait de déterminer les points communs des maisons à problème qui pourraient expliquer pourquoi leurs greniers étaient plus chauds.

### An Analysis of the Impact of changes in provincial and international softwood lumber supply and trade flows on British Columbia

By Gregg Delcourt...et al. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. 53 p. : ill., *Bibl.* (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; 96.01)  
MICROLOG 97-02923 (1 fiche)

Examines the implications of recent challenges to the British Columbia forest industry in terms of the impacts on the provincial economy and on softwood lumber trade flows. The study develops a partial spatial equilibrium model to analyze changes in the global softwood lumber trade. A one-commodity model called the Global Softwood Lumber Trade Model is used to analyze trade flows from 15 different regions, using elasticity estimates and production, trade, and price data. The model focuses on the British Columbia forest sector and how changes in provincial policy (such as reductions in allowable annual cut (AAC), reforestation, and silviculture investments) and the forest policies of other competing regions affect trade flows, prices, and provincial economic well-being. The model establishes a base case of expected future conditions from which a variety of different scenarios are developed and compared. These scenarios include a short-term AAC reduction followed by a gradual AAC increase over time; a permanent reduction in provincial AAC; and an increase in supply from a new source.

### Application of an airport ground transportation model to the ground transportation system at Pearson International Airport, Toronto, Ontario : final report

Ottawa : Public Works Canada, Architecture & Engineering, 1991. 88 p. : ill.  
MICROLOG 97-02743 (1 fiche)

At Pearson International Airport, expansion has resulted in three separate terminals, excessive walking distances, a complex roadway system, and multiple parking facilities, rendering ineffective the older methods of airport analysis. This paper presents a model that provides the following types of results, by hour, for a typical airport planning day, as simulation outputs to provide information for decision making: vehicular flow rates, volumes and volume-to-capacity ratios on all roads, curbs, toll plazas, and parking exits and entrances; vehicular accumulations in all parking facilities and in queues of heavy congestion; average roadway speeds, levels of services, and times; trip times and delays; transit ridership and operational statistics; pedestrian flow rates into and out of each terminal facility and queue lines; and various summary statistics such as traffic statistics and parking revenues. The model was calibrated using airport surveys in 1980, 1984, and 1987.

### Aquatic dispersion modelling of a tritium plume in Lake Ontario

By M.H. Klukas and G.L. Moltyaner. Chalk River, ON : Chalk River Laboratories, Environmental Research Branch, 1996. 27 p. : ill., *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11526 ISSN 0067-0367)  
ISBN 0-660-16596-1 CCG-P no. CC2-11526E  
MICROLOG 97-02787 (1 fiche)

A release of about 2,900 kilograms of tritiated water into Lake Ontario from Pickering Nuclear Generating Station provided the opportunity to study the dispersion of a tritium plume in the lake's coastal zone. Predictions of the tritium plume movement were made using current velocity measurements taken at 8 metres depth offshore from Darlington and were compared with those made using an empirical relationship where alongshore current speed is assumed to be proportional to the alongshore component of the wind speed. Tritium plume dispersion was modelled using the one-dimensional advection-dispersion equation, with transport parameters being the alongshore current speed and longitudinal dispersion coefficient. Simulations were made using fitted values of the dispersion coefficient and used to estimate maximum tritium concentrations at water supply plants located within 25 kilometres of Pickering.

### Arrowsmith Timber Supply Area : rationale for allowable annual cut (AAC) determination, effective December 30, 1996

By Larry Pedersen. Victoria : Ministry of Forests, 1996. 72 p. : *Bibl.*  
MICROLOG 97-03050 (1 fiche)

Arrowsmith Timber Supply Area (TSA) consists of several fragmented areas on southern Vancouver Island Naka TFL, covers about 460,000 hectares comprising five non-contiguous blocks spread over five forest districts on Vancouver Island. After a brief description of the TFL area, this report reviews the principles for determining the allowable annual cut (AAC) for the area and presents an accounting of the factors and the rationale used in making that determination. These factors include the role of the base-case timber supply forecast, the existing forest inventory, the expected rate of forest growth, the land base contributing to timber harvesting, im-

pediments to forest regeneration, silvicultural treatments, decay and wastage, integrated resource management objectives, harvest flow, and timber processing facilities. It also discusses the guiding principles for AAC determinations for areas of the TSA that include portions of Clayoquot Sound and includes a timber supply analysis for the Sound area. The appendix contains relevant sections of provincial forestry legislation and a summary of public input to the TSA Timber Supply Review.

### Assessing the impact of hazardous immiscible liquids in soil

By G.J. Farquhar, R.G. Pearson and E.A. McBean.  
Toronto : Environment Ontario, Research & Technology Branch, Environmental Research, 1990.  
vi, 86 p. : ill., *Bibl.* ISBN 0-7729-5246-9  
MICROLOG 97-02651 (2 fiche)

Provides a synopsis of all research undertaken in a project focusing on the following topics of study: spilling of hazardous immiscible liquids (HIL) such as chlorinated hydrocarbons, petroleum products, and solvents, onto soils and other surfaces with accompanying penetration and vaporization; movement of HIL in soil with varying degrees of water saturation; and release of vapours from HIL in soil and subsequent movement of vapours in soil and release to the environment. Research work involved development of mathematical models to simulate HIL spills, flow, and vapour movement, as well as laboratory experiments with soil test beds, soil columns, and a two-dimensional flux box. Model results are compared to experimental results and to actual field measurements as reported in the literature.

### An Assessment of permafrost conditions at three DND airports in arctic Canada as they pertain to future planning and operations

By C.M. Tucker and A.S. Judge. Ottawa : Dept. of National Defence Canada, Operational Research & Analysis Establishment, Directorate of Strategic Analysis, 1991. v, 40 p. : ill., *Bibl.* (ORAE report / Canada. Dept. of National Defence. Operational Research & Analysis Establishment ; no. R107) MICROLOG 97-02900 (1 fiche)

Describes ground-penetrating radar studies carried out at three airports at Inuvik, Rankin Inlet, and Alert, Northwest Territories, to investigate the extent of permafrost and its seasonal variation at three locations distributed over a wide geographic area. The study method involved specific and repeated traverses with a Pulse EKKO III ground-penetrating radar unit. The results reveal the ability of the radar to detect particular kinds of strata and the degree of usefulness of the radar system for mapping seasonal depth of thaw of permafrost.

### Assessment of proposed remedial action plans for Hamilton Harbour : final report and appendices

Prepared by: Marshall Macklin Monaghan Limited ; in association with Peal Marwick Consulting Group ; prepared for: Ontario Ministry of the Environment. Toronto : The Ministry, 1990. iv, 326 p. : ill., *Bibl.* ISBN 0-7729-7475-6  
MICROLOG 97-02672 (4 fiche)

This study identifies mitigative and remedial measures for achieving various proposed uses in specified areas of Hamilton Harbour, and develops a framework for valuing the benefits associated with the resulting improvements in water quality and recreational activities. After an overview of the study plan, chapter two reviews past and present uses of the Harbour (including fishing, boating, shipping, and receiving wastewater) and addresses water quality requirements for possible future uses. Chapter three analyzes remedial and mitigative measures with regard to point and non-point sources of ammonia and phosphorus, treatment of Harbour waters and sediments, improving water quality, achieving a self-sustaining fishery, and controlling toxic substances. The cost-effectiveness of various measures are assessed, and chapter four presents the benefit/cost framework and an analysis of economic impacts resulting from implementing control measures. The final chapter contains a sensitivity analysis that examines the impact on study results of various uncertainties in available information.

### Assessment of sugar maple and yellow birch foliage and soil chemistry at the Ontario hardwood decline survey plots

Ecological Services for Planning Ltd. Toronto : Ministry of the Environment, Air Resources Branch, Phytotoxicology Section, 1990. vi, 79 p. : ill., *Bibl.* ISBN 0-7729-6255-3  
MICROLOG 97-02647 (1 fiche)

The main objective of this study was to collect foliage and soil samples for analyses for two tree species, yellow birch and sugar maple, from their natural ranges, in conjunction with plots established for the Ontario Hardwood Decline Survey. The information collected would be used to estimate variation in soil and foliage chemistry across the province, for designing future sampling protocols, and for providing a baseline of current conditions. This report includes evaluations of the variability of sugar maple and yellow birch foliage and associated soil chemistry; comparisons of the results with those reported in the literature; estimates of sample size requirements for various foliage and soil elements to assist in designing future sampling protocols; summaries of regional variations in fo-

liage and soil attributes; and correlations between foliage and soil chemistry attributes, decline index, tree heights and diameters, and other site features.

### Assessment of the biologically based low flow analysis technique : final report

Cumming Cockburn Ltd. Toronto : Environment Ontario, Research & Technology Branch, Environmental Research, 1990. 146 p. : ill., *Bibl.* ISBN 0-7729-6845-4  
MICROLOG 97-02750 (2 fiche)

The purpose of the research reported is to analyze and compare the existing hydrologic methodology for defining low flows (extreme value analysis) to a biologically based methodology developed by the US Environmental Protection Agency. The existing methodology involves defining critical low flows which are used to measure the waste assimilative capacity of water bodies in order to meet Ontario water quality objectives. The main area of research work undertaken was the determination of hydrologically- and biologically-based design low flows at each of 30 hydrologic stations. After an introduction, this report presents a general discussion of the hydrologically-based design flow method. Section 3 provides a general description of the rationale of the biologically-based design flow method. A detailed discussion of acute and chronic toxicity to aquatic life is given in section 4, along with how this relates to US water quality criteria. Section 5 discusses results of applying the biologically-based low flow method to Ontario rivers. Appendices include a glossary and a summary of results of a case study of 22 stations in Ontario at which low flows and net pollutant loading rates are calculated for waste load allocation purposes and compared using the two methodologies.

### Benthic invertebrate survey of the St. Marys River, 1985, vol. 1 : main report

By A.J. Burt, P.M. McKee and D.R. Hart. Toronto : Ministry of the Environment, Water Resources Branch, Great Lakes Section, 1988. xl, 88 p. : ill., Maps, Bibl. ISBN 0-7729-3592-0  
MICROLOG 97-02659 (2 fiche)

Describes a study undertaken in 1985 to examine spatial and temporal trends in the structure of the benthic community of the St. Marys River in relation to sediment contamination and wastewater sources in the vicinity of Sault Ste. Marie. The survey focused on the lower river and in the upper river in the vicinity of Algoma Steel. The benthic survey detailed in the report also included concurrent collection of sediment samples, which were submitted for physical and chemical analyses. Results of those analyses are presented along with descriptions of analytical methods, benthic species densities and cluster analyses, temporal comparisons of spatial patterns, and sediment quality relationships of benthic communities. The appendix includes assessment of the distribution and zones of impairment of benthic fauna, data on Algoma Steel terminal basin effluent, comparisons with a 1983 benthic survey, and a cluster analysis of 1985 benthic data.

### Best available pollution control technology — 2d ed.

Prepared by: Kilborn Inc. and the Environmental Applications Group Ltd. Toronto : Ministry of the Environment, Metal Mining Sector, 1992. 255 p. : ill., Bibl. On cover: Stopping water pollution at its source, MISA, Municipal/Industrial Strategy for Abatement.  
MICROLOG 97-02707 (3 fiche)

This study was undertaken to identify best available technologies (BAT) applicable for controlling pollution from the metal mining sector under Ontario's Municipal/Industrial Strategy for Abatement. The first two sections focus on study objectives, back-

ground, approach, and data acquisition. The third section provides a brief description of generic technologies potentially available for wastewater treatment in the metal mining sector, some of which are in common use and some of which are still in the development stage. Section four compares effluent quality standards and discusses regulatory approaches applied to the mining industry in Canada, the US, Europe, Australia, and New Zealand. Sections five and six describe the screening of processing plant operations in the above geographical areas to develop an inventory of operations used as a basis for selecting recommended or preferred BAT options. Emphasis in these sections is on gold and base metal operations, which predominate in the Ontario metal mining sector. The focal point of the study is section seven, in which preferred BAT options and generic technology trains are selected, described, and costed. For each BAT train, capital and operating costs are estimated for two levels of effluent flow. Sections eight and nine discuss alternative industrial process, and best management practices, which can be used to further improve effluent quality, reduce the probability of upsets, and reduce discharge volumes.

### Biomass consumption and smoke emissions from contemporary and prehistoric wildland fires in British Columbia

By Stephen W. Taylor and Karen L. Sherman. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. vi, 23 p. : ill., Bibl. (FRDA report / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; 249 ISSN 0835-0752) On cover: Forestry. ISBN 0-7726-2874-2  
MICROLOG 97-02979 (1 fiche)

The objectives of this study were to develop smoke emission inventory procedures for British Columbia and to provide benchmark estimates of biomass consumption and smoke emission yields from wild and prescribed fires in provincial forests in contemporary and prehistoric times. The period 1981-90 was examined to encompass some of the annual variation in the wildfire activity that is due to climate. Estimates are presented for emissions of particulates, carbon monoxide, methane, carbon dioxide, and nitrogen oxides, as well as the percent contribution from broadcast burns, spot burns, wildfire/range burns, and wildfires. In addition, seasonal distribution of wildland fire activity in British Columbia was examined for 1990 and 1991. Recommendations are provided for improving future emission inventories.

### Biomonitoring protocols for adult aquatic insects

By Z.E. Kovats, J.H. Ciborowski and L.D. Corkum. Toronto : Environment Ontario, Research & Technology Branch, Environmental Research, 1991. ix, 121 p. : ill., Bibl. ISBN 0-7729-7527-2  
MICROLOG 97-02708 (2 fiche)

Adult insects that have emerged from aquatic habitats have great potential as a biomonitoring tool and provide a cost-effective alternative to sampling organisms directly within the aquatic environment. The objective of this study was to develop standard protocols for collection and analysis of adult aquatic insects for organochlorine contaminants. It describes study methods, materials, and results of insect sample collection, contaminant analyses, dispersal distance studies, and related matters. The investigators developed an ultraviolet light trap that collects large numbers of adult insects (Trichoptera and Ephemeroptera) during a two-hour period, without introducing additional contaminants. They analyzed contaminants in the insects by gas chromatography and compared contaminant concentrations to the reported levels of organochlorine contaminants in sediments of the rivers or lakes of their origin. Detailed instructions are presented for the collection, processing, and analyses of these insects.

### Canada health action : building on the legacy, vol. I : final report

Canada. National Forum on Health. Ottawa : The Forum, 1997. 34 p. *Summary (1 p.) laid in.*  
*French ed. (La Santé au Canada...): 97-03150/1.*  
ISBN 0-662-25305-1 CCG-P  
no. H21-126/5-1-1997E  
MICROLOG 97-02673 (1 fiche)

Presents a volume of a report of a forum held to advise the federal government on innovative ways to improve the health system and the health of Canadians. The forum focused on long-term and systemic issues in four key areas: values, striking a balance, determinants of health, and evidence-based decision-making. The volume begins with a summary assessment of the current health system, the attitudes of Canadians regarding the health system, and deficiencies in health system decision-making. It then sets out priorities for action in three areas: preserving the health system by doing things differently; transforming knowledge about health into action; and using better evidence to make better decisions. Finally, it discusses the mobilization of resources to address those priorities.

### Canada health action : building on the legacy, vol. II : synthesis reports and issues papers

Ottawa : National Forum on Health, 1997. vii, 255 p. : ill., Bibl. *French ed. (La Santé au Canada...vol. II...): 97-03142/4.* ISBN 0-662-25306-X  
CCG-P no. H21-126/5-2-1997E  
MICROLOG 97-02795 (4 fiche)

This document presents the detailed analysis and rationale, as well as recommendations, that led to the National Forum on Health priorities (outlined in Volume I) for ways to improve Canada's health sys-

tem and the health of people in Canada. The document contains the individual synthesis papers developed by each of the Forum working groups. The Values working group sought to understand the values and principles that Canadians hold about health and health care, so that the system continues to reflect and respond to those values. The Striking A Balance working group considered how to allocate society's limited resources to best protect, restore, and promote the health of Canadians, with attention to the balance of resources within the health sector and between the health sector and other sectors of the economy. The Determinants Of Health group consulted specialists to assist in identifying appropriate actions on the non-medical determinants of health. The working group on Evidence-Based Decision Making considered how individuals, practitioners, and policy makers can have access to and utilize the best available evidence in making decisions. The document also contains issue-specific papers on an Aboriginal health institute, pharmaceutical policy, and women's health.

### Canadian strong ground motions from the May 1996, Duval, Washington, earthquake

Dieter H. Weichert...et al. Ottawa : Geological Survey of Canada ; Vancouver : B.C. Hydro, 1996. 75 p. : *ill.*, *Bibl.* (Open file / Geological Survey of Canada ; 3390) (Report / B.C. Hydro ; MEP245)  
MICROLOG 97-02579 (1 fiche)

An earthquake of moment magnitude 5.1 east of Seattle in May 1996 triggered nine strong ground motion instruments in Canada at distances from about 130 to 200 kilometres. Because of the relative rarity of strong motion records in this area, and their importance for seismic hazard estimation in the deep soil areas of the Fraser River Delta, these new records are of considerable local significance despite their low amplitudes. This report presents time series plots of the unprocessed digital data from the earthquake, as well as filtered acceleration, velocity, and displacement, Fourier spectra, and 5% damped response spectra. Tabulated station parameters are given together with maps of the network configurations showing the locations of triggered and untriggered instruments.

### Children involved in prostitution : report

Task Force on Children Involved in Prostitution (Alta.). Edmonton : The Task Force, 1997. 54 p. : *Bibl.* To the Minister of Alberta Family and Social Services.  
MICROLOG 97-02862 (1 fiche)

Presents findings and recommendations of a task force examining the prevention and treatment of, and intervention in, prostitution in which persons under the age of 18 are involved. The task force conducted its investigation by reviewing previous research and related initiatives, receiving submissions from interested parties, consulting selected stakeholders, and field visits with police services and outreach programs. The task force focus was on male and female youth primarily involved in street prostitution, based on the premise that children involved in prostitution are victims of sexual abuse. This report reviews the characteristics of children involved in prostitution and presents recommendations that focus on issues that are achievable and viable in the following four areas: law enforcement, education, health services, and social support.

### Choices into action : guidance and career education policy, grades 1 to 12, (1998) : detailed discussion document

Toronto : Ministry of Education & Training, 1996. 24 p. ISBN 0-7778-5611-5 ONTERIS ON08513  
MICROLOG 97-02818 (1 fiche)

Outlines what Ontario schools are expected to do to prepare students for the adult world of work. Describes curriculum, support services, and procedures for involving community partners, all of which are central to the delivery of a comprehensive guidance and career education program. In order to allow school boards and schools sufficient planning time, a phased-in approach to implemen-

tation is offered in appendix 1 for consideration and comment. The final implementation timelines will be included as part of the final policy document. Describes why the policy is necessary and outlines the various features of the program including the participation of students and teachers, the role of the teacher-counsellor, and the role of co-operative education and work experience. Details program delivery modes including classroom instruction, enhanced learning opportunities, community-based learning, and individual assistance and short-term counselling.

### Cladding study : a literature search

Ottawa : Public Works Canada, A&E Services Branch, RD&D Division, Technology Sector, 1993. 196 p. : *ill.*, *Maps, Bibl.*  
MICROLOG 97-02733 (3 fiche)

This report presents the first phase of a study conducted to investigate and analyze cladding performance. This phase consisted of a literature search to identify, organize, and document cladding materials and wall systems, to categorize typical cladding failures, and to identify key parameters that affect cladding performance and durability. This phase also involved an examination of drawings and specifications for selected government buildings. After an introduction, chapter two discusses design, construction, and performance issues for various cladding and wall systems, including masonry, precast panels, sheet steel systems, and curtain walls. Chapter three outlines Canadian climatic conditions and discusses the effect of climate on cladding and wall systems. Chapter four discusses application of building regulations to cladding systems. Chapter five examines the 31 government buildings selected for evaluation, and the final chapter presents the final list of 20 buildings selected for a more detailed review along with a set of recommendations for subsequent phases of the study. Appendices include a listing of codes and standards applicable to cladding and wall systems, and summaries of the building characteristics and cladding system types (including site plans and architectural details) for the government buildings studied.

### Cladding study, guidelines and advisory document

Ottawa : Public Works Canada, A&E Services Branch, RD&D Division, Technology Sector, 1993. 64 p.  
MICROLOG 97-02765 (1 fiche)

This report summarizes an analysis of building envelope problems as well as the conditions that have caused problems, as revealed in a field survey of federal buildings. A set of general design guidelines outlines basic principles of the requirements for cladding and wall design as well as more specific design guidelines for masonry wall systems, precast wall systems, metal and glass curtain wall systems, and sheet steel systems for new buildings. In addition, general guidelines are included on retrofitting of existing facades in terms of upgrades to present-day standards. Finally, building operating conditions that have an effect on the cladding and exterior wall system are discussed. Appendices contain information on environmental loads on the

building envelope and design notes for air barriers.

### The Class of 90, a compendium of findings from the 1992 National Graduates Survey of 1990 graduates

By Don Little and Louise Lapierre. Hull, PQ : Human Resources Development Canada ; Ottawa : Statistics Canada, 1996. 120 p. : ill. French ed. (La Promotion de 1990...) : 97-03005/2. ISBN 0-662-25260-8 CCG-P no. MP43-366/1996E MICROLOG 97-03010 (2 fiche)

Examines the characteristics and circumstances of 1990 post-secondary graduates from across Canada in 1992. Graduates were surveyed about their education, labour force status, income, indebtedness, and job satisfaction, and were also asked about the relationship between their field of study and occupation, and their degree of satisfaction with the education program. Results are presented by level of education, and some are presented by gender in order to gain a better understanding of how well women fared compared with men. To put the results in a historical context, the figures for 1990 graduates are compared with those for 1982 and 1986 graduates.

### Clearcutting and visual quality, a public perception study : summary report

British Columbia. Recreation Section. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. 35 p. : ill. ISBN 0-7726-3019-4 MICROLOG 97-03052 (1 fiche)

Describes a study undertaken to gain a better understanding of public perceptions about the visual impact of clearcuts. The study quantifies the naturalness of various scenes in terms of the percent of the landscape altered, and compares these alterations with a sampling of public response to the scenes as measured by a public acceptance rating. The study methodology involved showing colour slides to a sample of participants from eight British Columbia cities. The slides were of mid-ground forested landscapes and the participants rated the appearance of each scene according to how that appearance would affect their enjoyment of the landscape. The participants were mainly from various non-aligned community groups with no direct association with either the forest industry or environmental organizations.

### Coastal sedimentary processes, Savary Island, British Columbia : a preliminary assessment

By Brian D. Bornhold, Kim W. Conway and Tsumoru Sagayama. Ottawa : Geological Survey of Canada, 1996. 42 p. : ill., Maps (Open file / Geological Survey of Canada ; 3400) MICROLOG 97-02560 (1 fiche)

Savary Island, typical of many sites around the Strait of Georgia, is characterized by rapid rates of coastal erosion. This report describes a reconnaissance study undertaken to understand better the nature of coastal and nearshore sedimentary processes on the island. The investigation aimed at determining: long-term changes in the coastal zone, based mainly on aerial photography and land survey information; the short-term rates of retreat at selected localities along the south coast, 1994-95; and the sediment transport rates and pathways based on wave refraction and volumetric longshore drift estimates. Results are presented and discussed, and recommendations are made regarding shoreline preservation.

### The Cobalt-nickel arsenides and silver deposits of Temiskaming - 3d ed.

By Willet G. Miller. Toronto : Bureau of Mines, 1908. xvi, 212 p. : ill., Maps Published as vol. XVI, part II, of the Ontario Bureau of Mines report, 1907. MICROLOG 97-02539 (3 fiche)

This report focuses on the cobalt and silver deposits in the region of Cobalt, Ontario. It begins with a brief review of the location and exploration history of the deposits and describes the cobalt and silver ores, along with notes on the mineralogy of the ore minerals. It then presents information and statistics on cobalt and silver mining over 1904-1907, descriptions of the cobalt-silver veins found in the region, and a review of the region's regional disturbances, metamorphism, Precambrian rocks, and other silver ores. The second part of the report contains descriptions of the working mines at Cobalt. Part three describes general characteristics and geology of other cobalt-bearing areas in the Temiskaming district, including areas around the Montreal River, Bloom Lake, and Lorrain Township. The final part describes Lake Superior silver deposits, other Canadian nickel-cobalt ores, and foreign cobalt deposits, and briefly reviews cobalt metallurgy. The appendix contains a list of mining companies incorporated in Ontario 1904-1907 in connection with cobalt, giving company name, head office location, date of incorporation, and authorized capital. It also contains a translation from a German book on the early history of the cobalt industry in Saxony.

### The Cobalt-nickel arsenides and silver deposits of Temiskaming

By Willet G. Miller. Toronto : Bureau of Mines, 1905. 2 v. : ill. Published as part II, of the Ontario Bureau of Mines report, 1905. Bound with: The Sudbury nickel field. Fold. map not filmed. MICROLOG 97-02559 (3 fiche)

The first part of this report focuses on the cobalt and silver deposits in the region of Cobalt, Ontario. It begins with a brief review of the location and exploration history of the deposits and describes the cobalt and silver ores, along with notes on the mineralogy of the ore minerals. It then presents descriptions of the cobalt-silver veins found in the region, reviews the region's regional disturbances, metamorphism, Precambrian rocks, Lake Superior silver deposits, other Canadian nickel-cobalt ores, and foreign cobalt deposits. The second part provides a summary of knowledge of the Sudbury nickel region's geology, ore deposits, minerals, and operating mines. It includes sections on Sudbury Basin stratigraphy, the southern and northern nickel ranges, Precambrian rocks and Pleistocene deposits, petrography of the nickel eruptive and sedi-

mentary rocks, nickel field development history, and mineralogy.

### COHb prediction model for PC application

By Peter Tikuisis and Allan A. Keefe. North York, ON : Dept. of National Defence Canada, Defence & Civil Institute of Environmental Medicine, 1996. 9 p. : ill., Bibl. (DCIEM technical memorandum / Defence & Civil Institute of Environmental Medicine (Canada) ; no. 96-TM-47) MICROLOG 97-02843 (1 fiche)

Carbon monoxide (CO) exposure is endemic to the armoured vehicle environment owing to the discharge of CO from weapons firing. Such exposure places at risk the soldiers' health and performance, due to CO uptake and combination with blood hemoglobin to form carboxyhemoglobin (COHb). To anticipate and help prevent exposure problems, a prediction model of COHb production has been formulated for personal computer operation as an operational and analytical decision aid. This paper provides a computer program description and user's guide, including information on program installation, data input, menu options, CO exposure calculation, and output of results.

### Common tree diseases of British Columbia

By Eric A. Allen, D.J. Morrison and G.W. Wallis. Victoria : Natural Resources Canada, Canadian Forest Service, Pacific Forestry Centre, 1996. x, 178 p. : *Ill.*, *Bibl.* ISBN 0-662-24870-8 CCG-P no. F042-257/1996E  
MICROLOG 97-02689 (2 fiche)

The diseases described in this book are organized according to type of disease or the part of the tree that is affected. Within these groupings, diseases are identified by their common name. The Latin name of the disease-causing agent is listed along with older names by which the organism was previously known. A listing of common and Latin names of host plants follows the disease descriptions. Information provided in each description includes disease distribution in British Columbia, how to identify presence of the disease, life cycle of disease-causing agent (if applicable), microscopic characteristics, damage caused, comments, and bibliographic references. Three indexes are included:

ed: a host index that lists disease-causing organisms by host and affected plant part; a list of selected disease organisms grouped by distinctive signs or symptoms; and a general index listing all diseases and disease-causing organisms by common name, genus, species, and (where appropriate) previously used Latin names.

### Community living centres, Incorporated program audit

Halifax : Dept. of Community Services, 1996. 98 p.  
MICROLOG 97-02654 (2 fiche)

A system of community-based care settings is evolving in Nova Scotia to accommodate the needs of people with mental handicaps and mental disabilities. This report presents an audit of small options (where up to three persons are maintained in a purchased or rented unit, with trained staff provided on a full-time basis) provided by Community Residential Services, Inc. The objectives of the audit were: to obtain information on an incident at a small option in Dartmouth; to assess the current level of operation in the company's small option facilities; to identify matters requiring immediate action relating to company operation; and to identify matters requiring action in relation to community living centres and community-based options in general. The audit incorporated the following categories: organizational structure, physical environment, safety, nutrition, health services, records, admission and placement processes, program delivery, support services, staffing, policies, supervised apartment services, and service evaluation. Appendices include discussion papers on deinstitutionalization and on unlicensed community residential services for adults.

### A Copper container corrosion model for the in-room emplacement of used CANDU fuel

By Fraser King. Pinawa, MB : AECL, Whiteshell Laboratories, 1996. 76 p. : ill., *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11552 ISSN 0067-0367)  
ISBN 0-660-16675-5 CCG-P no. CC2-11552E  
MICROLOG 97-02698 (1 fiche)

Copper containers in a Canadian nuclear fuel waste disposal vault are expected to undergo uniform corrosion and possibly pitting. The corrosion behaviour of the containers will be dictated by the evolution of environmental conditions within the vault. This report discusses results of corrosion and electrochemical studies of the uniform corrosion of copper in oxygen-containing chloride solutions and presents a detailed reaction mechanism. Relevant literature on pitting corrosion is briefly reviewed and models for predicting pit depth are discussed. The potential for microbially influenced corrosion and stress corrosion cracking is also examined, as are vapour phase corrosion and the effects of gamma radiation. The use of natural analogues for justifying long-term corrosion predictions is also considered. Finally, a model for uniform corrosion and pitting is presented and container lifetimes predicted.

**Created and restored sedge marshes in the Lower Fraser River and estuary : an evaluation of their functioning as fish habitat**

Edited by: C.D. Levings and D.J.H. Nishimura.  
West Vancouver, BC : Dept. of Fisheries & Oceans, Science Branch, Marine Environment & Habitat Science Division, West Vancouver Laboratory, 1996. v, 143 p. : ill., Maps, Bibl. (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2126 ISSN 0706-6457) CCG-P no. Fs 97-6/2126E  
MICROLOG 97-02678 (2 fiche)

Examines vegetative biomass and cover, invertebrate abundance, fish abundance, fish residency and fish food, and submergence time for three habitat types on the lower Fraser River and estuary: transplanted, natural (reference), and disrupted (unvegetated) marshes. The study area has seen completion of over 60 fish habitat restoration, enhancement, or compensation projects since 1983, and the study data are relevant to determine whether the projects have been fulfilling Dept. of Fisheries & Oceans goals for no net loss or net gain of fish habitat in cases where fish habitat was created to compensate for habitat loss due to industrial and residential development. Results of evaluations are presented in chapter form, with botanical, invertebrate, and fisheries information given consecutively. A summary and integration of results provides possible biological and biophysical criteria for successful marsh transplants in the Fraser estuary.

**Crown corporations and other corporate interests of Canada : Annual report to Parliament, 1996**

Ottawa : Treasury Board, 1996. 514 p. French ed. (Les Sociétés d'Etat et autres...) : 97-02693/6.  
MICROLOG 97-02666 (6 fiche)

This annual report presents an overview of the parent Crown corporation portfolio and consolidated financial and employment data on all parent crown corporations. It provides a corporate abstract for each parent Crown corporation and for the wholly-owned subsidiaries. It reports on the tablings in Parliament by Ministers of annual reports and corporate plan and budget summaries for each parent Crown corporation. It also contains the audited financial statements for each of the parent Crown corporations. Finally, it lists all other corporate interests of Canada other than Crown corporations, and provides supplementary information about them.

**Cruise details and biological information from the Pacific Ocean perch larval surveys aboard the R/V W.E. Ricker, April 16-30, 1992, and June 9-18, 1993**

By A.M. Cornthwaite...et al. Nanaimo, BC : Dept. of Fisheries & Oceans, Science Branch, Pacific Region, Pacific Biological Station, 1996. Ill, 97 p. : ill., Maps, Bibl. (Canadian data report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 984 ISSN 0706-6465) CCG-P no. Fs 97-13/984E  
MICROLOG 97-02675 (2 fiche)

Presents results of two research cruises to investigate the geographic and bathymetric distribution of larvae of Pacific ocean perch (*Sebastes alutus*). The study area consisted of stations at specific and variable depths along five transect lines in Queen Charlotte Sound. The investigators collected biological samples from adult *S. alutus* captured in conventional trawls, extracted larvae provisionally identified as *S. alutus* from plankton samples for subsequent verification, genetic analysis, and age determination, and preserved plankton samples for laboratory analysis. Larval density was calculated for *S. alutus* and patterns of larval distribution with depth and time were analyzed.

**Curriculum for Ontario secondary schools**

Toronto : Ministry of Education & Training, 1996. 14 p. ONTERIS ON08496  
MICROLOG 97-02814 (1 fiche)

Curriculum guidelines for Ontario secondary schools have not been re-written in almost a decade. The reform of secondary schools provides an opportunity to undertake significant change to ensure Ontario has a high quality curriculum suited to today's realities. This paper provides information about the characteristics of the new curriculum and the emphasis on high standards; the proposed schedule for development of the new curriculum; and an opportunity to suggest those areas of achievement that should be required of all secondary school graduates.

**The CWB and barley marketing : price pooling and single-desk selling**

Andrew Schmitz...et al. Winnipeg : Canadian Wheat Board, 1997. viii, 68 p. : ill., Bibl.  
MICROLOG 97-02792 (2 fiche)

Using formalized and integrated economic analyses, the overall objective of this study is to evaluate the economic performance of the Canadian Wheat Board with respect to the marketing of both feed and milling barley domestically and internationally. After an introduction, this report provides an overview of the world barley trade and reviews previous studies that have examined the Board's role in the barley market. Chapter 4 develops a theoretical framework to examine the Board's role and the potential for the Board and other market players to exercise market power. Chapter 5 tests, using actual Board contract data for 1980/81 through 1994/95,

whether the Board exhibits market power in the international feed barley market. This chapter also estimates the returns from single-desk selling using an economic model that incorporates actual Board sales data. Historical price data are then used to estimate arbitrage losses resulting from annual price pooling. The final chapter reviews and evaluates the marketing costs that have been attributed to the Board in previous studies.

### Design and performance of sewage lagoons on Indian reserves

By A.R. Townshend. Ottawa : Public Works Canada, Architecture & Engineering, DIAND Technical Services, 1991. vii, 89 p. : *ill.*, *Bibl.* French ed. (*Conception et rendement des bassins...*) : 97-02822/2. MICROLOG 97-02760 (2 fiche)

There are over 175 conventional sewage lagoon systems serving Indian reserves in Canada, and the effluents they produce may no longer satisfy public health and environmental concerns. This report reviews lagoon design and performance at Canadian reserves, including a summary of data from a sewage lagoon inventory, information from Indian Affairs & Northern Development Technical Services offices, and observations made at site visits to 18 western reserves. Operational problems are noted and explained, and guidelines are provided for lagoon design, operation, and maintenance. Emphasis is on the need for enhanced pre-engineering

studies, care in sizing long-term storage lagoons, special sewage truck unloading facilities, and improved facilities to permit flexible operations. The closing section covers operation and process control, and advocates such measures as the use of field test kits and enhanced support and training for lagoon operators.

### Development of a fuzzy-logic system for removing particle noise in image sequences, an image snow removing system

By Jean Maheux. Valcartier, PQ : Defence Research Establishment Valcartier, 1996. v, 29 p. : *ill.*, *Bibl.* (DREV memorandum / Defence Research Establishment Valcartier ; TM-9524) MICROLOG 97-02841 (1 fiche)

Describes a video-rate hardware system for the removal of particle noise created by falling snow in image sequences. The system compares the brightness of a number of successive images, pixel by pixel, to determine whether it belongs to the static scene or to the snow particle. Discrimination is achieved by simply using a minimum processor which selects the pixel of minimum brightness. The system developed was implemented in hardware and tested against typical image sequences. Results presented include the degree of improvement achieved using the addition of a feedback control which uses fuzzy logic to control the feedback gain.

### Development of a homeless data collection and management system, phase one : final report

By Tim Aubry, Shawn Currie and Celine Pinsent. Ottawa : Canada Mortgage & Housing Corporation, Social & Economic Policy & Research Division, 1996. 66 p. : *ill.*, *Bibl.* MICROLOG 97-02825 (1 fiche)

Presents the findings of the first phase of a project to develop and test a data collection and management system for emergency shelters for homeless persons in Canada. The first section describes the development of a definition of the population to be studied, resulting in an operational definition of a subgroup of the homeless population. The second section details the identification and feasibility of collection of key client data elements for the data collection system. The third section presents recommendations regarding client confidentiality and privacy in the management and sharing of collected data. The data elements identified are intended to meet information needs related to shelter operation, service planning, and policy formation.

### Development of modern methods for determination of stabilizers in propellants

By Louis-Simon Lussier and Hélène Gagnon. Courcellette, PQ : Defence Research Establishment Valcartier, 1996. viii, 122 p. : *ill.*, *Bibl.* (DREV report / Defence Research Establishment Valcartier ; R-9511) MICROLOG 97-03068 (2 fiche)

This document is the final report required by a task aimed at developing modern methods of monitoring the chemical stability and remaining safe life of gunpowders stocked by the Canadian Forces. It begins with a review of the chemistry of propellant ageing and the various techniques available to monitor chemical stability. This is followed by a description of the development of two fast, reliable, and efficient high-performance liquid chromatography methods for monitoring stabilized propellants. Finally, the application of these methods in the surveillance of diphenylamine- or ethycentralite-stabilized gun propellants is discussed.

### Development of reliability-based methods for cost effective maintenance of parking structures : technical report

Norske Veritas (Canada) Ltd. Ottawa : Public Works Canada, Architectural & Engineering Services, Technology, 1989. 136 p. : *Bibl.* MICROLOG 97-02734 (2 fiche)

In this work, the reliability concepts traditionally applied to structural design are used to make informed decisions regarding in-service monitoring and maintenance of buildings. Specifically, the main solution algorithm used in the PROBAN reliability software package is described in the context of its application to in-service maintenance decisions, and is applied to the specific case of parking garages. Chapter 3 contains a description of the mechanisms and associated influencing parameters of deterioration in parkades. Chapter 4 includes information on parkade design and maintenance aimed at prolonging the life and usability of the structure. Repair and protection schemes presented have been evaluated using the above reliability techniques. In chapter 5, three limit states are developed and demonstrated, the first based on the time to deterioration in parkades, the second on the expected degree of delamination as a function of time, and the third on the structural integrity of the system. Decisions on design and maintenance timing are evaluated with specific reference to these limit states. In particular, the effect of parameters such as water/cement ratio, depth of concrete cover, and protection scheme on the reliability-versus-time curve is demonstrated, and an example of reliability updating based on interim inspection is given.

### Development of specialty crop suitability maps for Saskatchewan Agriculture and Food : final report

By Henry C. De Gooijer. Regina : Agriculture Development Fund, 1995. 34 p. : *Maps*, *Bibl.* MICROLOG 97-03013 (1 fiche)

Describes the development of maps characterizing the suitability of areas of Saskatchewan for production of herb crops. The development involved gathering of information on crop characteristics, soil and landscape properties, and climatic information, and integrating the data with the province's Soil Survey Geographic Information System. Based on the limited information gathered to date, 15 suitability maps and information sheets are presented for the following herbs: caraway, coriander, cumin, fenugreek, dill, French tarragon, and horseradish (culinary crops); garlic, evening primrose, and borage (medicinal crops); and camomile, hyssop, and monarda (tea crops). The accompanying information sheets explain the map legend, note what the map is based on, and include bibliographic references.

### Direct seeding into crested wheatgrass : final report

By Heather Peat and Garry Bowes. Regina : Saskatchewan Agriculture & Food, ADF, 1995. 77 p. : ill., *Bibl.*  
MICROLOG 97-02970 (1 fiche)

Describes research on a Saskatchewan experimental site to rejuvenate old, low-producing stands of crested wheatgrass (*Agropyron cristatum*) and to control pasture sage (*Artemisia frigida*). The site was seeded in 1964 to crested wheatgrass and alfalfa, but heavy grazing and drought in the 1980s led to a decrease in wheatgrass productivity, disappearance of alfalfa, and increase in sage. Site treatments to improve pasture productivity included application of herbicide, spiking using a cultivator, sod-seeding of alfalfa, and application of fertilizer. A cost-benefit analysis indicated the most economic treatment. The results also showed the importance to pasture sage control of grazing management and prevention of reinvasion from the seed bank.

### The Disability lens, an assessment tool for policy and program developers and analysts to address the impact of all initiatives on persons with disabilities

Developed by the Assistant Deputy Ministers' Committee on Disability Issues Working Group ; project coordinator/writer: Colleen Farrell Consulting. Victoria : Office for Disability Issues, 1996. iii, 10 p.  
MICROLOG 97-03041 (1 fiche)

The Disability Lens is a tool for identifying and clarifying issues affecting persons with disabilities, providing government policy and program developers and analysts with a framework for assessing and addressing the impacts of all initiatives (policies, programs, or decisions) on persons with disabilities. The Lens helps ensure that legislation, policy, programs, and services are inclusive and respect the rights of persons with disabilities, avoid unintended negative outcomes, and reflect the goals of the British Columbia government's ongoing strategy that supports equity and fairness for all the province's residents. This document explains the Disability Lens and presents the checklists used in disability issues analysis, covering the following categories: consultation and data collection; accessibility and appropriate accommodation; systemic, indirect discrimination and legal obligations; economic status, education, training, and employment; communication; safety and protection from victimization; and health and well-being. For each category, a list of questions to ask is provided along with space to list notations of actions required or taken.

### Distribution and abundance of birds on western Victoria Island, 1992 to 1994

By Beth J. Cornish and D. Lynne Dickson. Edmonton : Environment Canada, Environmental Conservation Branch, Canadian Wildlife Service, Prairie & Northern Region, 1996. xii, 78 p. : *Maps*,

*Bibl.* (Technical report series / Canadian Wildlife Service ; no. 253 ISSN 0831-6481)  
ISBN 0-662-24506-7 CCG-P no. CW69-5/253E  
MICROLOG 97-02777 (1 fiche)

Describes and presents results from a three-year survey conducted to determine the distribution and abundance of birds nesting on western Victoria Island, Northwest Territories. The study had two components: aerial surveys over much of the western part of the island and surveys on the ground at a site in the Kagloryuak River valley. Observations are recorded for all bird species observed, with emphasis on the king eider. In the Kagloryuak valley study area, selected because of its potential to support high densities of nesting king eiders, 13 habitat types were recognized and are described.

### The Economic Impacts of multiple self-help housing in Canada

Prepared by: ARC Andy Rowe Consultants Inc. ; for Canadian Housing and Renewal Association ; on behalf of Canada Mortgage and Housing Corporation. Ottawa : Canada Mortgage & Housing Corporation, 1994. iv, 22 p.  
MICROLOG 97-02953 (1 fiche)

Assesses the economic and fiscal impacts that would result from the creation of multiple self-help housing to address the need for affordable housing in Canada. The analysis works from two assumptions: that in a time of fiscal restraint, governments can still do much to contribute to the development of needed housing without incurring ongoing subsidy costs, and that low-income households are not currently engaged in self-help housing but could be encouraged to do so. The report attempts to set out the likely benefits to government in revenues and in the achievement of public policy objectives which self-help housing could generate. Results are presented on a provincial basis and for Canada as a whole.

### The Effects of wave conditions on dry immersion suit insulation : a comparison between humans and manikin

By Michel B. Ducharme and Christopher J. Brooks. North York, ON : Dept. of National Defence Canada, Defence & Civil Institute of Environmental Medicine, 1996. iv, 41 p. : ill., *Bibl.* (DCIEM report / Defence & Civil Institute of Envi-

ronmental Medicine (Canada) ; no. 96-R-46)  
MICROLOG 97-02842 (1 fiche)

Describes a study that investigated the effect of standard (0-70 centimetre) wave conditions on dry immersion suit insulation when tested on humans and a manikin simultaneously. In addition to physiological parameters measured on the six human subjects (skin and rectal temperatures, skin heat loss, heart rate), the ambient temperature of water and air, heat fluxes, and surface temperatures were measured at 12 sites on the subjects and manikin for each compartment of the dry suit system (skin, pile garment, suit garment). This allowed calculation of thermal resistance of every suit component in addition to the air and water boundary layer surrounding the suit. The results indicate the effect of wave conditions on physiological parameters and the body sites that were most affected by the effect of wave motion. Differences in results between human subjects and the manikin are also explained.

### Efficiency Improvement timelines for residential ventilation equipment : final report

Buchan, Lawton, Parent Ltd. Ottawa : Canada Mortgage & Housing Corporation, Research Division, 1995. vi, 45 p.  
MICROLOG 97-02964 (1 fiche)

There is one major sector of residential energy usage which has not received significant attention: the efficiency of equipment designed for moving air. This sector has become increasingly important with the increased use of devices such as heat recovery ventilators (HRVs) and the requirement for continuous mechanical ventilation to address major health concerns in housing. This report summarizes work undertaken in the development of an industry consensus for the improvement of the energy efficiency of residential ventilation equipment, or more specifically, the efficiency of the fan/motor sets incorporated into such devices. The work involved a process to develop an industry-supported timeline for these efficiency improvements and to detail the steps required. The process included a meeting with representatives from firms involved in the production and sale of exhaust fans, HRVs, furnaces, and motors. The report outlines the efficiency targets required for exhaust fans, HRVs, and circulation fans; investigates the optimal processes required, the sequencing actions necessary, and the time frame for completing each action to optimize the process for improving fan/motor set efficiency. The need for government assistance, mandatory testing, and enforcement of standards is also addressed.

### Ending the training tangle : the case against federal-provincial programs under EI

By Kenneth J. Boessenkool and William B. Robson. Ottawa : C.D. Howe Institute, 1997. 16 p. : Bibl. (Commentary / C.D. Howe Institute ; no. 86) At head of title: *Employment insurance*. ISBN 0-88806-406-3  
MICROLOG 97-02566 (1 fiche)

This commentary explains the reasoning behind the case for federal withdrawal from labour training. It begins with a review of the evolution of the unemployment insurance program, including the July 1996 reforms that renamed the program employment insurance (EI) and provided a new set of joint federal/provincial training programs funded from EI premium revenue. It then examines the basic issues of government involvement in job training and the historical record of that involvement by federal and provincial government. Finally, the commentary recommends complementary routes to disentangle that would improve Canadians' job prospects and reduce federal-provincial jurisdictional tensions and blurred accountability.

### L'Ennemi caché : transfert de la technologie concernant les pourridiés pour usage sur le terrain : guide du forestier servant à identifier et à enrayer les principaux pourridiés en Ontario

Par R.D. Whitney. Ottawa : Gouvernement du Canada, Service canadien des forêts ; Toronto : Ministère des richesses naturelles, 1988. 35 p. : ill., Cartes géogr. L'éd. anglaise (*The hidden enemy: root rot...*) : 97-01428/1. ISBN 0-662-94649-9 GCC-E no F042-106/1988F  
MICROLOG 97-03001 (1 fiche)

Il existe une documentation considérable, surtout de nature hautement technique, sur les pourridiés affectant les arbres de l'Ontario. Des revues spécialisées et les comptes rendus de colloques professionnels continuent de faire la chronique de la pathologie des infections de pourridié dans les arbres. Ce guide se limite à traiter des caries provoquées par les champignons. La carie de la tige et les maladies des racines causées par d'autres facteurs tels que les nématodes, virus, insectes, mycoplasmes, bactéries ou extrêmes du milieu n'y sont point traitées en détail.

### Enquête en laboratoire et surveillance sur place des murs à écran pare-pluie à pressions équilibrées

Présenté à : Division de l'Innovation dans l'habitation, Société canadienne d'hypothèques et de logement et Travaux publics et services gouvernementaux Canada ; préparé par : Richard Quirouette. Ottawa : la Division ; le Ministère, 1996. 47 p. : ill. L'éd. anglaise (*Laboratory investigation...*) : 97-02542/1.  
MICROLOG 97-02543 (1 fiche)

Ce rapport est le premier d'une série de trois consacrée aux recherches sur le rendement des écrans pare-pluie. On y examine le premier domaine d'intérêt, c'est-à-dire la surveillance du rendement sur place ainsi que l'humidification et le séchage des cavités. La surveillance sur place des actuels murs à écran pare-pluie a été entreprise dans deux immeubles, dont un mur rideau en métal et en verre, situé à l'Université du Québec à Hull (Québec), ainsi qu'un mur en béton architectonique et à revêtement en roche calcaire, de l'immeuble de La Canada Vie à Toronto (Ontario). Une enquête en laboratoire effectuée à la Queen's University portait sur l'humidification et le séchage d'un écran pare-pluie placé dans un mur rideau en métal et en verre.

### Enquête sur la qualité de l'air intérieur dans les bâtiments, 1987-94 : rapport sommaire

Par Todd Nathanson. Ottawa : Travaux publics et services gouvernementaux Canada, 1995. 8 p. : ill. L'éd. anglaise (*Indoor air quality...*) sur la même fiche.  
MICROLOG 97-02768 (1 fiche)

Les enquêtes sur la qualité de l'air intérieur (QAI) et sur le rendement des systèmes de chauffage, de ventilation et de conditionnement d'air qui se déroulent depuis 1987 et qui, jusqu'à présent, ont visé 95 édifices à bureaux, ont permis de recueillir des statistiques et de dresser une liste des principales recommandations d'améliorations ou de corrections. Travaux publics et Services gouvernementaux Canada utilise des outils et des techniques de pointe pour évaluer la QAI dans les édifices à bureaux. La publication des résultats de ses enquêtes sert à faire avancer les débats sur la QAI et sur les causes du syndrome des édifices hermétiques et à trouver des secteurs communs d'action. Ce document présente un rapport sommaire sur l'enquête sur la qualité de l'air intérieur dans les bâtiments.

ISBN 0-7732-5081-6  
MICROLOG 97-02866 (2 fiche)

This manual provides subdivision authorities, planners, consultants, and development officers with tools that can assist them to screen for, avoid, and/or resolve environmental concerns associated with subdivision applications. Sections of the manual cover primary land uses such as agriculture, industry, recreation, residential, and resource extraction; servicing arrangements; environmental features (hazards, constraints, and environmental protection) such as hills, valleys, watercourses, and hazardous areas; potential land use conflicts with nearby developments that have public health, safety, or quality of life concerns; and potential land use conflicts with nearby human-oriented buildings. Appendices include discussion of environmental references in the Municipal Government Act, a glossary, and guidelines for mapping proposed subdivisions.

### Estimating homelessness, towards a methodology for counting the homeless in Canada : background report

By T. Peressini, L. McDonald and D. Hulchanski.  
Ottawa : Canada Mortgage & Housing Corporation, Social & Economic Policy & Research Division, 1996. 126 p. : *Bibl.*  
MICROLOG 97-02826 (2 fiche)

Provides a review of the issues related to enumerating the homeless in local communities across Canada. Section 1 reviews the problems and issues associated with defining and counting the homeless, as identified in the literature. Section 2 presents an overview of the goals and results of a three-day workshop designed to bring together a panel of experts who have carried out research in the area or who are actively involved in providing services to the homeless. Issues considered in the workshop were: the definition of who the homeless are, the methods used to estimate the size of the homeless population, and techniques for facilitating and extending co-operation in efforts to count the homeless in the community. Section 3 consolidates the results of the literature review and the workshop into a description and overview of a preferred methodology for counting the homeless. This section also highlights issues and problems involved in implementing the methodology. Section 4 provides recommendations on the preferred definitions and techniques that should be used to enumerate the homeless in Canada.

### Estimation d'un indice d'abondance de la population de bélugas du Saint-Laurent en 1995

Par Michael C. Kingsley. Mont-Joli, PQ : Pêches et océans Canada, Division des sciences de l'environnement marin, Institut Maurice-Lamontagne, 1996. vi, 42 p. : *ill.*, *Bibl.* (Rapport technique canadien des sciences halieutiques et aquatiques / Canada. Ministère des pêches et des océans ; 2117 ISSN 0706-6570) L'édition anglaise (*Population Index estimate... sur la même fiche*. GCC-E no Fs 97-6/2117  
MICROLOG 97-02545 (2 fiche)

Le Plan d'action interministériel pour favoriser la survie du béluga du Saint-Laurent comprenait un volet de recherche visant à accroître les connaissances de la population, d'une manière qui permettrait d'orienter efficacement les mesures de gestion et de protection. Les recherches entreprises comprenaient des relevés aériens pour étudier la taille, la distribution et les mouvements de la popu-

lation. Ces activités se sont poursuivies dans le cadre du programme intergouvernemental "Saint-Laurent, Vision 2000". Ce rapport présente une estimation d'un indice standardisé de la taille de la population, obtenu à l'aide d'un échantillonnage photographique aérien effectué en août 1995. Il fait suite à d'autres relevés menés à l'aide des mêmes méthodes en 1988, 1990 et 1992.

### Estimation of the 1994 Harrison River chinook salmon escapement

By M.K. Farwell, L.W. Kalnin and A.G. Lotto.  
Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, 1996. viii, 29 p. : *ill.*, *Bibl.* (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2379 ISSN 0706-6473) CCG-P no. Fs 97-4/2379E  
MICROLOG 97-02685 (1 fiche)

The 1985 Pacific Salmon Treaty committed management agencies in the US and Canada to halt the decline in chinook salmon spawning escapements. To evaluate stock rebuilding progress, the Dept. of Fisheries & Oceans monitors a group of key stocks selected to represent British Columbia chinook stocks. The Harrison River stock, selected as an indicator stock, has been monitored annually since 1984. This report documents the 1984 field monitoring methods for this stock, the analytic techniques, and study results. Results presented include estimates of adult age, length, sex, adipose fin clip incidence, coded wire tag recoveries, and escapement by sex and age. The report concludes with discussion of data limitations and of the status of this stock.

### Étude de l'effet du vieillissement à la chaleur et du froid sur la durabilité des étanchéités

Par R.G. Turenne. Ottawa : Travaux publics Canada, Direction générale du logement, 1993. iv, 34 p. : ill. *L'éd. anglaise (Study of the effect...) sur la même fiche*.

MICROLOG 97-02740 (1 fiche)

Le but principal de cette étude était de déterminer les propriétés mécaniques et chimiques particulières de plusieurs produits appartenant à quatre grandes catégories afin de définir la gamme des niveaux de rendement possibles dans chacun de ces groupes et de fixer des niveaux d'acceptabilité pour ceux-ci. L'information ainsi obtenue servira à élaborer des protocoles d'essai pour les différents types d'étanchéité, protocoles que l'on pourra éventuellement incorporer dans les normes nationales sur les couvertures afin de les rendre plus objectives. Les propriétaires disposeront ainsi de renseignements sûrs sur la durabilité des couvertures à diverses températures d'utilisation. Les fabricants pourront aussi avoir recours aux résultats obtenus pour concevoir des matériaux plus durables pour leurs produits.

### Étude sur l'accroissement des investissements nationaux dans la recherche et le développement

Rédigée pour la Conférence annuelle des premiers ministres ; rédigée par le gouvernement de l'Ontario. Ottawa : le Secrétariat, 1996. 28, 26 p. : ill. *Bilingue (Issues paper on increasing...)*.  
Source du document: *Secrétariat des conférences intergouvernementales canadienne*.

MICROLOG 97-02481 (1 fiche)

Cette étude recherche l'accord sur les mesures des gouvernements provinciaux et territoriaux pour accroître les investissements du secteur privé dans la R.-D., notamment sur l'objectif d'un doublement au cours des dix prochaines années du nombre des PME qui investissent dans la R.-D. L'étude présente les défis qui se posent au Canada, du fait d'une faible culture des entreprises à l'égard de l'innovation, des coupures fédérales dans les dépenses en matière de sciences et de technologie en général, et des contraintes budgétaires sur les gouvernements provinciaux et territoriaux. On recherche un accord sur les points suivants : des principes directeurs sur une approche nationale à l'appui d'activités innovatrices pour le développement économique; des directives pour les ministres compétents des gouvernements provinciaux et territoriaux en vue de renforcer l'innovation pour le développement économique, grâce à un partage de l'information et à une promotion des réseaux et des liens; enfin, les principes exigeant l'engagement du gouvernement fédéral.

### Évaluation du marché du gaz naturel, contrats à long terme d'approvisionnement en gaz naturel canadien : mise à jour

Calgary, AB : Office national de l'énergie, 1997. iv, 49 p. : ill. *L'éd. anglaise (Natural gas market...)* : 97-02488/1. ISBN 0-662-81752-4 GCC-E no NE23-27/1997F  
MICROLOG 97-02475 (1 fiche)

Cette mise à jour du rapport de 1992 vise à dégager les changements importants survenus depuis 1991 dans les contrats à long terme. Nous examinons à la fois les nouveaux contrats signés depuis 1991 et les changements apportés aux contrats à long terme qui étaient en vigueur en 1991 à la suite des événements susmentionnés. Le chapitre 2 analyse l'évolution de la structure des contrats à long terme et des ententes de transport négociées entre les acheteurs et les vendeurs. Le chapitre 3 traite des grandes tendances qui se dessinent depuis le début des années 1990 en ce qui touche les méthodes d'établissement des prix et les indices de prix utilisés par les parties aux contrats à long terme. Le chapitre 4 résume les principales conclusions qui se dégagent de l'étude et fait ressortir les grandes différences entre les contrats destinés aux marchés intérieurs et ceux qui visent les marchés d'exportation.

### Evaluation of sequencing batch reactor sewage treatment plants for First Nation communities

By A.R. Townshend. Hull, PQ : Public Works Canada, DIAND Technical Services, 1994. ix, 169 p. : ill., *Bibl.*

MICROLOG 97-02807 (2 fiche)

Sequencing batch reactor (SBR) sewage treatment is an activated sludge process which treats a given volume of wastewater on a batch basis in a single reactor by a number of sequencing steps. The process eliminates the need for separate secondary clarifiers and sludge return pumps. This report was commissioned to verify the reported high performance of SBR systems in the US and Canada, with particular focus on Manitoba First Nations installations, and to be a compendium which would assist in transferring SBR technology to other First Nation communities across Canada. The report reviews the historical development of the SBR process; describes the various SBR technologies, their capabilities, and advantages over other mechanical biological wastewater treatment plants; and discussed operation and maintenance requirements. Guidance is provided on SBR plant design and on preliminary cost estimates. Appendices include process descriptions, equipment details, and process control procedures.

### Evaluation of the Frosty Hollow Quarry, Westmorland County, New Brunswick

Prepared by Three-D Geoconsultants Limited ; for Louis Drisdelle Ltd. Fredericton : Natural Resources & Energy, Minerals & Energy, 1996. iii, 18 p. : ill. (Open file report / New Brunswick Minerals & Energy Division ; 96-2 ISSN 1198-0648)  
On cover: *Canada-New Brunswick Cooperation Agreement on Mineral Development*.  
ISBN 1-55137-672-5  
MICROLOG 97-03020 (1 fiche)

The Frosty Hollow Quarry, located about 2 kilometres west of Sackville, New Brunswick, contains a red sandstone suitable for building stone and landscape applications. The quarry has been worked in the past, but the potential for producing additional stone was unknown. This report describes a project conducted to determine the resource availability and potential reserves of marketable stone in the quarry. Project work included stripping of overburden and trenching within the existing quarry pit area, followed by detailed geological mapping of the pit area and reconnaissance mapping of surrounding areas. Drawbacks of the quarry's current

working face are noted and areas are identified adjacent to the pit which have the potential for production of marketable stone.

### An Evaluation of the screening measurement as an indicator of average annual indoor radon exposure

By Michael W. LaFontaine. Ottawa : Canada Mortgage & Housing Corporation, 1996. iv, 43 p. : ill., *Bibl.*

MICROLOG 97-02827 (1 fiche)

Describes a study conducted 1994-95 to evaluate the radon screening measurement technique as an indicator of average annual indoor radon exposure. Data were obtained from 24 single-family detached houses across Ontario. Short-term (four-day) radon screening measurements were made in the basement and main living areas of each household during each of the four seasons of the year. In addition to the screening measurements, a long-term (annual) radon measurement was made in the main living area of each house. All short- and long-term measurements were made using electroret ion chambers. The short-term measurements are compared to the long-term measurements, which were used as a reference.

### An Evaluation of Victims' Services Division : final report

By: Collins Management Consulting & Research Ltd. ; in association with Martell Consulting Services Ltd. Dartmouth, NS : Collins Management Consulting & Research Ltd., 1996. ix, 129 p. : ill.

MICROLOG 97-02968 (2 fiche)

Presents the findings of an evaluation of the Nova Scotia Victims' Services Division, established in 1989 with a mandate to deliver a comprehensive criminal justice-based service to victims of crime in the province. Begins with an introduction on the evaluation issues and methodologies and an overview of the Division and programs. Methodologies used included in-person interviews with key informants, case studies, focus group discussions, client surveys, and document reviews. Evaluation issues included the quality and appropriateness of services provided, strategies to meet increased demands in service, and overall effectiveness in meeting goals. Four chapters are devoted to evaluation of specific programs (Regional Victims' Services, Victims' Services Funding, Child Victim Witness, and Criminal Injuries Compensation) and to providing recommendations for improvements. Concludes with discussion of other issues such as the Division's service delivery model, the victim fine surcharge, and data management. The appendix includes interview guides, questionnaires, and case studies.

### A Feature suppressed spread spectrum communication system : final contract report

By Wayne McPherson. Ottawa : Defence Research Establishment Ottawa ; Carleton University, 1996. xvii, 147 p. : *ill.*, *Bibl.* (DREO technical report / Defence Research Establishment Ottawa ; 96-684)  
MICROLOG 97-02844 (2 fiche)

Describes a novel technique of chip-rate hopping devised to suppress the chip rate feature of a direct sequence binary phase shift keying (DS-BPSK) communication system. Chip-rate hopping deterministically varies the chip rate through the utilization of a second pseudonoise sequence (PNS) in addition to the conventional PNS used to spread the transmitted data. A second enhancement, burst data transmission, was added. Spread data is transmitted on every eighth chip rate, while a third PNS is transmitted when data are absent. A hardware implementation of a DS-BPSK transmitter is presented along with experimental results demonstrating the detectability of the chip-rate feature. A software implementation of a matched filtering demodulation scheme was utilized to demonstrate acceptability of performance at an input signal-to-noise ratio of -15 decibels.

### Les Femmes francophones en Ontario : profil statistique

Toronto : Office des affaires francophones, 1996. 26, 26 p. : *ill.* *Bilingue* (*Francophone women in Ontario...*).  
MICROLOG 97-02495 (1 fiche)

Ce profil sur les femmes francophones en Ontario se fonde sur les résultats du recensement de 1991 effectué par Statistique Canada. Les données utilisées proviennent de l'échantillon de 20 % des personnes qui ont reçu le questionnaire détaillé. Le profil étudie nombre de variables, dont les caractéristiques démographiques, l'état civil et familial, le taux d'assimilation, l'éducation, la participation active à la main-d'œuvre et le revenu des femmes francophones. Sauf pour ce qui est de certaines données démographiques annotées, la plupart des statistiques se rapportent au groupe des 15 ans et plus. Des comparaisons sont faites avec l'ensemble de la population féminine en Ontario pour mettre en relief le statut relatif des femmes francophones. La situation des femmes francophones est également comparée à celle des hommes en vue d'établir les différences entre les sexes et de déterminer si les tendances au sein de la population francophone diffèrent de celles observées au sein de la population en général.

### A Field guide to counting and measuring salmonids using the Silhouette Imaging and Counting System (SIACS)

By John H. Pippy, Michael F. O'Connell and W. Gordon Whelan. St. John's : Dept. of Fisheries & Oceans, Science Branch, 1997. xi, 88 p. : *ill.* (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2386 ISSN 0706-6473) CCG-P no. Fs 97-4/2386E  
MICROLOG 97-02993 (2 fiche)

Describes an imaging system and procedures used for monitoring the upstream migration of salmonids. The system involves installation of a specially designed transparent tunnel in a counting fence. Images of fish passing upstream through the tunnel are obtained by closed circuit television and a motion detector, and processed with a video tape recorder or computer. Stereo images of fish in the form of a silhouette are produced through the use of a semi-transparent mirror, a retroreflective material lining the far wall and floor of the tunnel, and a unique lighting system. Two systems are described, which could be operated either independently or simultaneously. One is a semi-automatic system wherein counts and length measurements are determined by manually reviewing videotaped images. The other, a computer-based fully automatic system, has software that enhances and digitizes the silhouette image and stores counts (upstream, downstream, net direction), length measurements, time, and date. The principles of the imaging technique and procedures for installation, operation, and troubleshooting are presented.

### Filling the gap : learning and language in non-formal educational settings

Adult Popular Education Community Research Group (B.C.). Victoria : Ministry of Skills, Training & Labour, 1995. iii, 50 p. : *Bibl.*  
MICROLOG 97-02779 (1 fiche)

Begins with an overview of non-formal education, commonly defined as those deliberate educational activities not conducted in the school system, and characterized by such features as a flexible instructional style addressing practical client needs, non-credentialed instructors, and clients from groups underserved by the formal school system. The concept of popular education is also discussed along with the connections between literacy skills, non-formal education, and popular education. This is followed by a review of the state of non-formal education in British Columbia and a series of brief reports on non-formal education activities being conducted in the province by such organizations as immigrant associations, unions, private companies, and social service associations.

### Fission product tellurium and cesium telluride chemistry revisited

By J. McFarlane and J.C. LeBlanc. Pinawa, MB : Whiteshell Laboratories, 1996. 43 p. : ill., *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11333 ISSN 0067-0367)  
ISBN 0-660-16673-9 CCG-P no. CC2-11333E  
MICROLOG 97-02785 (1 fiche)

Discusses the chemistry of fission-product tellurium with a focus on conditions in an operating Candu reactor and in an accident scenario (a loss of coolant accident). Topics covered include tellurium in fuel, tellurium transport from fuel to containment, and tellurium in containment. Experiments are described investigating the volatilization of caesium tellurides, likely to be among the most abundant tellurium species released to containment. Second-law enthalpies and entropies were obtained for many of these species.

### Foreign direct investment and market framework policies : reducing frictions in APEC policies on competition and intellectual property

By Ronald Hirshhorn. Ottawa : Industry Canada, 1996. v, 69, vi, 84 p. : *Bibl.* (Discussion paper / Canada. Industry Canada ; no. 4) *Bilingual (L'investissement étranger direct...)*. ISBN 0-662-62355-X CCG-P no. C21-25/4-1996  
MICROLOG 97-02938 (2 fiche)

This paper contributes to the broader examination of liberalization within APEC. It complements the review paper on competition policy prepared by New Zealand last year and the subsequent discussions that took place at the Competition Policy Seminar held in Auckland in July 1995. It is relevant to a number of issues in the work plan of the Economic Committee of APEC, in particular he proposed research on the links between technology and foreign investment. The intent of this paper is to inform the dialogue among APEC members by providing a conceptual approach that directs attention to some important issues with respect to framework policies in general, and to competition and intellectual policies in particular. As such, it does not contain specific recommendations.

### Francophone women in Ontario : a statistical profile

Toronto : Office of Francophone Affairs, 1996. 26, 26 p. : ill. *Bilingual (Les Femmes francophones...)*.  
MICROLOG 97-02495 (1 fiche)

This profile on francophone women in Ontario is based on the 1991 Census conducted by Statistics Canada. Data from the 20% sample was used. The profile examines a range of variables including demographic characteristics, marital and family status, assimilation rate, education, labour force activity and income of francophone women. Except for some demographic data where noted, most variables are based on the age group 15 years and over. Comparisons are made to the province's female population as a whole in order to determine the relative status of francophone women. The situation of francophone women is also compared to that of francophone men to establish gender differences and to determine whether trends in the francophone population differ from those found in the province's general population.

### Fuel pellet manufacturing and marketing opportunities in British Columbia

Prepared by Sandwell Inc. and Jim McWilliams. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. vi, 64 p. : ill. (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; 96.10)  
MICROLOG 97-02925 (1 fiche)

Assesses the technical and economic potential for the manufacturing and marketing of fuel pellets and briquettes made from the large surpluses of wood residues available in British Columbia. After reviewing marketing opportunities for residential and industrial pellets, both domestically and offshore, as well as the volumes and characteristics of wood residues available in various parts of the province, a case study approach is used to assess three locations for wood pellet plants: in the British Columbia interior near Merritt, in the lower Fraser River valley, and on the Queen Charlotte Islands. The case studies include plant descriptions, capital and operating cost estimates, and financial analysis.

ses. For the Queen Charlotte Island plant, the potential for generating electrical power using wood residues is also evaluated.

**Geology of the mine workings of Cobalt and South Lorrain silver areas, together with a description of milling and metallurgical practice in treatment of silver ores at Cobalt**

By Cyril W. Knight. Toronto : Dept. of Mines, 1924. xii, 374 p. : ill., Maps Published as vol. XXXI, part II of Ontario Dept. of Mines annual report, 1922.

MICROLOG 97-02511 (4 fiche)

The Cobalt silver area is located about 80 miles north-east of Sudbury, Ontario. The South Lorrain silver area lies about 16 miles south-east of the town of Cobalt. These two areas produced (as of 1924) 96% of the total output of silver from all parts

of the Cobalt silver camp. This report begins with a chapter on the recent discoveries of ore bodies, production statistics of the entire camp, theories regarding the origin of the silver ores, and general aspects of the areas' mine geology such as faults, veins, and controls on silver deposition. This is followed by a description of the mine workings and geology of nearly every property in the Cobalt area and the South Lorrain area. The next chapter describes the milling and metallurgical procedures used in treating the Cobalt silver ores, including crushing, gravity concentration, cyanidation, and flotation. Flow charts are provided. The final chapter contains an extensive literature review on the geology of the Cobalt area.

### The Graying of Canadian suburbs : patterns, pace and prospects

By Gerald Hodge ; with the assistance of Laurie McKay and John B. Collins. Ottawa : Canada Mortgage & Housing Corporation, 1994. xii, 82 p. : ill., Maps, Bibl. MICROLOG 97-02957 (2 fiche)

The overall goal of this study is to develop a statistical perspective on the degree, pace, and characteristics of the population aged 65 years and older living in suburban areas of Canada's 25 Census Metropolitan Areas (CMAs) over 1971-91. Work performed in the study included comparison of: the extent to which suburbs and central (core) cities of all the CMAs vary in their concentrations of elderly people; the degree to which young old (age 65-74) and very old (75 and older) populations are separated from the total population and younger adult age groups in all CMAs in central cities and suburbs; the household composition of the elderly in central cities and suburbs in all CMAs during 1986; and the tendencies of age concentration and living arrangements of the elderly in representative census tracts within the central city and suburban

rings of a selected CMA, Vancouver, for 1986. Implications for suburban planning and housing are discussed.

### Guide d'évaluation de la microcogénération pour les immeubles du gouvernement fédéral

Par Edward Morofsky. Ottawa : Travaux publics Canada, 1993. vi, 120 p. : *ill.* L'éd. anglaise (*Microcogeneration assessment...*) : 95-07465/2. MICROLOG 97-02742 (2 fiche)

Ce rapport est divisé en trois parties. La première renferme une introduction aux techniques de cogénération. Toutes les questions touchant l'appropriation de la cogénération sont traitées, notamment les techniques de nivellement de la charge, le bilan énergétique de systèmes types, les charges thermique et électrique, les émissions de Nox et de Sox, le bruit, les volets structuraux et architecturaux, de même que le transit de l'électricité. Une description détaillée de la méthode d'évaluation est fournie dans la deuxième partie. Les données techniques nécessaires à l'évaluation sont décrites, de même que toutes les étapes de cette évaluation, dont la détermination de la viabilité technique et économique et de la capacité du système de cogénération. Les évaluations ont été effectuées sous deux angles, soit en fonction de systèmes de cogénération autonomes et de systèmes faisant appel à des refroidisseurs à absorption, les possibilités techniques sont habituellement plus propices mais le coût en capital de ces refroidisseurs rend généralement les projets moins économiques. La troisième partie renferme les évaluations des immeubles et fournit les données justificatives pour chaque application.

### A Guide to public-private partnerships for solid waste/resource management in Nova Scotia

By Jacques Whitford Environment Limited ; In association with R. Cave and Associates Limited, Yorkshire Water Enterprises (UK) and Doane Raymond Limited. Halifax : Dept. of Housing & Municipal Affairs, 1996. viii, 164 p. : *Bibl.* MICROLOG 97-02657 (3 fiche)

This guide is intended to provide basic information on public/private partnerships (PPP) for municipal solid waste and resource management in Nova Scotia. It provides information on PPP models and on which models may be most useful to meet the waste/resource management challenge currently faced by provincial decision makers. The guide explains how to get started with the PPP process, and how to select a private partner, how to develop contracts and work with the partner during the life of the contract. The appendix contains sample documents (a request for qualifications, a call for proposals, and a contract) and a list of elements found in a failing PPP strategy.

### Guidelines to coaching and the NCCP in British Columbia

Victoria : Sport Services Branch, 1997. 85 p. Cover title: *Guidelines to the National Coaching Certification Program in B.C.* MICROLOG 97-03047 (1 fiche)

The National Coaching Certification Program (NCCP) promotes and develops excellence in coaching throughout Canada by providing coaches at all levels with a systematic process to improve their knowledge and skill in the theoretical, technical, and practical aspects of coaching. The NCCP is a partnership between sport organizations and governments. The purpose of this document is to outline the policies, procedures, and guidelines for the delivery of NCCP courses in British Columbia. Sections of the document cover NCCP general policies such as course prerequisites, pass/fail standards, and course equivalencies; delivery of NCCP levels 1 to 3 theory, including course scheduling, home study, and examinations; NCCP course conductors; delivery of NCCP technical levels 1 to 3; delivery of NCCP levels 4 and 5; bursary and grant programs; and coach recognition programs. Appendices include sample forms and directories of course conductors and sport organizations.

### The Halifax Summit, sustainable development, and international institutional reform

Edited by John Kirton and Sarah Richardson. Ottawa : National Round Table on the Environment & the Economy, 1996. 133 p. : *Bibl.* ISBN 1-895643-34-1 MICROLOG 97-02929 (2 fiche)

The National Round Table held a workshop in 1995 to examine ways to integrate sustainable development considerations more fully into the Halifax Summit of the Group of Seven nations. This report is based mainly on the presentations of speakers at that workshop but also incorporates some of the background material prepared prior to the workshop. Chapter 1 addresses some questions of international institutional reform required to deal with sustainable development issues subsequent to the 1992 United Nations Conference on Environment and Development. Chapter 2 traces the deliberations and decisions on environmental and development issues at Group of Seven summits from 1975 to 1994, with a focus on Canada's contribution. Chapter 3 assesses Canadian preparations for the Halifax Summit and chapter 4 suggests ways that the Round Table could contribute to the Summit agenda. Chapters 5 and 6 consider international financial institutions and environmental implications their activities. Chapters 7 and 8 examine issues relating to international trade, development, and environment. Chapters 9 and 10 discuss the need for a new international organization to manage the world's environment. The final three chapters present US, German, and Japanese perspectives on the Halifax Summit.

### Hamilton air quality, 1983

Toronto : Ministry of the Environment, West Central Region, Technical Support Section, Air Quality Assessment, 1984. v, 46 p. : *ill.*, *Maps* MICROLOG 97-02806 (1 fiche)

The Air Management Program in Ontario is based on controlling man-made emissions to meet ambient air quality objectives. To achieve this, sources of pollution are identified, their emissions evaluated and appropriate control measures are instituted. Ambient air monitoring is then used to verify that the controls have been successful. The Ministry of the Environment operates a network of ambient air monitors throughout Hamilton, and this document presents an analysis for data for particulates, sulphur dioxide, total reduced sulphur, carbon monoxide, oxides of nitrogen, ozone and fluoridation.

### High-temperature chemistry of molybdenum, cesium, iodine and UO<sub>2</sub>+x

By J. McFarlane, D.G. Owen and J.C. LeBlanc. Pinawa, MB : Whiteshell Laboratories, 1996. 25 p. : *ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11708 ISSN 0067-0367) ISBN 0-660-16701-8 CCG-P no. CC2-11708E MICROLOG 97-02973 (1 fiche)

The chemistry of fission-product molybdenum in nuclear fuel will affect both the local oxygen potential and the speciation of other fission products. This report presents a study of the stability of cesium iodide (CsI) in the presence of molybdenum and unirradiated fuel at temperatures encompassing those that Candu fuel may experience when undergoing normal irradiation and when involved in a severe accident. Investigators observed reaction between CsI, uranium oxide, and molybdenum in a Knudsen cell mass spectrometer and noted the factors influencing the extent of the reaction and the differences in the reaction when unoxidized or slightly oxidized fuel samples were used. The results indicate the degree of importance of the reaction of CsI with elemental molybdenum as a contributor to molybdate formation.

### Highway construction and management in cold regions

By D.R. MacLeod. Ottawa : Public Works Canada, Architecture & Engineering, 1991. 26 p. : ill., *Bibl.* MICROLOG 97-02748 (1 fiche)

The requirement for dust-free travelling surfaces in northern Canada has provided the impetus to evaluate bituminous surface treatments (BSTs) as an alternative to gravel or asphalt paving. Since 1980, a BST program has been in place, resulting in 2,630 kilometres of BST within the numbered highway system of the Yukon, the Haines Road, and the Alaska Highway. The purpose of this paper is to describe the methodology used for evaluating these roads in a systematic format, applicable to roads in northern Canada. Information contained in the paper has been compiled from highways in Yukon and northern British Columbia. The paper reviews the three grades of BST and describes the BST management system at the network level, where the system develops a BST performance/cost model to permit road management strategy and optimization decisions. BST management techniques are also described, in which life cycle costing is used to identify the alternative with the least total cost. The final section analyzes various BST strategies for Yukon and northern British Columbia highways. CA ND NO PW SC

### The Hog and pork industries of Denmark and the Netherlands : a competitiveness analysis

Lars Brink...et al. Ottawa : Agriculture & Agri-Food Canada, Economic & Policy Analysis Directorate, 1997. v, 118 p. : ill., *Bibl.* French ed. (*L'Industrie porcine du Danemark...*) : 97-03478/2. MICROLOG 97-02690 (1 fiche)

Presents an analysis of the hog & pork industries of Denmark & the Netherlands, carried out to help address questions arising in the development of government policies & industry strategies concerning these industries in Canada. These 2 countries were chosen for analysis because of their strong export orientation, their large market shares in certain export markets, & their success in maintaining shares in export markets for hogs or pork. This report provides some background on the 2 countries, including an overview of the long-term evolution of the policy environment for agriculture; reviews the Danish hog and pork industry under 3 headings: industry structure, performance & determinants of competitiveness, with a similar outline on the Dutch hog & pork industry; introduces some features of the European Union policy, including the Common Agricultural Policy; identifies strengths, weaknesses, opportunities & constraints of each country's industry; & gives concluding remarks about the possible interpretation of the analysis. ### The Housing conditions of Aboriginal people in Canada, 1991

Ark Research Associates. Ottawa : Canada Mortgage & Housing Corporation, Social & Economic Policy & Research Division, 1996. 112 p. : ill., *Maps, Bibl.* MICROLOG 97-02972 (2 fiche)

The main objective of this study is to portray the current housing situation of all peoples in Canada who identify themselves as Aboriginal, using the commonly understood and applied housing norms and standards of the Canada Mortgage & Housing core housing need model. That model is based on the concept that a household should have access to a dwelling unit that is adequate in condition, suitable in size, and affordable. Other housing condition indicators are used in the study to expand the picture provided by applying the core model, revealing additional information on the adequacy and suitability of Aboriginal housing conditions today. The first chapter of the study report sets out concepts, data, and methodologies, including their assumptions and limitations. The next three chapters bring together demographic, socio-economic, geo-

graphic, health, and housing characteristics of Aboriginal peoples pertinent to the understanding of housing conditions. Chapters 6 through 8 address the study's primary objectives, describing the housing conditions of Aboriginal households and relating them to the circumstances of Aboriginal peoples. ### The Housing crisis in Canada's Inuit communities : final report

Submitted to Canada Mortgage and Housing Corporation, Dept of Indian and Northern Development. Ottawa : Inuit Tapirisat of Canada, 1996. 33 p. MICROLOG 97-02955 (1 fiche)

A 1991 survey has revealed that Inuit live in the most overcrowded housing in Canada, indicating the need for development and implementation of an Inuit housing policy. This document presents national and regional objectives for such a policy, including reinstatement of funding for new Inuit housing, carrying out of federal fiduciary responsibilities, making decisions based on human costs to Inuit, ensuring government compliance with the Constitution, and Inuit involvement in planning and implementation. It concludes with recommendations regarding the housing policy. CA ND NO NP SA SS

### The Human factor in firms' performance : management strategies for productivity and competitiveness in the knowledge-based economy

By Keith Newton. Ottawa : Industry Canada, 1996. v, 87, v, 105 p. : ill., *Bibl.* (Occasional paper / Canada. Industry Canada ; 14) *Bilingual (Le Facteur humain dans le rendement...)*. ISBN 0-662-62200-6 CCG-P no. C21-23/15 MICROLOG 97-02809 (3 fiche)

The strategies for managing the human factor are in a state of flux: there are many labels but no clear boundaries. The paper seeks to describe some of the interrelated, overlapping firm-level strategies and practices, to look at evidence of their uptake and performance, and to stimulate discussion about possible roles for governments and about future research needs. In short, it is designed to be a scene-setting exercise, a starting point for policy research and development on innovative workplaces. CA CO LA ND SS

### A Human factors evaluation of the ALBEDOS human-machine interface for search and rescue

By Sharon M. McFadden and Yvonne P. Shek. North York, ON : Dept. of National Defence Canada, Defence & Civil Institute of Environmental Medicine, 1996. v, 40 p. (DCIEM report / Defence & Civil Institute of Environmental Medicine (Canada) ; no. 96-R-44) MICROLOG 97-02892 (1 fiche)

ALBEDOS (Airborne Laser Based Enhanced Detection and Observation System) is an active imaging device designed to enhance surveillance capability at night and under degraded weather conditions. It is currently being developed for use in search and rescue operations. This report describes a human factors evaluation of the ALBEDOS human-machine interface, including a desktop analysis of the system for compliance with military standard MIL-STD-1472D and structured interviews with potential users of the system. These users participated in technical trials and carried out several scenarios that involved detecting and identifying targets at night. Alternative concepts for the ALBEDOS interface are discussed. ### A Hydroacoustic survey of Pacific hake on the continental shelf off British Columbia from the Canada/U.S. boundary to Queen Charlotte Sound, August 15 - 31, 1994

By K. Cooke...et al. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, Pacific Biological Station, 1996. iv, 51 p. : ill., *Maps, Bibl.* (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2363 ISSN 0706-6473) CCG-P no. Fs 97-4/2363E MICROLOG 97-02682 (1 fiche)

Describes a hydroacoustic survey for Pacific hake (*Merluccius productus*) conducted off Vancouver Island and into Queen Charlotte Sound in August 1994 to determine the distribution and abundance of hake in the area. The study included trawling operations to verify acoustic targets and to examine the hake size distribution and age composition as a function of latitude. Distribution of hake stocks in relation to oceanographic conditions is discussed. Results presented include acoustically determined biomass for all species and for hake, as well as summary information on associated midwater trawl catches. BC CA CF FI LS ND SC

### A Hydroacoustic survey on the continental shelf off British Columbia to evaluate new fisheries acoustic instrumentation and to obtain Pacific hake stock assessment information, May 28 - June 4, 1994

By R. Kieser, K. Cooke and W.T. Andrews. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, Pacific Biological Station, 1996. iv, 35 p. : ill., *Maps, Bibl.* (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2378 ISSN 0706-6473) CCG-P no. Fs 97-4/2378E MICROLOG 97-02681 (1 fiche)

Focuses on the biological and stock assessment information obtained during a joint Canada/Japan research cruise conducted to compare state-of-the-art fisheries acoustic instrumentation and procedures, and to obtain new information on Pacific hake (*Merluccius productus*) stock off Vancouver Island. Reports on the survey design, gear configuration and application, acoustic biomass estimates for all targets observed and for hake, and on the biological information obtained from fishing operations. The discussion of results examines the potential for future information exchange, research, and industrial development. BC CA CF FI LS ND SC

### Hydrogen absorption by grade-2 titanium

By James J. Noel...et al. Pinawa, MB : AECL, Whiteshell Laboratories, 1996. 32 p. : ill., *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11608 ISSN 0067-0367) ISBN 0-660-16676-3 CCG-P no. CC2-11608E MICROLOG 97-02703 (1 fiche)

Describes experiments performed to determine the hydrogen absorption characteristics of grade-2 titanium. Galvanostatic experiments were conducted in solutions of hydrochloric acid and sodium chloride at 25 and 95 degrees C and crevice corrosion experiments in neutral sodium chloride solution at 100 and 150 degrees C. The objective of the work was to determine the rate of hydrogen absorption into the metal, one of the three critical parameters that determine when hydrogen-induced cracking could occur. Hydrogen analysis was performed by a hot vacuum gas extraction technique. Parameters studied include amount of cathodic charge passed, current density, time, and temperature. A threshold potential for hydrogen absorption was determined. CA DE PS SC

### Hypothèses reliées aux effets environnementaux du projet Grande Baie sur l'écosystème marin côtier du sud-est de la baie d'Hudson

M. Gilbert...et al. Mont-Joli, PQ : Ministère des pêches et des océans, Institut Maurice-Lamontagne, 1996. xii, 67 p. : *Cartes géogr., Bibl.* (Rapport technique canadien des sciences halieutiques et aquatiques / Canada. ### Impacts of flow regulation on the aquatic ecosystem of the Peace and Slave rivers

By T.D. Prowse and M. Conly ; other authors and contributors: B. MacLock...et al. Edmonton : Northern River Basins Study, 1996. xi, 168 p. : *Ill., Maps, Bibl.* (Northern River Basins Study synthesis report / Northern River Basins Study (Canada) ; 1 ISSN 1205-1616) ISBN 0-662-24697-7 CCG-P no. R71-49/4-1E  
MICROLOG 97-02946 (2 fiche)

This report synthesizes research on one of the ten guiding questions in the Northern River Basins Study: how river flow regulation impacts the aquatic ecosystem. The report begins with a review of the state of river diversions and modified flow regimes within Canada, and the ecological impacts that are known or likely to occur from regulation of large northern rivers. It then provides a biophysical description of the Peace and Slave rivers and delta systems, and synthesizes results of various scientific reviews and field/laboratory studies. Topics of those studies include flow regulation of the river main stem and the Peace-Athabasca delta, modeling of hydraulic flood routing, regulation effects on the ice regime, fluvial geomorphology and vegetation regimes, water chemistry effects, and effects on aquatic and riparian ecosystems. The report concludes with a summary of the major results and a compendium of scientific recommendations for modification of existing conditions, monitoring of future trends, and future research.

### Implications of adopting the National Energy Code for Housing in Ontario

For Canada Mortgage & Housing Corporation, Ontario Hydro...et al. ; Habitechnica. Ottawa : Canada Mortgage & Housing Corporation, 1995. v, 235 p. : *Ill.*  
MICROLOG 97-02960 (3 fiche)

Examines a broad range of implications associated with adoption of the National Energy Code for Housing (NECH) in Ontario. Compares the Ontario Building Code and the NECH, with commentary on key differences between the two codes. Implications for energy consumption, environmental impacts, and the housing and construction industry for adopting the NECH are reviewed, along with cost implications of adoption from a capital, energy, and life cycle viewpoint while examining environmental costs by monetizing space heating equipment emissions. A number of technical issues are also examined in relation to specific NECH requirements for such matters as exterior lighting controls, programmable thermostats, heat pumps, and windows. Finally, adoption issues are discussed as identified by focus groups composed of

industry and enforcement officials.

### Incumbent upgrading implications for residential revitalization

By Christine McKee and Christian Douchant. Ottawa : Canada Mortgage & Housing Corporation, 1994. xiii, 120 p. : *Ill., Maps, Bibl.*  
MICROLOG 97-02782 (2 fiche)

Incumbent upgrading is defined as a process involving owner occupiers whereby physical improvement of dwellings by incumbent residents takes place at a substantial rate with no significant change in the socio-economic status or characteristics of the population. This study examines incumbent upgrading as a force in inner city residential revitalization. It develops a framework for analysis to examine what processes of change are at work in inner city areas like that of Winnipeg so that forces such as gentrification and incumbent upgrading can be identified as separate phenomena and the latter examined. The analysis is based on indicators that measure both actual reinvestment and renovation in housing stock and the socio-economic characteristics of neighbourhoods. Techniques such as correlation analysis and linear regression test the assumptions that incumbent upgrading is spatially associated with certain social status factors and other factors such as neighbourhood stability and public policy intervention. Incumbent upgrading areas in Winnipeg are identified and described in terms of physical and socio-economic characteristics.

### Indicators of ecosystem integrity : Peace-Athabasca delta

By David B. Donald...et al. Edmonton : Northern River Basins Study, 1996. iv, 56 p. : *Ill., Maps, Bibl.* (Northern River Basins Study project report / Northern River Basins Study (Canada) ; no. 107 ISSN 1192-3571) ISBN 0-662-24828-7 CCG-P no. R71-49/3-107E  
MICROLOG 97-02944 (1 fiche)

The purpose of this report is to identify potential ecological indicators that could be used in future monitoring programs assessing the health and integrity of the aquatic environment of the Peace-Athabasca delta, with a focus on the large, persistent delta lakes and channels. The identified indicators were developed from historical data and from a 1994 limnological survey of Mamawi and Claire lakes. The main criteria for selecting the indicators were: relevance to the public, cost of collecting data, and linkages with the food web which includes the people of the Fort Chipewyan area. The indicators include three physical/chemical and four structural indicators (species abundance and structure, fish harvest).

### Indoor air quality assessment strategy

By Robert O. Davidge, Tedd Nathanson and Gema Kerr. Ottawa : Public Works Canada, Architectural & Engineering Services, Building Performance Division, Technology, 1992. 30 p. : *Ill.* French ed. (*Stratégie d'évaluation...*) on the same fiche.  
MICROLOG 97-02735 (1 fiche)

This paper describes a three-stage approach to the determination and assessment of indoor air quality problems, starting with a series of observations and inspections to be made during a building walk-through, progressing to a series of simple measurements, and finally, if necessary, terminating with complex measurements of indoor air quality parameters. Hopefully, by following it, the reader will be able to properly diagnose the true cause of air quality complaints in the least costly and least time consuming manner possible. It is only by determining the true cause(s) of complaint that the most cost-effective retrofit and problem avoidance

strategies may be planned.

New Brunswick. Legislative Assembly. Select Committee on Gasoline Pricing. Fredericton : The Committee, 1996. 39 p. : ill. Cover title: *Interim report of the Select Committee on Gasoline Pricing, second session, fifty-third Legislative Assembly of the Province of New Brunswick.*  
MICROLOG 97-03014 (1 fiche)

Presents interim findings of a committee appointed to examine and make recommendations with regard to gasoline pricing in New Brunswick. Includes background on the oil business in Canada and New Brunswick, including production, refining, the retail sector, and the structure of the New Brunswick motor fuel industry; an overview of presentations from oil companies and retail gasoline dealers at the committee hearings; a review of regulatory initiatives in other provinces and the United States; and an analysis of four key issues: unexplained differentials in gasoline prices between New Brunswick and the rest of Canada, taking into account the province's relatively low motor fuel tax; the impact of fuel tax reduction; the impact of inde-

pendent dealers; and price discrimination. Finally, four options for addressing those issues are discussed.

### **International Energy Agency. Working Party End-Use Technologies. Energy Conservation Through Energy Storage Implementing Agreement : Annual report 1992**

Ottawa : Public Works Canada, Architectural & Engineering Services, RD&D Technology, 1993. 34 p. : Bibl.  
MICROLOG 97-02821 (1 fiche)

Development of a safe, clean & efficient energy supply system requires a variety of dependable energy storage systems. Even within the IEA structure the importance of energy storage is not universally well understood. Energy storage involves many disciplines of engineering. Energy storage enhances the value of waste heat, & also enables better use of ambient energy sources. Storage will have a positive impact on future energy supply systems on both the micro & macro scale. Energy storage also benefits & extends conventional energy systems. This report describes the proceedings of meetings & gives progress reports on projects in thermal storage, lake storage, aquifer storage, short-term water heat storage, full-scale latent heat storage, environmental & chemical aspects of thermal energy storage, & seasonal cold storage systems.

### **International Energy Agency. Working Party End-Use Technologies. Energy Conservation Through Energy Storage Implementing Agreement : Annual report 1993**

Ottawa : Public Works & Government Services Canada, Architectural & Engineering Services, RD&D Technology, 1994. 41 p.  
MICROLOG 97-02772 (1 fiche)

The mission of the Agency is to facilitate and accelerate the development and implementation of energy storage technologies which have the potential of significantly increasing the efficiency of energy use in the building, industrial and agricultural sectors for world-wide application, and of contributing to the preservation and improvement of the environment. This annual report summarizes annexes 1-8 and gives an update of the work done by the Agency under the Energy Storage Implementing Agreement. It concentrates on the achievements of Annex 6 by quoting from the evaluation done by the Canadian representative, and reports on the initiation of a new Annex 8.

### **Introduction to logistic regression models, with worked forestry examples**

By Wendy A. Bergerud. Victoria : Ministry of Forests, Research Program, 1996. x, 147 p. : ill., Bibl. (Biometrics information handbook / British Columbia. Ministry of Forests ; no. 7 ISSN 1183-9759) (Working paper / British Columbia. Ministry of Forests ; 26/1996)  
MICROLOG 97-03032 (2 fiche)

Introduces the fundamentals of statistical models in general and the logistic regression model for two response categories in particular. This is followed by a technical explanation of methods of, and problems with, fitting logistic regression models, parameter estimation, and testing. Five forestry examples are then used to illustrate possible study designs and the statistical aspects of logistic regression analysis. The first example applies simple regression to a study of caribou and wolf predation; the second and third are one-way classification studies of the survival and age of stands with root-rot and of a controlled experimental fertilizer trial; the fourth is a multiple regression analysis of a herbicide thinning trial; and the fifth uses one-way classification with covariate to study the attack of root collar weevil. Chapter 5 presents worked examples of calculating logistic regression using Version 6.10 of the SAS software. The final two chapters cover some advanced topics regarding indicator (or dummy) variables and other methods to fit the one-way classification models.

(Rapport d'information / Centre de foresterie du Pacifique ; BC-X-362F) L'éd. anglaise (*Canada's forest inventory 1991...*) : 97-01068/1. ISBN 0-662-81109-7 GCC-E no F046-17/362F  
MICROLOG 97-02998 (1 fiche)

Au moment de la préparation de l'Inventaire des forêts du Canada 991, aucune nouvelle donnée du Québec n'était disponible. Lors de la publication des données du Québec en 1994, la base de données 1991 a été modifiée et est devenue la version 1994. Ce document est un addenda au rapport principal, l'Inventaire des forêts du Canada 1991 et met à jour certaines données principales et les cartes. Dans les rapports précédents, les sommaires des données pouvaient être présentés par province et territoire et par région et section forestières. Ils peuvent maintenant l'être aussi par écozone et écorégion. Certains tableaux présentent maintenant des données en fonctions de ces trois importants systèmes de régionalisation administrative et naturelle.

### **An Inventory of Canadian municipal public-private partnerships**

Ottawa : The Government ; Halifax : The Province, 1996. xl, 97 p. *Funded in part under the Canada/Nova Scotia COOPERATION Agreement to promote private sector participation in municipal infrastructure.*  
MICROLOG 97-02653 (2 fiche)

This inventory identifies 163 public/private partnerships at the municipal level from across Canada. These pertain to both physical infrastructure and municipal services, and include partnerships that are currently under way, under consideration, and in the negotiation stage, as well as those that have

been cancelled for various reasons. Information provided for each partnership includes: background to the partnership; project description; motivation for the project; role of the private partner; contract details; challenges to implementation; current status; budget; and contact name and telephone number. The inventory is arranged by project category (environmental, recreation, community/civic, transportation, technology) and in alphabetical order by name of municipality within each category. Cross-reference tables provide access by province, partnership type, budget, and municipality.

### Les Invertébrés des fonds meubles et la biogéographie du Fjord du Saguenay

Par Luc Bossé, Bernard Sainte-Marie et Judith Fournier. Mont-Joli, PQ : Ministère des pêches et des océans, Division des invertébrés et de la biologie expérimentale, Institut Maurice-Lamontagne, 1996. vii, 45 p. : ill., *Bibl.* (Rapport technique canadien des sciences halieutiques et aquatiques / Canada. Ministère des pêches et des océans ; 2132 ISSN 0706-6570) GCC-E no FS 97-6/2132F  
MICROLOG 97-02549 (1 fiche)

Les objectifs de cette étude étaient, dans un premier temps, d'élargir les connaissances sur la faune du Fjord en inventoriant les invertébrés benthiques circalittoraux et bathaux des fonds meubles. Dans un deuxième temps, nous avons voulu reconsidérer l'hypothèse selon laquelle le fjord du Saguenay est une enclave arctique en milieu boréal à l'aide, cette fois, des invertébrés benthiques, qui sont de meilleurs indicateurs biogéographiques que les poissons en raison de leur diversité spécifique et de leur sédentarisme bien plus grands. Pour ce faire, nous avons comparé la faune d'invertébrés benthiques du Fjord à celle de l'estuaire maritime du Saint-Laurent. Si l'hypothèse d'enclave arctique est valide, le Fjord devrait présenter une bien plus grande proportion d'espèces d'affinité arctique que l'Estuaire maritime, seul habitat marin qui lui soit immédiatement adjacent.

### L'investissement étranger direct et les politiques d'encadrement du marché : réduire les frictions dans les politiques axées sur la concurrence et la propriété intellectuelle au sein de l'APEC

Par Ronald Hirschhorn. Ottawa : Industrie Canada, 1996. vi, 84, v, 69 p. : *Bibl.* (Document de discussion / Canada. Industrie Canada ; no 4) *Bilingue* (Foreign direct investment and market...). ISBN 0-662-62355-X GCC-E no C21-25/4-1996  
MICROLOG 97-02938 (2 fiche)

Ce document contribue à l'examen plus vaste de la libéralisation au sein de l'APEC. Il sert de complément à l'examen de la politique de concurrence produit par la Nouvelle-Zélande l'an dernier et les échanges subséquents qui ont eu lieu lors du colloque sur la politique de concurrence organisé à Auckland en juillet 1995. Il touche directement un certain nombre de questions énoncées dans le plan de travail du Comité économique de l'APEC, notamment la recherche proposée sur les liens existant entre la technologie et l'investissement étranger. Ce document cherche donc à éclairer le dialogue engagé parmi les membres de l'APEC en fournissant un cadre conceptuel qui concentre l'attention sur certaines questions importantes ayant trait aux politiques d'encadrement en général et aux politiques de concurrence et de propriété intellectuelle en particulier.

### Iron deposits in the District of Algoma : appendix, Lakemount property, township 28, range XXIV

By E.S. Moore and H.S. Armstrong. Toronto : Dept. of Mines, 1948. v, 127 p. : ill. *Fold. maps not filmed.* Published as vol. LV, part IV, of the Ontario Dept. of Mines annual report, 1946.  
MICROLOG 97-02528 (2 fiche)

This report describes the deposits found in the six main iron ranges in the Algoma District, inland from eastern Lake Superior. It begins with a review of the history of the iron discoveries, previous geological work, and features common to all the ranges. Each range is presented in separate chapters and the information provided covers the regional topography, stratigraphy and lithology of the Precambrian rock formations, Pleistocene deposits, structural geology (folding and faulting), and economic geology. The latter includes theories regarding the origin of the iron formations, their structure and metamorphism, and descriptions of ore bodies, ore mineralogy, mine properties, and mining operations. The appendix describes the geology of a basic intrusive found on the Lakemount property at Sunrise and Elbow lakes in Township 28, Algoma District. The intrusive contains low concentrations of copper and nickel.

### Iron formation of Lake St. Joseph : eastern part of Lake St. Joseph : area south of the west end of Lake St. Joseph

By E.L. Bruce. Toronto : Dept. of Mines, 1923. iv, 43 p. : ill. *Published as vol. XXXI, part VIII, of the Ontario Dept. of Mines annual report, 1922.*  
MICROLOG 97-02515 (1 fiche)

The first part of this report describes a 1921 examination of the iron formation located at Lake St. Joseph near the headwaters of the Albany River on the boundary of the Kenora and Thunder Bay districts, northern Ontario. It includes descriptions of the area topography, natural resources, general Precambrian geology, general character and origin of the iron-bearing beds, rocks of the granite and

pre-granite intrusions, glacial deposits, geological history, and exploration history, and concludes with information on the iron formation, its possible origin, and composition of the iron deposits. The final two parts contain briefer descriptions of the geology of areas at the eastern and south-west parts of Lake St. Joseph.

### Issues affecting the translation of 3D databases

By Stephen Ginsberg. Ottawa : Public Works Canada, A&ES National Office, Buildings Sector, 1994. 19 p. : *Bibl.* *On cover: A&ES funded R&D project.*  
MICROLOG 97-02745 (1 fiche)

Modelling in three dimensions (3D) is often the single most labour intensive and time consuming activity in 3D visualizations. There is therefore a need to reuse 3D models created by someone for a specific purpose and on a particular computer system for other visualizations involving a completely different purpose and system. This paper outlines and discusses the various factors that affect the translation of 3D databases between different software programs and hardware platforms. Issues discussed include file anomalies, numerical precision, basic units of geometric information, co-ordinate systems, insertion points, data files, attribute data, symbol translation, common file exchange formats, model construction, level of detail and dimensional accuracy required, the translation process, translation software, and time and cost factors.

### Issues paper on increasing national investment in research and development

Prepared for the annual Premiers' Conference ; prepared by the Government of Ontario. Ottawa : The Secretariat, 1996. 26, 28 p. : ill. *Bilingual* (Étude sur l'accroissement...). Source: Canadian Intergovernmental Conference Secretariat.  
MICROLOG 97-02481 (1 fiche)

This paper seeks agreement on provincial and territorial government actions for increasing private sector investment in R&D, in particular, on the goal of doubling, in the next ten years, the number of small and medium-sized businesses that invest in R&D. The paper outlines challenges in Canada posed by a weak business culture with respect to innovation, federal cuts in support for science and technology in general, and fiscal pressures on provincial and territorial governments. Agreement is sought on: guiding principles for a national approach supporting innovative activity for economic development; directions for appropriate provincial and territorial government ministers to strengthen innovation for economic development by sharing information and promoting linkages and networks; and, principles requiring federal government commitment.

### Kootenay Plains Ecological Reserve management plan

Edmonton : Dept. of Environmental Protection, 1996. 68 p. : *Bibl.*

MICROLOG 97-02868 (1 fiche)

Kootenay Plains is designated as an ecological reserve to protect a portion of the land in Alberta that represents the montane area of the Rocky Mountains. This plan document, prepared with extensive public involvement, provides the overall direction for the protection, management, and operation of the reserve. The first part of the document presents background information used in preparation of the plan, including the role of the reserve within Alberta, the reserve location and boundaries, the reserve's biophysical and cultural resources, land uses, and management issues identified by the public. Part two outlines the plan's values, objectives, and goals for future management, and presents management guidelines and implementation tasks regarding vegetation, wildlife, aquatic resources, geological resources, historic resources, monitoring, scientific research, heritage appreciation, tourism, recreation, and surrounding lands.

### Leaching of wood preservatives from treated wood in service

By Paul A. Cooper. Ottawa : Public Works Canada, Architecture & Engineering, 1991. v, 79 p. : *Ill., Bibl.* ISBN 0-662-18870-5 CCG-P no. W63-22/1991E MICROLOG 97-02771 (1 fiche)

This report attempts to answer the following points, based on available field and laboratory evaluations of preservative losses from treated wood: the variables affecting preservative losses; levels of contaminants in leach water and surrounding environment; net rates of loss over the life of the treated wood; and conditions resulting in unacceptable human exposure to wood preservatives. Separate chapters are devoted to inorganic preservatives (copper arsenates), creosote, pentachlorophenol, and natural wood extractives. Recommendations are included for minimizing adverse effects on public health and the environment. The final chapter describes a field sampling and analysis of water near arsenate-treated wood in the Trent Canal system. The appendix includes a summary of published data on preservative losses from treated wood. CA EV ND SC

### Legal services to departments and agencies : evaluation assessment

Ottawa : Dept. of Justice Canada, Bureau of Programme Evaluation & Internal Audit, 1983. 30 p. MICROLOG 97-02833 (1 fiche)

The goal for the evaluation assessment phase described in this document was to develop an evaluation plan for Dept. of Justice legal services to government departments and agencies which would be feasible, credible, and relevant to the needs and concerns of such audiences as the Deputy Minister and departmental lawyers. The document begins with background on the evaluation and a profile of the Dept.'s legal services, including its legislative and policy mandate, program background, operating environment, and program resources. It then presents a program model or schematic representation of the relationships between the basic activities of departmental legal services, the outputs of those activities, and their expected efforts and impacts. Factors affecting the evaluation are outlined and evaluation questions are identified in three groups: organizational effectiveness, quality of legal services, and impact of legal services. Finally, various evaluation methods are summarized. CA JU ND PA SS

### Legislative Assembly estimates, 1997-98

Alberta. Alberta Treasury. Edmonton : The Treasury, 1997. 43 p. ISSN 0842-4829 MICROLOG 97-02878 (1 fiche)

Presents the budget plans for the offices of the Legislative Assembly, including summaries by vote and office and of operating expenses by object for all offices; capital investment, voted estimates, income statements and the schedule of amounts to be voted. The summary by vote and office shows amounts for operating expense, and capital investment where appropriate, together with historical data on a comparable basis. The summary of operating expense by object for all offices identifies items such as salaries, supplies and amortization of capital assets. Capital investment includes the cost of office equipment, and voted estimates are presented for each office by vote and element. Income statements are also presented for each office. The schedule of amounts to be voted presents each vote by office. AL CO PA PR SS

### Lighting and human health : a review of the literature

By Benjamin Rusak, Gail A. Eskes and Stephen R. Shaw. Ottawa : Canada Mortgage & Housing Corporation, 1996. v, 112 p. : *Ill., Bibl.* MICROLOG 97-02962 (2 fiche)

This review summarizes current knowledge of the effects of light on people and assesses the implications of this knowledge for practices relating to illumination of homes through windows. The review focuses on natural light, either diffuse light from the sky (daylight) or direct radiation from the sun, rather than artificial light. Sections of the review cover the characteristics and measurement of light, the human visual system, light effects on physiology (extraretinal effects and retinally mediated effects), light effects on mental health (including light therapy, sleep, and mood disorders), and illumination in the home and workplace. The appendix contains

an analysis of full-spectrum lighting studies and a brief summary of studies on windowless classrooms.

### Low temperature effects on the microstructure of cement paste cured in seawater

By H.M. Hachem and M.S. Cheung. Ottawa : Public Works Canada, Architecture & Engineering, 1990. 219 p. : ill., *Bibl.* MICROLOG 97-02769 (3 fiche)

Describes a study conducted to determine the interrelationship between the microstructure and physico-mechanical characteristics of portland cement prepared and hydrated in a saltwater environment simulating Arctic marine concrete construction conditions. The scope of the investigation included the preparation and curing of cement paste cubes for initial periods of 3 to 15 hours in a cold room controlled at 4 degrees C and then exposing them to simulated seawater baths controlled at temperatures from -2 to +2 degrees C for periods of 1 to 180 days. Laboratory tests conducted on the cement samples examined cement morphology, degree of hydration, porosity, density, pore size distribution, and compressive strength development. Reference specimens prepared, cast, and cured at room temperature and at 4 degrees C, but not exposed to seawater, were used for comparison.

### Lumber drying kiln workbook : airflow and heat distribution evaluation -- 3d ed.

Vancouver, BC : B.C. Hydro, Power Smart, 1996. 100 p. : ill., *Bibl.* ISBN 0-7726-3062-3 MICROLOG 97-03039 (2 fiche)

This workbook describes how to take and analyze airflow and temperature measurements in lumber drying kilns. The results of airflow and heat distribution evaluations determined using the procedures presented, when combined with results of self-grading, will indicate where improvements can be made in order to increase overall lumber drying quality while making the kiln more energy-efficient and possibly reducing drying times. Specific topics covered include equipment required, airflow and temperature calculations, and airflow distribution analysis. The appendix contains a copy of the softwood lumber guidebook and checklist produced under the IMPROVE Lumber Drying Program.

### Management of terminal weevils in British Columbia

Victoria : Ministry of Forests ; BC Environment, 1996. v, 29 p. : ill., *Bibl.* At head of title: *Forest Practices Code of British Columbia.* ISBN 0-7726-3053-4 MICROLOG 97-03058 (1 fiche)

Terminal weevils are found throughout most regions in British Columbia on pine and spruce, and their feeding and larval mining on trees may cause unacceptable growth loss and stem deformation in young stands. The two terminal weevil species of economic importance in the province are the spruce or white pine weevil, *Pissodes strobi*, and the lodgepole terminal weevil, *Pissodes terminalis*. This guide reviews the life history and biology of these weevils, their impact on spruce and pine trees, and weevil management strategies. Information is provided on hazard and risk rating systems, and weevil control strategies for stand establishment as well as for established stands. Includes glossary.

### Manitoba. Dyking Commissioner : Annual report 1995

Winnipeg : The Commissioner, 1996. I, 42 p. MICROLOG 97-02721 (1 fiche)

The Dyking Authority Act D110, passed in 1952, is meant to ensure that the dykes and pumping stations constructed subsequent to the 1950 flood are maintained in a state of readiness to combat future floods. Authority and control over dykes and pumping stations is with the city or rural municipality in which they are situated, but provision has been made for the appointment of a Dyking Commissioner with powers to inspect dykes and pumping stations and to order work to be undertaken to maintain an integrated system of flood defences as well as to establish the location of the line of defence. The annual report reviews general mandate and its changes, current issues, current action on issues, inspection of facilities, reports by the City of Winnipeg and the University of Manitoba, operation of pumping stations and gates, additional works constructed and recommendations.

### A Market study of Argentina and Brazil

Western Canadian Wood Machinery & Services Export Assn. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. 82 p. : *Ill.*, *Maps* (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; 96.12)  
MICROLOG 97-02927 (1 fiche)

Presents an analysis of the Brazilian and Argentine forest sectors as part of a larger project undertaken with the following objectives: to assess the potential for exports of wood machinery and engineering products; and to formulate market development plans for those jurisdictions where export opportunities exist. Begins with a review of the political climate, business environment, and forestry sector in Brazil and Argentina, then focuses on specific parts of that sector to assess export opportunities. Sectors examined are the consulting engineering and wood panel industry, the sawmill sector, and the harvesting sector. Market strategies for sawmill and harvesting equipment, as well as tactical approaches to marketing in the two countries, are presented. The appendix includes notes on field visits to sawmilling and harvesting operations in the two countries.

### Measurement and linear prediction of hull pressure spectra on CFAV Quest : results of Q210, vol. I

By David C. Stredulinsky, Neil G. Pegg and Layton E. Gilroy. Dartmouth, NS : National Defence, Research & Development Branch, Defence Research Establishment Atlantic, 1996. v, 54 p. : *Ill.*, *Bibl.* (DREA technical memorandum / Defence Research Establishment Atlantic ; 96/229)  
MICROLOG 97-02840 (1 fiche)

Trial Q210 was undertaken in November 1993 on the vessel CFAV QUEST to measure hull pressure loads and structural response during various operational conditions in moderate seas. This memorandum describes results of measurements and predictions for ship motions and for the pressure loads. Pressure spectra derived from the measurements are compared to predictions using PRECAL, a three-dimensional linear ship motion and load prediction code. The comparison indicates the potential for using PRECAL to predict fatigue load histories for ship hull structures.

### Microbially influenced corrosion of copper nuclear fuel waste containers in a Canadian disposal vault

By Fraser King. Pinawa, MB : Whiteshell Laboratories, 1996. 74 p. : *Ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11471 ISSN 0067-0367) ISBN 0-660-16674-7 CCG-P no. CC2-11471E  
MICROLOG 97-02786 (1 fiche)

This assessment of microbially influenced corrosion (MIC) of copper nuclear fuel waste containers is based on a consideration of the microbial activity within a disposal vault, the reported cases of MIC of copper alloys, and the known corrosion behaviour of copper. Because of the critical role of biofilms in the reported cases, biofilm formation and properties are discussed in detail. Various MIC mechanisms are proposed and critically assessed, and the implications for corrosion of copper containers are considered. Because of the predominance of corrosion by sulphate-reducing bacteria in the MIC literature, the abiotic behaviour of copper alloys in sulphide solutions is also reviewed. The effect of the evolving environment in a disposal vault on the extent and location of microbial activity is discussed and a modelling procedure for predicting the extent of corrosion is presented.

### Ministry of Forests roles and responsibilities review : final report

By Steve Spalding. Victoria : The Ministry, 1994. 45 p.  
MICROLOG 97-03057 (1 fiche)

Presents findings and recommendations from a British Columbia Ministry of Forests review of roles and responsibilities in its branch, regional, and district offices. The broad objective of the review was to find ways to help the Ministry better manage forest and range land in the province. Factors driving the need to conduct the review include: concerns about staff ability to cope with increased workloads; changes in public expectations about the Ministry's role; and the need to identify efficiencies in operations and administration. The review focused on interviewing staff who deliver Ministry services. Findings are presented with regard to five fundamental problem areas identified in the review: the Ministry's program orientation, unclear definition of staff and line functions, managerial accountability, control processes and reporting systems, and fragmentation of policy setting responsibility. The recommendations include a proposed new administrative and functional structure.

### Motor vehicle insurance in British Columbia at the cross roads, vol. I : the case for change

By KPMG, Exactor Insurance Services Inc., Eckler Partners Ltd. ; to Insurance Corporation of British Columbia. Toronto : The companies, 1996. 65 p. :

III.  
MICROLOG 97-02780 (1 fiche)

This report is part of a study conducted to assess the range of cost control options available to the Insurance Corporation of British Columbia (ICBC) and the provincial government. It first analyzes ICBC's historical cost trends, outlines projected future cost trends for the major components of the auto insurance product, and investigates factors associated with rising costs. The next two chapters address the immediate need to reduce ICBC costs and premiums in the short term and the costs of the various aspects of ICBC's business, in particular the legal costs generated by the claims process. The potential for cost savings from ICBC's major business processes is then assessed. This is followed by examination of the continuing growth in claims in the long term and discussion of options for loss prevention. Finally, the report examines the existing Insurance environment, primarily a fault-based system, and whether such a system intensifies the pressures driving cost trends at an unacceptable rate. Conclusions are made regarding two components of insurance reform.

### Motor vehicle insurance in British Columbia at the cross roads, vol. II : options and choices

By KPMG, Exactor Insurance Services Inc., Eckler Partners Ltd. ; to Insurance Corporation of British Columbia. Toronto : The companies, 1997. ii, 243 p. : ill.  
MICROLOG 97-03045 (3 fiche)

This report is part of a study conducted to assess the range of cost control options available to the Insurance Corporation of British Columbia (ICBC) and the provincial government. It presents a range of motor vehicle insurance product models and improvements to the major business processes that together support ICBC's and its service providers' administration of an effective insurance system. Major themes in this volume are cost, cost containment, and the need to respond decisively to the opportunities to reduce motor vehicle crashes and the resulting carnage, injuries, and disruptions caused by the rising frequency of such crashes. Product design impacts on key ICBC business processes and the impacts of product and process reform on ICBC's financial and operational position are analyzed. New process cost models are linked to the product options and premiums. The final chapter discusses a long-term solution to auto insurance problems through programs to change behaviour and thus control cost trends. Appendices include detailed product descriptions.

### Le Multiculturalisme, réalisation de l'engagement du gouvernement, 1995-96

Ottawa : Patrimoine canadien, 1996. viii, 125, viii, 107 p. *Bilingue (Multiculturalism, meeting the...)*. Titre de la cov.: *Rapport annuel sur l'application de la Loi sur le multiculturalisme canadien*. MICROLOG 97-02726 (3 fiche)

Ce rapport est un témoignage des progrès envers la création d'une société où chacun a sa place, et une déclaration sur la façon dont les Canadiens travaillent en vue de gérer la diversité canadienne au bénéfice économique et social du pays. Dans ce rapport on décrit des activités et bénéfices selon domaine, et selon ministère ou agence du gouvernement fédéral. Les domaines traitent des affaires économiques (agriculture et alimentation; environnement, finances et développement; services et normes; transports); administration gouvernementale; politique sociale et politique de la santé; commerce international, politique étrangère et politique de défense; justice et affaires juridiques; identité nationale et affaires culturelles. ### Multiple-field-of-view lidar tests : monitoring adverse weather for performance assessment of electro-optics weapons

By Luc R. Bissonnette and Daniel L. Hutt. Valcartier, PQ : Defence Research Establishment Valcartier, 1996. vi, 85 p. : ill., *Bibl.* (DREV report / Defence Research Establishment Valcartier; R-9422) MICROLOG 97-03067 (2 fiche)

Describes an inversion method for lidar measurements made at multiple fields of view (MFOV). The solutions give the profiles of the visible and infrared aerosol extinction coefficients along the lidar axis without the need for a boundary value nor a backscatter-to-extinction relation. The solutions are compared with in-situ data obtained in two different field experiments performed in fog and clouds. The comparison analysis demonstrates the capabilities of the MFOV lidar in providing the necessary inputs for on-site assessment of the performance of military electro-optical systems in adverse weather. A series of recommendations is presented, based on the experimental results and a detailed design study, regarding the development of a compact, ruggedized, eye-safe MFOV lidar suitable for field testing in true operational conditions. Ce document présente le rapport annuel du Musée du Québec, ainsi que les états financiers de l'exercice. Il présente un organigramme et décrit les activités des directions de la Conservation, de l'Éducation et de l'Animation culturelle, des Communications, du Développement, et de l'Administration. Ensuite il décrit les expositions, les acquisitions, et les prêts. Le rapport se termine avec les listes des publications, du personnel, et des Amis du Musée. CU PR QU SS

### Narrowband technologies for tactical communications (U)

By Daniel Boudreau... et al. Ottawa : Industry Canada, Communications Research Centre, 1996. vii, 36 p. : ill., *Bibl.* (CRC report / Communications Research Centre (Canada); no. 95-005) MICROLOG 97-02902 (1 fiche)

Describes the fundamentals of an implementation of a narrow-band mobile radio, using state of the art signal processing algorithms. The radio uses low bit rate vocoder techniques and bandwidth efficient digital modulation methods. To accommodate challenging design requirements such as reduced radio-frequency channel bandwidth, increased robustness, low transmitted power, and good voice quality, sophisticated signal processing techniques were used, including combined source and channel coding, efficient adaptive equalization on fading channels, soft-output symbol detection, and combined channel and source coding/decoding. The relationship between the different algorithms used is described. Results are included from performance tests of a prototype, including bit error rates and performance with channel coding. CA ND PS SC TE

### NATO Panel VII/SICA International training exercise on the identification of peptides

By James R. Hancock and Paul A. D'Agostino. Medicine Hat, AB : National Defence, Defence Research Establishment Suffield, 1996. 24 p. : ill. (Suffield memorandum / Defence Research Establishment Suffield; no. 1481) MICROLOG 97-02847 (1 fiche)

The current lack of analytical methods for mid-spectrum biological agents prompted the holding of an international training exercise focusing on the identification of these agents. The objective of the exercise was to evaluate the basic capabilities of the laboratories of five countries to determine molecular weights and primary amino acid sequences for five unknown peptides with molecular weights in the same range as many mid-spectrum agents. All laboratories used mass spectrometry to determine either monoisotopic or average molecular weights for the unknown peptides. This report outlines the exercise procedures and presents the results. ### Natural gas market assessment, long-term Canadian natural gas contracts : an update

Calgary, AB : National Energy Board, 1997. iv, 49 p. : ill. *French ed. (Évaluation du marché...)* : 97-02475/1. ISBN 0-662-25338-8 CCG-P no. NE23-27/1997E MICROLOG 97-02488 (1 fiche)

Deregulation of natural gas markets in the mid-1980s brought about significant new trends in gas contracting practices, such as increased flexibility for buyers and sellers, simpler and shorter contract terms, and a wider range of contracting options and services. This update identifies those

changes that have occurred since 1991 in long-term contracts, including both new contracts executed since 1991 as well as changes to those that were in effect in 1991. The update is based on analysis of a data base of almost 200 long-term contracts, including most export contracts filed with the National Energy Board as of May 1996. The main focus of the update is on contract terms and conditions. It documents the impact of the withdrawal of US interstate pipelines from their traditional merchant function on long-term contracts for Canadian gas, discusses trends with respect to pricing and pricing indices used by the contracting parties, and examines mechanisms used to secure contractual obligations as compared to earlier periods. The final section identifies important differences between domestic and export contracting patterns.

### **New approaches to unclaimed intangible property administration in British Columbia : a legislation discussion paper, working to reunite owners with their unclaimed intangible property**

Victoria : Ministry of Finance & Corporate Relations, Office of the Comptroller General, Financial Management Branch, 1997. 49 p. *Executive summary (4 p.) laid in.* ISBN 0-7726-3046-1  
MICROLOG 97-03038 (1 fiche)

The British Columbia government is considering replacement of the Unclaimed Money Act with new legislation intended to improve the administration of unclaimed intangible property such as money, shares, bonds, insurance policies, and travellers' cheques. The objective of the proposed Unclaimed Intangible Property Act presented in this discussion paper is to reunite owners with their unclaimed property, now being held by business and financial organizations. Under the proposed Act, those organizations will be required to transfer their unclaimed property holdings to the government, generally after a period of five years of no communication with the owner. The new legislation will also establish an Unclaimed Property Office to function as the custodian of such property on behalf of the province, to safeguard that property in perpetuity, and to administer a program to locate rightful owners or heirs.

### **Newfoundland. Board of Commissioners of Public Utilities : Annual report 1995-96**

St. John's : The Board, 1996. i, 47 p. MICROLOG 97-02696 (1 fiche)

The Board is an independent, quasi-judicial regulatory agency appointed by the Lieutenant-Governor in Council, and operates primarily by virtue of the Public Utilities Act, 1990. Its primary responsibility is the regulation of the electric utilities in the province to ensure that the rates charged are just and reasonable, and that the service provided is safe and secure. Other responsibilities include the supervision of rates charged by automobile insurers for the various automobile insurance coverages, as well as limited regulation of the motor carrier industry in relation to certain passenger and ambulance operations. The annual report presents reports from each industry involved with the Board: electric power, automobile insurance, and motor carrier. Includes orders of the Board, and financial statements. Reports from the electric utilities in the province are included as well: Newfoundland Light and Power Co. Limited, Newfoundland and Labrador Hydro, and Deer Lake Power Company Limited.

### **Noise control earth berms : guidelines for the use of earth berms to control highway noise**

By C.W. Wakefield. Victoria : Ministry of Transportation & Highways, Highway Engineering Branch, 1997. 26 p. : ill. ISBN 0-7726-2964-1  
MICROLOG 97-03028 (1 fiche)

Highway noise barriers have three basic forms: a wall, an earth berm, or a wall/berm combination. This document presents guidelines for design and construction of earth berm and berm/wall noise barriers. It first introduces the fundamentals of noise transmission and attenuation and the characteristics of noise barriers. The noise attenuation performance of earth berms and berm/wall combinations is discussed with reference to scale model experiments. Effects on noise reduction of various berm and wall characteristics such as slope, profile, highway setback, presence of vegetation, and surface materials. Includes glossary and a revised version of the British Columbia Ministry of Transportation & Highways policy for highway noise mitigation.

### Off-reserve native housing : a discussion paper

For Métis National Council. Ottawa : Canada Mortgage & Housing Corporation, 1993. xvi, 83 p. : *Bibl.*  
MICROLOG 97-02963 (2 fiche)

This paper is intended to elicit dialogue and support consultations on measures which result in replacement initiatives to meet the housing needs of Metis and off-reserve Aboriginal peoples. Part 1 discusses the population and income characteristics of these populations and analyzes the housing needs of the Aboriginal community. Part 2 provides an independent assessment of the Native housing portfolio of Canada Mortgage & Housing, including a compilation of available information on existing housing programs, the location of units, tenure of units, and the revenues, costs, and subsidies of the individual programs. A brief presentation of the on-reserve housing program of Indian & Northern Affairs is also made. Part 3 contains case studies of successful and innovative Metis housing initiatives to gain insight on the extent to which it is possible to build on such efforts. Part 4 presents some options for pursuing self-sufficient Aboriginal housing in the future. Finally, part 5 examines the economic impact of housing. It estimates the impact of housing construction on employment and income and examines the economic and social benefits which housing can generate for the Aboriginal community.

### Oil and gas fiscal regimes of the western Canadian provinces and territories -- Rev.

Edmonton : Alberta Energy, Policy Division, Royalty & Land Tenure Policy Branch, 1995. II, 44 p. : *III.* ISBN 0-86499-848-1  
MICROLOG 97-02888 (1 fiche)

This report compares the fiscal regimes in B.C., Alberta, Saskatchewan and Manitoba and discusses those of the Yukon and Northwest Territories. The comparison does not take into account variations in exploration, drilling, and development costs or the variation in the frequency and size of hydrocarbon discoveries in each jurisdiction. Data is given for Crown royalties, incentives, freehold taxes, and corporate taxes for conventional and non-conventional crude oil, natural gas, natural gas byproducts, and enhanced oil.

### Ontario. Comité des maladies professionnelles : Rapport annuel 1995-96

Toronto : le Comité, 1996. 36, 35 p. : *Bibl.* ISSN 1203-2174  
MICROLOG 97-02983 (1 fiche)

Ce rapport annuel vise à souligner quelques-uns des problèmes que posent les maladies en grappes dans le domaine de la reconnaissance des maladies professionnelles. Il reproduit les réponses officielles que la Commission des accidents du travail a fournies au cours de l'année suite aux conclusions de la Commission en vertu de la Loi sur les accidents du travail. De plus, sont exposées les diverses questions qu'étudie actuellement le Comité et qui feront l'objet de rapports subséquents. Finalement, le rapport présente les états financiers du Comité, les communications et l'administration, et on présente les membres et le personnel du Comité.

### Ontario secondary schools, 1998 : detailed discussion document

Toronto : Ministry of Education & Training, 1996. 64 p. ISBN 0-7778-5610-7 ONTERIS ON08510  
MICROLOG 97-02819 (1 fiche)

This document reflects the process of consultation to date on the reform of secondary education in Ontario, a process assisted by the work of the Royal Commission on Learning and the Secondary School Reform Advisory Group, among others. The reforms outlined in this document will improve the quality of secondary education and respond to the key concerns of parents, students, and employers about curriculum standards and student achievement. It examines the current structure of the secondary school program and details possible changes. The detailed discussion covers such topics as different ways to earn credits, entry/exit and re-entry policies, language programs, antiracist education policies, the changing role of teacher education, the role of technology, and special education.

### Options for quality assurance in higher education in the Maritimes : discussion paper

Fredericton : Maritime Provinces Higher Education Commission ; Council of Maritime Premiers, 1997. 16, 16 p. *Bilingual (Options en matière d'assurance...)*.  
MICROLOG 97-03009 (1 fiche)

This document presents options designed to provide institutions and other stakeholders in the region with instruments to ensure quality. Some of these options could be carried out individually or severally by the Maritime Provinces Higher Education Commission. The paper briefly describes each instrument and the procedures it entails, and raises a series of questions for consideration. The quality assurance instruments presented in this paper are: programme assessment; institutional quality assurance policy; audit of the institutional quality assurance procedures and practices; and, quality assessment by fields, disciplines or programme family.

### Organismes de service spéciaux : aspects financiers

Par John Dingwall. Ottawa : Centre canadien de gestion ; Conseils et vérification Canada, 1996. viii, 64, viii, 56 p. (Les Pratiques de gestion / Centre canadien de gestion ; 15) *Bilingue (Special operating agencies : financial...)*.  
ISBN 0-662-62550-1 GCC-E no SC94-62/15-1996  
MICROLOG 97-02885 (2 fiche)

Ce document offre une analyse des questions financières entourant les organismes de service spéciaux. Il s'agit de l'un de dix documents sur des questions particulières relatives aux OSS, rédigé parallèlement à un examen réalisé en collaboration pour faire le point sur les OSS. L'ensemble de ces documents procurera des renseignements utiles à la collectivité des OSS, aux organismes qui songent à devenir OSS et à d'autres intéressés. Les points qui y sont abordés sont les suivants : mécanismes de financement; exigences financières et questions budgétaires; questions relatives à l'établissement des prix; systèmes d'information; et, questions culturelles.

### Organismes de service spéciaux : comités consultatifs de gestion, rôle et activités

Par E. Jane Newcombe. Ottawa : Centre canadien de gestion ; Conseils et vérification Canada, 1996. x, 50, x, 48 p. (Les Pratiques de gestion / Centre canadien de gestion ; 17) *Bilingue (Special operating agencies : management...)*.  
ISBN 0-662-62552-8 GCC-E no SC94-62/17-1996  
MICROLOG 97-02886 (2 fiche)

Ce rapport porte essentiellement sur le rôle des comités consultatifs de gestion dans le modèle OSS, d'abord du point de vue pratique en se fondant sur l'expérience vécue par les OSS existants, puis du point de vue théorique, en se basant sur les expériences d'autres groupes consultatifs et conseils d'administration tant au Canada qu'à l'étranger. Le rapport établit une distinction entre un comité consultatif et un comité de gestion ou de direction interne d'un ministère ou d'une direction générale, ou d'autres groupes de consultation qui peuvent jouer un rôle semblable en matière de consultation. Le comité consultatif se caractérise par son degré d'autonomie par rapport à l'organisme responsable (compte tenu de la présence de membres venant de l'extérieur de l'organisme) et par l'accent qui est mis plus particulièrement sur la prestation de conseils stratégiques plutôt que sur les opérations quotidiennes ou l'orientation de l'or-

ganisme.

### Organismes de service spéciaux : plans d'entreprise et rapports annuels

Par Doreen Wilson. Ottawa : Centre canadien de gestion ; Conseils et vérification Canada, 1996. viii, 38, viii, 34 p. : *Bibl.* (Les Pratiques de gestion / Centre canadien de gestion ; 13) *Bilingue* (*Special operating agencies : business plans...*). ISBN 0-662-62024-0 GCC-E no SC94-62/13-1996 MICROLOG 97-02852 (1 fiche)

Ce document porte sur le rôle du plan d'entreprise et du rapport annuel dans le contexte du projet des organismes de service spéciaux. Cette analyse est fondée sur les résultats d'entrevues réalisées auprès des chefs d'organisme et d'autres personnes touchées par le projet. Nous nous sommes précisément penchés sur le rôle que le plan d'entreprise et le rapport annuel devaient idéalement jouer dans la conclusion d'ententes de responsabilité spéciale et à titre d'instruments d'orientation stratégique, et nous avons comparé ce rôle visé initialement à celui que ces documents semblent jouer à l'heure actuelle. Pour ce faire, nous avons mené des entrevues au sein des OSS. Le rôle des plans d'entreprise et des rapports annuels canadiens a été comparé avec celui de leurs équivalents britanniques, dans le cadre du programme Next Steps, qui a joué un rôle prépondérant dans la création des OSS au Canada.

### Organismes de service spéciaux : problèmes de gestion des ressources humaines

Par Betty Rogers. Ottawa : Centre canadien de gestion ; Conseils et vérification Canada, 1996. xii, 59, x, 55 p. : *Bibl.* (Les Pratiques de gestion / Centre canadien de gestion ; 14) *Bilingue* (*Special operating agencies : human resources...*). ISBN 0-662-62185-9 GCC-E no SC94-62/14-1996 MICROLOG 97-02829 (2 fiche)

En 1993, on a entrepris une Étude sur les organismes de service spéciaux afin de faire le point sur les progrès accomplis relativement au projet d'OSS, de connaître les obstacles relevés dans le cadre de ce projet et de proposer des solutions qui permettraient de le raffermir. Les résultats de cette étude se fondaient sur les profils d'auto-évaluation approfondis de six des premiers OSS, de même que sur de nombreuses entrevues menées auprès de cadres supérieurs de ces OSS et d'autres OSS, de leur ministère d'attache et des agences centrales. Parallèlement à cette étude, on a préparé une série de documents sur des questions importantes liées au projet d'OSS. Ce document, qui fait partie de cette série, met l'accent sur les questions se rattachant à la gestion des ressources humaines. Ce document présente les principales constatations.

### Organismes de service spéciaux : vérification et évaluation

Par Michael Thomas. Ottawa : Centre canadien de gestion ; Conseils et vérification Canada, 1996. vi, 44, vi, 38 p. : *Bibl.* (Les Pratiques de gestion / Centre canadien de gestion ; 16) *Bilingue* (*Special operating agencies : audit...*). ISBN 0-662-62551-X GCC-E no SC94-62/16-1996 MICROLOG 97-02887 (2 fiche)

Ce document traite d'un certain nombre de questions qui portent sur ce sujet, dont la question de l'obligation de rendre compte des OSS et des différences à cet égard par rapport à des organisations fédérales plus conventionnelles. Il fait le lien entre l'obligation de rendre compte et la mise en place d'une fonction d'examen du rendement en plus de définir les rôles de la vérification et de l'évaluation dans le cadre d'un tel examen. Il propose différentes mesures de rendement pour les OSS et il étudie les divers aspects de la vérification

et de l'évaluation dans le contexte de ces mesures. Il examine l'application des cadres de rendement pour les OSS et fournit un exemple d'un cadre. Il fait valoir que ces cadres seraient grandement utiles aux gestionnaires des OSS et aux autres intéressés.

### A Pavement management system for the Alaska Highway

By D.R. MacLeod. Ottawa : Public Works Canada, Architecture & Engineering, 1990. ii, 125 p. : *Ill.*, *Bibl.* MICROLOG 97-02749 (2 fiche)

This report outlines the results of an analysis of some 1,395 kilometres comprising 135 sections of the Alaska Highway and Haines Road, and presents some preliminary findings based on a proposed pavement management system for those highways. The objective of the pavement management system is to provide highway managers with an effective tool for making timely and accurate decisions about maintenance and rehabilitation, particularly in the formulation of five-year spending plans. Pavement condition surveys were conducted, focusing on visual observation of surface distress and a cursory evaluation of skid resistance and structural capacity. Identification of current needs was developed with the aid of pavement condition indices which combined the distresses identified in the field study into a composite index for each section. A computer program was developed which calculated the indices and allowed identification of sections showing potential for failure and where immediate treatment could replace a more major rehabilitation in the near future. A performance prediction model was also developed using a state-in-time approach and Markov chain models. Various management strategies were investigated using the program and levels of funding required were also calculated.

### The Pension squeeze : the impact of the March 1996 federal budget

By David W. Slater. Ottawa : C.D. Howe Institute, 1997. 32 p. : ill., *Bibl.* (Commentary / C.D. Howe Institute ; no. 87) *At head of title: The Pension Papers.* ISBN 0-88806-407-1  
MICROLOG 97-02565 (1 fiche)

Examines the issues associated with the changes to Canada's retirement income system introduced in the March 1996 federal budget. The first section recalls the rationale for government involvement in the retirement income system, lists the system's four tiers, and describes the strategic choices and specific concerns faced by policy makers in making the recent changes. It also examines income distribution among households and among seniors. The second section considers the switch to a new seniors benefit that will replace the existing old age security and guaranteed income supplement programs and some allowances. The third section examines the new rules regarding retirement plans, and the fourth discusses possible interactions among the reforms. The next section considers possible changes in the Canada and Quebec Pension Plans. Concludes with discussion of overall effects of the changes on national saving and government finances.

### PERD-funded energy research at Public Works and Government Services Canada : evaluation study, appendices

Ottawa : Public Works & Government Services Canada, 1995. 123 p.  
MICROLOG 97-02835 (2 fiche)

Since 1982, the Panel on Energy Research & Development (PERD) has provided funding to Public Works & Government Services Canada for research and technology transfer in building energy efficiency. A study was undertaken to assess the value of that PERD-funded research in such areas as thermal storage, air leakage control, lighting, indoor air quality, micro-cogeneration, and energy simulation. Study methodology relied on qualitative assessments by peers through internal interviews with research project officers and external contacts. The interviews examined research activities, major achievements, degree of dissemination of research results, energy savings achieved, and the impact of the research on the private sector. This appendix to the main report of the study contains a list of internal interviews and summaries of external interviews related to the eight PERD-funded research areas.

### Petrology and geochemistry of the Nipissing Gabbro : exploration strategies for nickel, copper, and platinum group elements in a large igneous province

By Peter C. Lightfoot and A.J. Naldrett. Toronto : Ontario Geological Survey, 1996. viii, 80 p. : ill., *Maps, Bibl.* (Ontario Geological Survey study / Ontario Geological Survey ; 58 ISSN 0704-2590) ISBN 0-7778-4804-X  
MICROLOG 97-02928 (1 fiche)

In the Nipissing gabbro located at the margin of Superior Province north of Lake Huron, mineralization is dominantly in the form of magmatic and/or hydrothermal copper-nickel-platinum group element sulphides which occur disseminated within the intrusions or as massive pods beneath. This study reports new data for Nipissing intrusions and compares and contrasts their chemical compositions, addressing such questions as how the intrusions were formed, the role of crustal contamination in the genesis of Nipissing magmas, and the relevance of empirical data for the construction of mineral exploration models. It focuses on the metallogeny of the Nipissing gabbro as determined from empirical studies of samples from the Nipissing intrusions, covering such topics as geochemical evidence for emplacement and in-situ differentiation, compositional and textural variations, duration of magmatic activity, and mineral potential. The appendix presents two papers focusing on the intrusions near Lake Temagami.

### Pickle Lake-Crow River area, District of Kenora, Patricia portion : Sturgeon Lake gold area, districts of Kenora and Thunder Bay : Obongwa Lake chromite area, District of Thunder Bay

By M.E. Hurst and A.R. Graham. Toronto : Dept. of Mines, 1931. v, 65 p. : ill., *Maps. Published as vol. XXXIX, part II, of the Ontario Dept. of Mines annual report, 1930. Fold. maps not filmed.*  
MICROLOG 97-02516 (1 fiche)

The area described in the first part of this report lies about 125 miles north-east of Sioux Lookout, north of Lake St. Joseph in north-western Ontario. The report describes the area's topography and drainage, natural resources, general geology (Precambrian greenstones and other intrusives, volcanics, iron formation, sediments), and economic geology. Descriptions are included of mining properties and claims, with details of local geology and mineralogy. The second part of the report provides similar information on a larger area located around Sturgeon Lake, about 50 miles east of Sioux Lookout. The third part describes the general geology of an area just west of Nipigon Provincial Forest where irregular and vein-like deposits of chromite have been discovered. Descriptions are included of the disseminated and segregated types of deposits found.

### The Pleistocene of the Toronto Region, including the Toronto interglacial formation

By A.P. Coleman. Toronto : Dept. of Mines, 1933. iii, 69 p. : ill. Published as vol. XLI, part VII of the Ontario Dept. of Mines annual report, 1932. Fold. maps not filmed.

MICROLOG 97-02509 (1 fiche)

The glacial drift sections in the Toronto region provide a complete and interesting record of the Pleistocene in North America. These sections are found on river banks and cliffs, in brickyards and gravel pits, and in building excavations, and the history they reveal has been pieced together by many investigators over decades. This report summarizes results of 40 years' study of various outcrops and excavations within 20 miles of Toronto to give a history of the Pleistocene, including its interglacial period. Descriptions are included of stratigraphic sections and fossils in the Don River valley and Scarborough Bluffs, other valleys, brickyards, the Sunnyside (Parkdale) boulder pavements, and shore cliffs to the west. It also reviews the history of the glacial and interglacial periods, the shores and deposits of glacial Lake Iroquois, the early stages of Lake Ontario, inferred time relationships, and the importance of Pleistocene deposits for water supply and building materials.

### Post-secondary education reforms in other provinces

By Allison Drummond. Toronto : Ontario Legislative Library, Legislative Research Service, 1996. i, 10 p. : Bibl. (Background / Ontario. Legislative Research Service ; no. B-4 ISSN 1206-1514) ON-TERIS ON08461

MICROLOG 97-02813 (1 fiche)

Since 1978, when federal transfers for post-secondary education were shifted from a cost-shared to a block grant program, provinces have been examining their funding of the post-secondary system. Most provinces are attempting to make these systems more efficient and responsive to the needs of students as tuition is increasing and these increases are not enough to recoup the cuts to public funding. At the same time, skills training, and more broadly lifelong learning, has been identified as one way for individuals to respond to continuing high unemployment and increasing income inequality. This overview discusses how the common problem driving reform, lower funding, is being approached in other provinces. Most are examining how to better co-ordinate their post-secondary systems, make credits portable, serve part-time students, and generally make their systems more accountable to the public that funds them. It also details how the emphases and suggested solutions vary across Canada.

### Potential benefits of advanced windows in Public Works Canada buildings

Ottawa : Public Works Canada, Architectural & Engineering Services, Technology Sector, RD&D, 1991. xii, 123 p. : ill., Bibl. Cover title: Advanced windows.

MICROLOG 97-02763 (2 fiche)

Begins with an Introduction on the benefits of advanced windows and a review of the state of the art of advanced window technology in Canada. Section 3 then presents a review of current window standards and the specification procedures used at Public Works Canada. Section 4 contains a technical assessment of the potential benefits of high thermal performance windows to Public Works Canada's existing building stock and new buildings. These benefits were assessed using computer analysis of a representative high-rise commercial building; design aspects related to heating/ventilation/air conditioning (HVAC) layout and equipment sizing were established by simulated case studies. The assessment includes potential energy savings, operational cost savings, and impact of HVAC design. Section 5 presents an analysis of information on high performance windows as obtained from interviews with experts, window suppliers, and Public Works staff. Suggestions are made on means for Public Works to take advantage of the opportunities arising from developments in high thermal performance windows.

### Pre-logging data on macroinvertebrate drift from the Takla Lake tributaries, in the central interior of British Columbia from 1991-94

By E.M. Choromanski... et al. Nanaimo, BC : Dept. of Fisheries & Oceans, Science Branch, Pacific Region, West Vancouver Laboratory, 1996. v, 120 p. : Bibl. (Canadian data report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 998 ISSN 0706-6465) CCG-P no. Fs 97-13/998E

MICROLOG 97-02674 (2 fiche)

Presents tabular data on the abundance and species composition of drift insect communities collected from spring to fall 1991-94 in six study streams entering Takla Lake and the Middle River, British Columbia. The streams are under 20 kilometres long, drain watersheds of 40-70 square kilometres, and each flows through 1-4 kilometres of low-gradient floodplains which are sites of major spawning activity. The sites have received little anthropogenic perturbation and there has been no recent forest fire activity; the riparian forests are generally 100 or more years old. The data are presented as part of a wider project studying the effects of forest practices on sockeye salmon and aquatic macroinvertebrate production. A description of sampling methods and materials is included. Data in the tables include geographical co-ordinates of sampling locations, station habitat descriptions, water temperature, depth, and current velocity measurement.

MICROLOG 97-02668 (1 fiche)

Describes a research project undertaken to provide data on five basic questions regarding the assessment and prediction of criminal behaviour: which predictor domains can predict recidivism; whether dynamic predictors as a group are inferior to static predictors in their ability to predict recidivism; whether differences exist among composite measures of risk prediction instruments and measures of antisocial personality in their ability to predict recidivism; whether the most robust predictors of recidivism are associated with different theories of criminal behaviour; and which practical guidelines from this research can assist practitioners in making better assessments of criminal behaviour. The project used meta-analysis of the literature on adult recidivism prediction; 131 studies produced 1141 correlations with recidivism and the strongest predictor domains were identified. Recommendations for developing sound assessment practices in corrections are also provided.

### Preliminary analysis of the creep behaviour of nuclear fuel-waste container materials

R. Dutton... et al. Pinawa, MB : AECL, Whiteshell Laboratories, 1996. 77 p. : ill., Bibl. (AECL research / Atomic Energy of Canada Ltd. ; AECL-11495 ISSN 0067-0367) ISBN 0-660-16711-5 CCG-P no. CC2-11495E

MICROLOG 97-02755 (1 fiche)

Consideration of various container designs for use in underground disposal of nuclear fuel waste has identified either titanium or copper as the material suitable for constructing the container shell. As part of the research program to examine the structural integrity of the container, creep tests are being conducted on commercially pure titanium and oxygen-free copper. This report presents the preliminary data obtained and describes the evaluation of various constitutive equations to represent the creep curves, thus providing the basis for extrapolation of creep behaviour over the design lifetime of the con-

tainer. In this regard, a specific focus is placed on equations derived from the theta projection concept. Results are also presented from metallographic examination of creep damage. The results are analyzed within the context of extant literature and their implications for future container design are discussed.

### A Preliminary analysis of the impact of the BC family bonus on poverty and on welfare caseloads : report

By Michael Mendelson. Victoria : Ministry of Human Resources, 1997. 14 p. : *ill.*  
MICROLOG 97-03046 (1 fiche)

The BC Family Bonus is an income-tested benefit, equally serving all families in British Columbia with low incomes, both working poor and welfare families with children. It replaced welfare payments for children. This study estimates the impact of the Bonus on poverty by constructing a simulation model on an adjusted sample of the province's income distribution, derived from the Statistics Canada Survey of Consumer Finances and adjusted to fit the actual BC Family Bonus payments made to date. The payment of the Bonus was then simulated on this sample and the before and after distributions compared. The effect on poverty was measured as the reduction in the poverty gap, or the amount of income that would be needed by families below the poverty level to take them out of poverty. The study also attempted to assess the impact of the Bonus on welfare caseloads, but only preliminary results are presented since there were only five months of data available.

### A Preliminary report on the adult chinook productivity study conducted on the Cowichan River during 1995

By D.A. Nagtegaal, E.W. Carter and B. Riddell. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, Pacific Biological Station, 1996. vii, 63 p. : *ill.*, *Bibl.* (Canadian manuscript report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans ; no. 2366 ISSN 0706-6473) CCG-P no. Fs 97-4/2366E  
MICROLOG 97-02684 (1 fiche)

Presents results of the adult escapement enumeration component of a chinook productivity study conducted on the Cowichan River in fall 1995. Components of the enumeration included recording of salmon counts at 15-minute intervals at a counting fence, estimation of the native food fishery catch, recording of hatchery broodstock removals, collection of biological data and sampling of coded-wire tag recoveries, and carcass mark-recapture studies for both adult and jack chinook. Results presented include total return of adult chinook to the river and an estimate of the total number of natural spawners. In addition, a water management plan is described which was intended to aid upstream movement of chinook.

### The Productivity and cost of partial and clear cutting with two cable yarding systems in second-growth forests in coastal British Columbia, part I

By Andrew F. Howard, G. Glen Young and Dag Rutherford. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. 56 p. : *ill.*, *Bibl.* (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; WP-6-015)  
MICROLOG 97-02980 (1 fiche)

Describes field trials at two British Columbia sites to investigate alternative timber harvesting systems and their costs. Sites were selected from among those employing partial cutting and cable yarding systems. One site selected used a swing yarder and the other used a stationary yarder. Descriptions of the sites, equipment layouts, and yarding procedures are provided. A detailed time study was designed for the two harvesting systems using a computer-based system and the time study data were analyzed statistically to estimate harvest system productivity. Hourly costs for each harvest system were also calculated. The advantages and drawbacks of each system are discussed.

### Programmer's guide for the CC3 computer models of the concept for disposal of Canada's nuclear fuel waste

By K.D. Dougan. Pinawa, MB : AECL, Whiteshell Laboratories, Environmental & Safety Assessment Branch, 1996. x, 87 p. : *ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11500 ISSN 0067-0367) ISBN 0-660-16383-7 CCG-P no. CC2-11500E  
MICROLOG 97-02660 (2 fiche)

A computer program called Systems Variability Analysis Code (SYVAC) has been developed as an analytical tool for the post-closure or long-term assessment of the Canadian concept for disposing of nuclear fuel waste deep in plutonic rock of the Canadian shield. The program can also be used for the environmental assessment of other systems. SYVAC3, the third generation of the program, is an executive program that directs repeated simulation of the disposal system, which is described by the CC3 (Canadian Concept generation 3) model. CC3 is comprised of submodels for the disposal vault, local geosphere, and biosphere. This guide describes the programming philosophy and conventions not covered in project standards. It includes a description of the overall logic for the CC3 submodels and of the techniques used to isolate a CC3 submodel and to determine the submodel's input and output data interface. Structure charts are also provided for the CC3 model and standalone submodels. A companion CC3 User's Manual describes how to use the CC3 software.

### Projections of visible minority population groups, Canada, provinces and regions, 1991-2016 -- Rev.

Prepared by Population Projections Section, Demography Division, Statistics Canada ; for the Interdepartmental Working Group on Employment Equity Data ; by S.Y. Dai and M.V. George. Ottawa : Statistics Canada, Housing, Family & Social Statistics Division, 1996. 106 p. : *ill.*, *Bibl.* *French ed. (Projections de la population...)* : 97-02985/2. *On cover: Employment Equity Data Program.* SCC 91-541-XPE  
MICROLOG 97-02987 (2 fiche)

Provides population projections for visible minorities by age and sex for Canada, based on 1991 census data adjusted for net census undercoverage and a comprehensive analysis of recent demographic trends. Three sets of projections representing high, medium, and low growth scenarios, have been produced by means of the Statistics Canada regional cohort component model. This model involves the separate analysis and projection of each of the basic components of population growth: fertility, mortality, and migration, for each province or region. Projections are presented up to the year 2016.

### La Promotion de 1990, compendium des résultats de l'Enquête nationale de 1992 menée auprès des diplômés de 1990

Par Don Little et Louise Lapierre. Hull, PQ : Développement des ressources humaines Canada ; Ottawa : Statistique Canada, 1996. xii, 120 p. : ill. L'éd. anglaise (*The Class of 90...*) : 97-03010/2. ISBN 0-662-81690-0 GCC-E no MP-43-366/1996F MICROLOG 97-03005 (2 fiche)

Dans ce rapport, on se penche sur les caractéristiques et la situation des diplômés de 1990 en 1992. On a interrogé les diplômés sur leurs études, leur situation professionnelle, leur revenu, leur niveau d'endettement et leur satisfaction professionnelle. On leur a aussi demandé quel était le lien entre leur domaine d'études et leur profession, et dans quelle mesure ils étaient satisfaits de leur programme d'études. Les résultats ont été ventilés selon le niveau d'études, et certains selon le sexe afin que l'on comprenne mieux comment les choses se passent pour les femmes comparativement aux hommes. En outre, pour donner une dimension historique aux résultats de 1990, on les a souvent rapprochés de ceux de 1982 et de 1986. CA DE ED LA SS ST

## **Rapport définitif du Comité spécial de la démographie**

Nouveau-Brunswick. Assemblée législative. Comi-  
té spécial de la démographie. Frédéricton : le  
Comité, 1997. 36, 34 p. : ill. *Deuxième session de  
la 53e législature du Nouveau-Brunswick. Bil-  
lingue (Final report of the Select...).*  
MICROLOG 97-02947 (1 fiche)

Ce document présente le rapport définitif du Comi-  
té spécial de la démographie. Les points qui y sont  
abordés sont les suivants : lente croissance  
démographique; vieillissement de la population;  
accroissement de la population en âge de travail-  
ler; profil des autochtones par groupes d'âge; au-  
cune vague de l'après baby-boom; nombre accru  
de personnes âgées; répartition de la population  
en milieu urbain et rural; et, profil linguistique.

## **Rapport d'évaluation du programme de location des dispositifs de retenue pour enfant en CLSC réalisé dans le cadre de la PSBE, région Chaudière-Appalaches**

Par Louise Paré, Sainte-Marie, PQ : Régie  
régionale de la santé et des services sociaux,  
Chaudière-Appalaches, Direction de la santé pub-  
lique, 1996. 42 p. : Bibl.  
MICROLOG 97-02905 (1 fiche)

Le but poursuivi par cette évaluation était de jeter  
un regard critique sur la location dans les CLSC  
afin de déterminer si des mesures devaient être  
prises pour améliorer ce programme. Ce document  
présente d'abord la méthodologie utilisée puis les  
résultats obtenus. Par la suite, une section expose  
les questions soulevées par les répondants ainsi  
que les réponses fournies par la SAAQ et le CAA-  
Québec. L'analyse décrit les biais particuliers à  
cette enquête, soulève les faits majeurs et émet des  
recommandations concernant les résultats ob-  
tenus. La conclusion souligne les principaux  
éléments à retenir.

## **Rapport sur l'application de la procédure d'examen des plaintes, 1994-95**

Québec (Province). Commissaire aux plaintes en  
matière de santé et de services sociaux. Québec :  
le Commissaire, 1996. 100 p.  
MICROLOG 97-02918 (2 fiche)

Le rapport du Commissaire aux plaintes traite du  
mandat et des fonctions et de l'organisation du Bu-  
reau, et des activités (traitement des demandes, ac-  
tivités reliées à la gestion). Ensuite on décrit des  
recommandations (mauvaise gestion des attentes,  
pratiques administratives à revoir, mécanismes de

coordination, et perception de frais non autorisés,  
fonctionnement du régime d'examen, et précisions  
à apporter au mandat).

## **Rapport sur le transfert de la technologie : utilisation de ballasts électroniques dans les bâtiments commerciaux — Rév.**

Par Ivan Pasini et Debbie Takeuchi. Ottawa : Tra-  
vaux publics et services gouvernementaux Cana-  
da, Direction générale des biens immobiliers,  
1995. 23 p. *L'éd. anglaise (Technology transfer...)  
sur la même fiche. Sur la couv.: Biens immobi-  
liers, des solutions sur mesure.*  
MICROLOG 97-02744 (1 fiche)

Les ballasts électroniques ont fait leur apparition  
sur le marché à la fin des années 1970, mais ils  
n'ont pas immédiatement gagné la faveur du public  
car ils présentaient de graves lacunes tant sur le  
plan technique que sur celui de la rentabilité. Ce  
rapport sur le transfert de la technologie, traite de  
l'utilisation de ballasts électroniques et a pour but  
de renseigner les ingénieurs-concepteurs, le per-  
sonnel technique, le personnel d'entretien ainsi  
que nos clients sur le rôle que jouent ces appareils  
dans la réduction de la consommation énergétique,  
la qualité de puissance de l'éclairage et l'entretien  
dans les bâtiments commerciaux types.

## **A Reality check on the expansion potential for secondary manufacturing in Canadian forest products**

By Bill Wilson. Victoria : Natural Resources Cana-  
da, Canadian Forest Service, Pacific Forestry  
Centre, 1996. 8 p. : Bibl. (Working paper / Cana-  
da-British Columbia Partnership Agreement on  
Forest Resource Development: FRDA II ; 96.06)  
MICROLOG 97-02924 (1 fiche)

Provides a realistic assessment of the options for  
expanding secondary manufacturing in the British  
Columbia forest sector, focusing on solid wood  
products. Begins with a definition of secondary  
manufacturing and discussion of the reasons for in-  
terest in its expansion in the province. The three  
main challenges to increased secondary manufac-  
turing are then reviewed: wood supply, the real  
cost of labour, and marketing (product, promotion,  
distribution, and pricing).

### Recommended food chain parameter values and distributions for use around CANDU sites in Ontario

By S.-R. Peterson. Chalk River, ON : Chalk River Laboratories, Health & Environmental Sciences Division, Environmental Research Branch, 1996. 20 p. : *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11529 ISSN 0067-0367) ISBN 0-660-16698-4 CCG-P no. CC2-11529E  
MICROLOG 97-02788 (1 fiche)

Presents parameter values specific to agricultural practices and human life styles in southern Ontario for use in Canadian Standards Association Guidelines for Calculating Derived Release Limits for Radioactive Material in Airborne and Liquid Effluents for Normal Operation of Nuclear Facilities (CSA-N288.1-M87) and in CHERPAC, the Chalk River Environmental Research Pathways Analysis Code. The parameter values relate to agricultural pathways, human diets, occupancy factors, shielding from buildings, and breathing rates. Comparisons are made between Ontario site-specific data and the data supplied in CSA-N288.1-M87, and the effect of those differences on dose prediction is discussed.

### Reform of the administrative justice system in Nova Scotia : final report

Law Reform Commission of Nova Scotia. Halifax : The Commission, 1997. xiv, 136 p. : *Bibl.*  
MICROLOG 97-02984 (2 fiche)

In response to concerns about administrative tribunals in Nova Scotia, the Minister of Justice requested the Law Reform Commission to develop draft legislation to standardize the powers and procedures of those tribunals, ensure their independence, safeguard rights of parties appearing before them, and simplify administrative law. The Commission investigated those issues and published a discussion paper in 1996 setting out preliminary suggestions for reform. This final report is based on comments in response to that paper and on further research. It reviews the administrative justice system in Nova Scotia and the existing legal principles relating to the practice of administrative law in the province, and presents an overview of previous Commission research and commentary on the discussion paper. It then sets out recommendations for reform, including minimum procedures for tribunals, standard powers, simplification of judicial review and appeals, and ensuring tribunal independence. It also includes a draft version of an Administrative Justice Act.

### Regional groundwater flow in the Atikokan Research Area : model development and calibration

By Duke U. Ophori and T. Chan. Pinawa, MB : AECL, Whiteshell Laboratories, 1996. 57 p. : III. (AECL research / Atomic Energy of Canada Ltd. : AECL-11081 ISSN 0067-0367)  
ISBN 0-660-16689-5 CCG-P no. CC2-11081E  
MICROLOG 97-02725 (1 fiche)

This report is the first of a pair describing the methodology and results of a numerical modelling study conducted to gain an understanding of regional groundwater flow conditions in the crystalline rocks at the Atikokan Research Area in northern Ontario. After an Introduction, it describes the model construction and preliminary simulation. The conceptual finite-element model resulted from a synthesis of field geological, geophysical, geochemical, and hydrogeological data. It analyses the effects on groundwater flow of the distribution of higher-permeability glacial surficial materials, geothermal temperatures, and permeability anisotropy in the rock. The preliminary model was revised and calibrated and is described. Permeabilities and porosities of layers of the model were revised to reflect higher ranges observed in field data. Permeabilities were then varied systematically through several MOTIF model simulations. Calibrated vertical average linear velocities were used to simulate concentration versus depth profiles of total dissolved solids (TDS) in the groundwater. The simulated profiles were compared with measured TDS data for groundwater in the Area.

### Removing barriers report card : a report on the status of recommendations of Removing barriers : an action plan for Aboriginal people with disabilities

Alberta. Premier's Council on the Status of Persons with Disabilities. Edmonton : The Council, 1997. II, 45 p.  
MICROLOG 97-02871 (1 fiche)

In 1993, the Premier's Council on the Status of Persons with Disabilities released Removing Barriers: An Action Plan for Aboriginal People with Disabilities.

ties. This report was designed to provide strategic directions in the development and/or reorganization of programs and services specifically for Aboriginal persons with disabilities. The report contained specific recommendations addressing government policy in ten major areas. This review document provides an investigative analysis of the status of all those recommendations, noted in terms of its level of action towards implementation. The levels are rated according to a five point scale, from poor (no action) to excellent (fully implemented). The review is organized by the ten areas addressed in the recommendations: information access, education, post-secondary education and training, recreation and cultural activities, health and healing, personal supports, accessibility, housing, transportation, and financial supports.

### Removing barriers to the redevelopment of contaminated sites for housing : final report

Delcan ; in association with Golder Associates, McCarthy Tétrauli. Ottawa : Canada Mortgage & Housing Corporation, 1996. 140 p. : ill., Bibl. French ed. (*Élimination des obstacles...*) : 97-02563/2.

MICROLOG 97-02562 (2 fiche)

There are thousands of hectares of vacant or underutilized lands with contaminated soils in Canada that have potential for housing development, where various issues related to the contamination often combine to create barriers to redevelopment. The purpose of this study is to provide suggestions and to identify future research that would assist in removing or relaxing those barriers. This report begins with an overview of the contaminated site issue in Canada, the opportunities offered by such sites, the public health interest, and the risk assessment approach to addressing the issue. It then discusses the development approval and public policy contexts of site assessment and restoration, including land approval processes, legislation, and policies and guidelines in the US and Canada. Key issues and barriers to site redevelopment are discussed in six areas: regulations, technical/scientific aspects, legal and liability issues, finance, urban planning, and communication. Finally, the report reviews best practices and initiatives for removing the barriers discussed. The appendix includes case studies of contaminated site redevelopment in Canada and a review of relevant federal legislation, policies, and guidelines.

### Répartition régionale des dépenses fiscales touchant les corporations

Par Michel Leblanc et François Vaillancourt. Montréal : Institut de recherche en politiques publiques, 1995. 32 p. : ill., Bibl. (Choix sur les finances publiques / Institut de recherche en politiques publiques ; vol 1, no 4 ISSN 0711-0685) L'éd. anglaise (*Regional distribution of federal...*) : 97-03473/1.

MICROLOG 97-02802 (1 fiche)

Cette étude, la première d'une série sur les dépenses fiscales fédérales, établit la répartition par province de 26 dépenses fiscales fédérales dont ont bénéficié les entreprises en vertu de l'impôt fédéral sur les corporations. Dans la première section nous résumons les paramètres du régime fiscal de référence qui ont servi à déterminer quelles mesures constituent bel et bien des dépenses fiscales. Puis, nous mettons en perspective l'ampleur du manque à gagner pour le trésor fédéral, dans l'ensemble et pour chacune des dépenses fiscales étudiées. Nous estimons ensuite la distribution par province des bénéfices fiscaux engendrés par ces mesures. Finalement, nous procédons à l'analyse de la distribution par provinces des dépenses fiscales et des subventions fédérales aux entreprises.

### A Report

Prepared for Dept. of Health and Community Services, New Brunswick ; submitted by Andrew Kostler, Brian Hillier. Ottawa : Canadian Intergovernmental Conference Secretariat, 1996. 64 p. On cover: *Annual Provincial-Territorial Meeting of Ministers Responsible for Social Services. French ed. (Rapport) : 97-02483/1.*

MICROLOG 97-02482 (1 fiche)

In May 1994, John Ryan Turner died at the age of 3 years 9 months as a result of psychological, emotional, and physical deprivation, in spite of extensive involvement of various New Brunswick human service professionals. This report presents results of a review examining the following: whether the Family & Community Social Services Division followed Dept. of Health & Community Services procedures and policies as they relate to the Turner case; and whether those policies and procedures relating to child protection require change or modification. The report details the kinds of documentation examined and lists the interviews conducted during the review, summarizes the Division's involvement with the Turner family, and concludes with findings and recommendations resulting from the examination. The appendix discusses a proposed Child at Risk Committee and includes information supporting a recommendation for social work assessment in child welfare cases.

### Report card '96 : anglophone school districts

Fredericton : Dept. of Education, Evaluation Branch, 1996. II, 55 p. : ill.

MICROLOG 97-02471 (1 fiche)

This report provides New Brunswickers a snapshot of student achievement in the province's anglophone school districts. It presents and discusses results of provincial examinations in mathematics and English, as well as performance in the French second language oral proficiency assessment (high school level); results of middle level English language proficiency assessments; and results of a cyclical assessment of student achievement at a number of primary-level subjects including mathematics, science, reading, and writing. The results are presented by district, subject, gender, and educational level. The appendix includes an outline of marking criteria and levels of proficiency established for provincial assessments.

### A Report on the suspended sediment and heavy metals loading in Vangorda Creek downstream of the Vangorda Mine site near Faro, Yukon during spring freshet in 1991, 1992 and 1993

By D. Davidge. Whitehorse : Environment Canada, Environmental Protection Service, Pacific & Yukon Region, 1996. vi, 165 p. : ill., Maps, Bibl. (Regional program report / Canada. Environmental Protection Service ; 95-09)

MICROLOG 97-02848 (2 fiche)

A routine inspection of mine water drainages in the vicinity of the Vangorda open pit mine near Faro, Yukon in May 1991 revealed unusually high concentrations of suspended sediments and certain heavy metals at a location 200 metres downstream of the pit. This report presents results of a follow-up inspection later in 1991 and of a sampling program in spring 1992 and 1993 to collect several weeks of daily composite samples from four locations for suspended sediment and total metals analysis. Results indicate the relationship between heavy metals loading, suspended sediment loading, and onset of significant increases in daily temperature and stream flow. The data also point to the source of the metals-laden sediments.

### Reports on the District of Patricia, recently added to the Province of Ontario

Compiled and edited with an introduction by Willet G. Miller. Toronto : Bureau of Mines, 1912. iii, 216 p. : ill., Maps Fold. map not filmed. Pub-

lished as vol. XXI, part II, of the Ontario Bureau of Mines report, 1912.

MICROLOG 97-02532 (3 fiche)

This report compiles reports and excerpts of research conducted over about 40 years concerning that part of the district of Keewatin that was added to the territory of Ontario in 1912, now known as the district of Patricia. The area covers over 146,000 square miles and extends north of the Canadian Pacific main line and the Albany river. After an overall summary of the geology and natural resources of the district, sections of the report examine physical and geological features in specific parts of the district: the Red Lake area, the Berens River basin, the Cat Lake to Lac Seul area, the rivers south-west of James Bay, and the south and west coasts of James Bay. The final chapters provide an account of James Bay and its islands, inland areas, and harbours; of Hudson Bay, its tributary rivers, harbours, basin geology, regional resources, and trade routes. The appendix contains a copy of the Act extending the Ontario boundaries. NR ON PR SC

### Les Réseaux de villes en Europe : étude

Par Lise Brousseau. Ottawa : Société canadienne d'hypothèques et de logement, 1993. 22 p. MICROLOG 97-02959 (1 fiche)

Cette étude a été rédigée par l'Association québécoise pour la maîtrise de l'énergie dans le but d'examiner les activités menées par plusieurs villes européennes dans le domaine de la gestion de l'énergie. Elle a été préparée pour informer les municipalités canadiennes des expériences européennes et, de ce fait, encourager l'adoption de mesures visant une gestion prudente de l'énergie au Canada. Cette étude aborde deux sujets principaux. Tout d'abord, elle contient des renseignements sur les villes européennes, recueillis par l'AQME au cours de visites effectuées à l'automne 1992. Puis, elle explique comment le concept de réseau canadien d'échange d'informations sur l'énergie a évolué au sein de l'AQME, particulièrement au cours de ses congrès annuels. CA EN ND PL SC

### Residential wood-fired cogeneration

Allen Associates. Ottawa : Canada Mortgage & Housing Corporation, Research Division, 1996. iii, 67 p. : ill., Bibl. MICROLOG 97-02971 (1 fiche)

This report examines the market opportunities and technologies for wood-fired cogeneration to provide on the order of 2 kilowatts of electrical output. Such opportunities exist in remote and off-grid communities where there is ample access to wood and costs for conventionally fuelled generation are high. Technologies reviewed include Stirling or heat engines, steam engines and turbines, internal combustion engines fuelled by gas from wood gasification, conventional and linear induction generators, direct current generators, switched reluctance technology, and thermionics. Promising technologies for commercialization are identified and barriers discussed. Two embodiments, one for a typical household and one for a sustainable household, are presented for future development. Appendices include technical information on some of the technologies evaluated. ### A Review of the low-temperature creep behaviour of titanium

By R. Dutton. Pinawa, MB : AECL, Whiteshell Laboratories, 1996. 51 p. : ill., Bibl. (AECL research / Atomic Energy of Canada Ltd. ; AECL-11544 ISSN 0067-0367) ISBN 0-660-16682-8 CCG-P no. CC2-11544E MICROLOG 97-02702 (1 fiche)

The design for the titanium containers considered for use in the Canadian concept of underground disposal of nuclear fuel waste must take into account the potential for creep deformation of the container. This report reviews the literature on experimental and theoretical investigations of the creep behaviour of titanium in the 20-300 degree C temperature range. After a discussion of general considerations and an overview of creep mechanisms, the review is organized in two major chronological periods: before and after 1970. The more recent research has been on both unalloyed and alloy titanium, with specific study topics on low-cycle creep-fatigue effects and fracture processes. The final discussion considers the modification of the characteristic temperature range of any particular rate-controlling mechanism over an extended strain rate range. The importance of these effects in establishing the lifetime of the container is emphasized. CA DE PS SC

### Révision de la Loi sur l'accise : proposition de révision du régime de taxation des produits du tabac et de l'alcool

Ottawa : Ministère des finances, 1997. 121 p. L'éd. anglaise (Excise Act review...) : 97-02930/2. MICROLOG 97-02931 (2 fiche)

Ce document présente une proposition élaborée de révision du régime fédéral de taxation des produits du tabac et de l'alcool. Ce régime révisé repose à la fois sur un nouveau cadre législatif et sur une fonction d'administration moderne, pour l'application des prélèvements fédéraux de l'accise. Le cadre révisé de l'accise qui est proposé dans ce document est le fruit des travaux menés conjointement par le ministère des Finances et par Revenu Canada, avec la participation des associations de l'industrie et des régions provinciales des alcools. L'objet de ce cadre révisé est de remplacer une législation archaïque et une administration complexe par une structure moderne intégrée, qui répond mieux aux besoins du gouvernement et de l'industrie. ### Sand and gravel in Ontario

By A. Ledoux. Toronto : Bureau of Mines, 1918. iv, 138 p. : ill., Maps. Published as vol. XXVII, part II, of the Ontario Bureau of Mines report, 1918. MICROLOG 97-02533 (2 fiche)

This report begins with a review of the characteristic properties (morphological, physical, and chemical) of sand and gravel, and the methods used for testing those materials. It then reviews the types of sand and gravel deposits found in Ontario and the principal uses of sand and gravel in construction, manufacturing, and other applications. The majority of the report consists of descriptions of Ontario sand and gravel deposits, arranged by county in alphabetical order. Information given includes deposit location, name or company owner, production, properties, and characteristics of the excavation and the deposit. NR ON PR SC

### Sandstone as a source of silica sands in southeastern Ontario

By M.L. Kelth. Toronto : Dept. of Mines, 1949. iv, 36 p. : ill., Maps. Fold. map not filmed. Published as vol. LV, part V, of the Ontario Dept. of Mines annual report, 1946. MICROLOG 97-02529 (1 fiche)

Examines the feasibility of using sandstone from the Potsdam Formation in south-eastern Ontario (Frontenac, Leeds, and Lanark counties) as a source of silica sands. Begins with a review of the uses of silica sand in such sectors as metallurgy, foundries, sand blasting, glass, and ceramics, as well as the specifications for sand used in each application. Discusses the silica sand markets in Ontario and Quebec and facilities for local processing, then provides a general description of the Potsdam Formation and its petrography. This is followed by an outline of analytical procedures employed and descriptions of selected sandstone occurrences in the study area, including chemical and size analyses. Finally, a process flow sheet is proposed and the characteristics of sands produced from the sandstone are assessed for their suitability as a raw material for industrial silica applications. NR ON PR SC

### School Achievement Indicators Program : 1996 report on science assessment

Toronto : Council of Ministers of Education, Canada, 1996. 113 p. : ill., Bibl. ISBN 0-88987-108-6 MICROLOG 97-02994 (2 fiche)

Describes and presents results from the science component of the School Achievement Indicators Program, which was intended to examine how well Canadian students do in science and whether their achievements in science change over several years. The component involved testing of 13- and 16-year old students regarding their understanding of the relation between science and real-life situations familiar to them. Assessment methods included a written examination involving multiple-choice and constructed-response questions, as well as a practical exercise involving a simple experiment that tested their science inquiry skills. Evaluation criteria and examples of the assessments are presented along with summary results of achievements on a provincial and national basis. The provincial results are accompanied by context statements explaining the organization of the school system, science teaching, and science testing procedures. CA ED SS

### Selecting protected areas : the Foothills Natural Region of Alberta

Prepared for the Special Places Provincial Coordinating Committee ; by Alberta Environmental Protection, Natural Resources Services, Recreation and Protected Areas Division, Natural Heritage and Education Branch. Edmonton : The Branch,

1996. 2 v. : *Ill., Maps, Bibl. Fold. maps not filmed.*  
*Contents: Vol. 1 : Report - vol. 2 : Appendices.*  
 MICROLOG 97-02870 (2 fiche)

Alberta's Special Places 2000 strategy is to complete a network of Special Places that represent the environmental diversity of the province's six natural regions by the end of 1998. This report provides a broad-based analysis of the Foothills Natural Region from a landscape protection and biodiversity conservation perspective, furnishing a general context and information background for nominating candidate Special Places sites. It first reviews criteria for selecting environmentally sensitive areas, then discusses the positive and negative attributes of those areas comprising the 13 best candidate Special Places within the region. The appendices include sections on: the biophysical characteristics and conservation features of the region; human activities in the region in relation to selection of protected areas; theory and practice of designing a protected areas network; existing protected areas in the region; environmentally significant areas; and the 13 best candidate protected areas in the region.

### Silviculture investment to meet forest level objectives : methods and analysis

By Mark Messmer. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. IV, 63 p. : *Ill., Bibl.* (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; WP 6-018)  
 MICROLOG 97-02922 (1 fiche)

Demonstrates a method for determining levels and kinds of silviculture expenditure that can be targeted to an objective of fulfilling a projected demand for timber, or conversely, the objective of maintaining a certain supply of timber. In meeting this projected demand, two objectives were specified: either net revenue or total volume from harvesting activity was maximized over a 150-year planning horizon. The analysis uses the WOODSTOCK linear program and forest management modelling language, with the economic timber supply database representing nine coastal Timber Supply Areas in British Columbia. Sensitivity analysis is conducted with respect to total budget levels available to allocate to various silviculture activities, and to aggregate changes in the economic operability of the forest over time. Results are discussed in terms of their relevance to actual forest management planning in British Columbia, and how the methods developed could be used to plan expenditures for silviculture activities.

### Soils of selected agricultural areas of Moncton Parish, Westmorland County, New Brunswick

H.W. Rees, et al. Fredericton : Agriculture & Agri-Food Canada, Research Branch, Centre for Land & Biological Resources Research, 1996. viii, 113 p. : ill., Maps, Bibl. (New Brunswick soil survey report / Canada. Agriculture Canada. Research Branch ; no. 15) (CLBRR contribution / Center for Land & Biological Resources Research (Canada) ; no. 92-24) Fold. maps not filmed. ISBN 0-662-23767-6 CCG-P no. A57-181/1995E  
MICROLOG 97-02801 (2 fiche)

This report describes soils in an area covering about 32,500 hectares of selected agricultural lands and immediately adjacent forested lands in Moncton Parish, south-eastern New Brunswick. The text of the report provides technical information on soil and land surface properties and rates suitability of the mapped soils. It includes a general description of the map area, description of soil classification and surveying methods, a key to the symbols used in the accompanying soil map and to soil association parent materials, and details of the general characteristics of the soil associations mapped. Finally, soil capabilities for agriculture and for selected crops and management practices are noted. Appendices include morphological descriptions of soils and a glossary.

### Sommaire des projets de recherche et développement entrepris par les Affaires correctionnelles en matière de violence conjugale

Par Karen Myers. Ottawa : Solliciteur général Canada, Secrétariat du Ministère, 1996. ii, 47 p. : Bibl. (Rapport pour spécialistes / Canada. Solliciteur général Canada ; 1996-03) L'éd. anglaise (*An Overview of corrections research...*) : 96-05125/1. ISBN 0-662-81074-0 GCC-E no JS4-1-/1996-3F  
MICROLOG 97-02908 (1 fiche)

Ce document fait la synthèse des projets entrepris en vertu de l'initiative fédérale en matière de violence familiale (1991-1995) par les Affaires correctionnelles (anciennement la Division des services correctionnels) du Secteur de la politique du ministère fédéral du Solliciteur général. Cette synthèse a pour objectif de décrire la manière dont ces projets ont accru les connaissances quant aux questions correctionnelles reliées aux violences envers les femmes. Elle permet aussi d'en examiner les implications en matière de politiques publiques. Enfin, ce document permet de constater les divergences de perspectives sur ces questions, et de montrer comment les Affaires correctionnelles du ministère ont répondu aux défis que de telles divergences soulevaient.

### Source-term model for the SYVAC3-NSURE performance assessment code

By J.H. Rowat, D.S. Raitan and G.M. Dolinar.  
Chalk River, ON : Chalk River Laboratories, Waste Management Operations, Waste Management & Decommissioning, 1996. 31 p. : *ill.*, *Bibl.* (AECL research / Atomic Energy of Canada Ltd. ; AECL-11321 ISSN 0067-0367)  
ISBN 0-660-16703-4 CCG-P no. CC2-11321E  
MICROLOG 97-02784 (1 fiche)

The radionuclide release rate from a low-level radioactive waste (LLRW) disposal facility, the source term, is a key component in the performance assessment of the waste disposal system. This report describes the source-term model that has been implemented in Version 1.03 of the SYVAC3-NSURE (Systems Variability Analysis Code generation 3 - Near Surface Repository) code. NSURE evaluates the impact of near-surface disposal of LLRW through the groundwater pathway. The source-term model described was developed for the Intrusion Resistant Underground Structure (IRUS) disposal facility, a vault to be located in unsaturated overburden at Chalk River Laboratories. The process included in the vault model are roof and waste package performance, and diffusion, advection, and sorption of radionuclides in the vault backfill. The model is also applicable to other near-surface disposal facilities.

### Special constables

Winnipeg : Manitoba Law Reform Commission, 1996. ii, 87 p. : *Bibl.* (Report / Manitoba Law Reform Commission ; no. 96) ISBN 0-7711-1476-1  
MICROLOG 97-02712 (1 fiche)

Despite the widespread and well-established use of special constables in Manitoba, legitimate concerns exist about the office of special constable: that the office rests on an insecure legal foundation and that the appointment and supervision of Manitoba's special constables is not guided by explicit principles and policies. This report addresses these issues, examining the legal status of special constables, the function of the office of special constable, the appointment and selection of special constables, the supervision and discipline of special constables, and related issues such as the appointment as special constables of employees of private businesses. Recommendations are made which will provide a solid legal foundation for the

office of special constable in Manitoba, and explicit principles and policies are presented for the effective use of that office.

### Special operating agencies : audit and evaluation

By Michael Thomas. Ottawa : Canadian Centre for Management Development ; Consulting & Audit Canada, 1996. vi, 38, vi, 44 p. : *Bibl.* (Management practices / Canadian Centre for Management Development ; 16) *Bilingual (Organismes de service spéciaux : vérification...)*.  
ISBN 0-662-62551-X CCG-P no. SC94-62/16-1996  
MICROLOG 97-02887 (2 fiche)

The paper addresses a number of questions in this regard. It considers the issue of accountability of SOAs and how that accountability differs from more traditional federal government organizations. It links the exercise of accountability to a performance review function and defines the roles of audit and evaluation in this review function. It proposes a range of performance measures for SOAs and explores the different perspectives of audit and evaluation in respect of these measures. It examines the application of performance frameworks to SOAs and provides an example of such a framework. It argues that performance frameworks would be of great value to SOA managers and stakeholders.

### Special operating agencies : business plans and annual reports

By Doreen Wilson. Ottawa : Canadian Centre for Management Development ; Consulting & Audit Canada, 1996. viii, 34, viii, 38 p. : *Bibl.* (Management practices / Canadian Centre for Management Development ; 13) *Bilingual (Organismes de service spéciaux : plans...)*.  
ISBN 0-662-62024-0 CCG-P no. SC94-62/13-1996  
MICROLOG 97-02852 (1 fiche)

This paper is the fourth of a set of ten "issue papers" arising from a large-scale, collaborative research study on Special Operating Agencies. The paper examines the role that business plans and annual reports were ideally meant to play, both in entrenching "special accountability" arrangements and as strategic direction setters, and compares that intended role with the role they appear to be playing, based on interviews conducted within the SOA community. A comparison is made with the roles of business plans and annual reports in the British Next Steps program, which has been closely linked to the creation of SOAs in Canada.

### Special operating agencies : human resources management issues

By Betty Rogers. Ottawa : Canadian Centre for Management Development ; Consulting & Audit Canada, 1996. x, 55, xii, 59 p. : *Bibl.* (Management practices / Canadian Centre for Management Development ; 14) *Bilingual (Organismes de service spéciaux : problèmes...)*.  
ISBN 0-662-62185-9 CCG-P no. SC94-62/14-1996  
MICROLOG 97-02829 (2 fiche)

In 1993, a Special Operating Agency stocktaking study was initiated to assess the progress of the SOA Initiative, to identify the impediments it has encountered, and to suggest ways that it might be strengthened. The findings of the stocktaking study were based on in-depth self-assessment profiles of six of the earliest SOAs, supplemented by numerous interviews with senior officials in these and other SOAs, their host departments and central agencies. In parallel with the stocktaking exercise, a series of papers on issues important to the SOA Initiative were prepared. This document is one of these papers, focusing on issues related to human resources management. This study presents the main findings.

### Special operating agencies : management advisory boards, role and operations

By E. Jane Newcombe. Ottawa : Canadian Centre for Management Development ; Consulting & Audit Canada, 1996. x, 48, x, 50 p. (Management practices / Canadian Centre for Management Development ; 17) *Bilingual (Organismes de service spéciaux : comités...)*. ISBN 0-662-62552-8  
CCG-P no. SC94-62/17-1996  
MICROLOG 97-02886 (2 fiche)

The focus of this paper is on the role of management advisory boards in the SOA model, initially from the practical perspective as experienced by existing SOAs, and then from the more theoretical perspective, drawing on the experiences of other advisory groups and boards of directors both in Canada and internationally. In this paper a distinction is made between an advisory board and an internal departmental and branch executive or management committee or other consultative forum that may fulfil a similar advisory role. An advisory board is characterized by its degree of detachment from the parent organization (on the basis of membership external to the organization), and its dedicated focus on strategic advice rather than on the day-to-day operations or direction of the Agency.

### Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 1 : review of mapping with preliminary recommendations

By J. Booth, D.E. Hay and J. Truscott. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, Pacific Biological Station ; Victoria : Ministry of Agriculture, Fisheries & Food, 1996. vii, 53 p. : *Bibl.* (Canadian technical report of fisheries and aquatic sciences / Can-

ada. Dept. of Fisheries & Oceans; no. 2118  
ISSN 0706-6457 CCG-P no. Fs 97-6/2118E  
MICROLOG 97-02680 (1 fiche)

Report consists of 2 sections. The 1st section considers & recommends standards for the Georeferencing of subtidal resources & habitats. This section reviews & discusses standards for mapping scales, the status of coastal base maps presently used & methods for referencing resource data to base maps. The 2d section describes & discusses principles & problems with the classification of subtidal resources & habitats. It discusses the biophysical variables that are part of coastal habitats, the scales for practical subtidal mapping & issues about mapping of selected resources that are mapped independently of their habitat.

**Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 2 : review of sampling with preliminary recommendations**

By C.L.K. Robinson...et al. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Pacific Region, Pacific Biological Station; Victoria : Ministry of Agriculture, Fisheries & Food, 1996. xi, 119 p. : *Bibl.* (Canadian technical report of fisheries and aquatic sciences / Canada. Dept. of Fisheries & Oceans; no. 2119 ISSN 0706-6457) CCG-P no. Fs 97-6/2119E  
MICROLOG 97-02679 (2 fiche)

Reviews methods used to sample nearshore subtidal biota and physical/chemical resources, providing the basis for the development of sampling standards applicable to British Columbia marine waters. The discussion of methodologies is presented within a generalized framework that facilitates the development of sampling standards. Several methods are discussed that allow for the sampling of nearshore subtidal habitats by considering the spatial scale of the data collection. These scales represent mapping scales and include provincial, regional, local, and site categories; the methods described are those that are frequently used to collect data for mapping initiatives (satellite remote sensing, aerial photography and multispectral sensing, hydroacoustics, scuba diving). Sampling methods are also identified within the context of the specific biological or physical resources being sampled, and sample design and statistical analysis are discussed. Two general recommendations are made for further development of sampling standards. The appendix describes methods used to sample eight different biological resource groups, as well as sediments and physical/chemical properties of seawater.

Toronto : Bureau of Mines, 1917. viii, 395 p. : *ill., fold. maps. Published as vol. XXVI, of the Ontario Bureau of Mines annual report, 1917.*  
MICROLOG 97-02518 (5 fiche)

Report of the Bureau of Mines for the year providing a statistical review of the mining industry in Ontario, mining accidents, a description of the operating mines in Ontario, an account of the Long Lake gold mine, which is of interest because of the isolated position of the mine, and observations of the Alexo Nickel Mine, which occupies a similar relation to the well-known nickel area of Sudbury, even though it is 130 miles away. Information on the Dryden and Kowkash gold areas, gold bearing veins in Benoit Township, and gold in Gauthier Township gives an idea of the conditions in these localities, some, or all, of which promise gold production in the future. The unsurveyed territory along the line of the Canadian Northern Ontario railway east of Lake Nipigon from Longueac to Jellicoe and Orient Bay is examined and gives results of explorations done there. A description of molybdenite deposits is given, as well as a deposit of the rare mineral euxenite. The last chapter deals with Lateric ore deposits. This ore is practically unknown in Ontario, which makes it an interesting find.

MICROLOG 97-02527 (4 fiche)

Report opens with statistical review covering mineral production, mineral value, metals production, gold, silver, nickel, copper, platinum & palladium, iron ore, pig iron & steel, petroleum, natural gas, mining revenue, lands sold & leased, mining companies, & mining divisions. Also covers other minerals & describes mining accidents at each mine. Summer mining classes are described, by location. Specific properties & companies are described by region of Ontario. Descriptions of geological expeditions or phenomena follow for Thunder Bay-Algoma & Lake Nipigon area. Finally, there is a detailed review of the iron & steel industry including history & trade statistics, iron ores, processes, & manufacturing by company.

### Statistical review : summer mining classes : mines of Ontario : natural gas and petroleum : exploration in Mattagami Valley : agricultural resources of Mattagami : the Animikie iron range : iron ranges of eastern Michipicoten

By M.B. Baker. Toronto : Bureau of Mines, 1906. viii, 218 p. : ill., *Maps. Bound with: Clay and the clay industry of Ontario. Fold. map not filmed. Published as vol. XV, parts I and II, of the Ontario Bureau of Mines report, 1906.*  
MICROLOG 97-02552 (4 fiche)

Review describes mineral production value & volume (gold, silver, nickel, copper, iron ore, pig iron & steel, construction materials, various non-metallic minerals such as salt, petroleum, natural gas) with other industry statistics such as employment. Mining companies are reviewed, as are mining division activities & the provincial assay office, mining classes, & mining accidents. Next, each mine in the province is described by district. A series of articles follows describing geology of hydrocarbon (oil & gas) fields, Mattagami Valley geography, & agriculture (climate, flora & fauna, soil specimens). Final articles cover physiography, & geology of the Animikie iron range & eastern Michipicoten with attention to rock types, & mineral deposits.  
NR ON PR SC ST

### Statistical review : summer mining classes : mines of Ontario : oil and gas in Kent : I, iron ranges east of Lake Nipigon : II, iron ranges east of Lake Nipigon : iron pyrites in Ontario : the Larder Lake district : Lake Abitibi gold deposits : the Grenville-Hastings unconformity

Toronto : Bureau of Mines, 1907. viii, 248 p. : ill., *Maps. Published as vol. XVI, part I, of the Ontario Bureau of Mines annual report, 1907. Fold. map not filmed.*  
MICROLOG 97-02557 (3 fiche)

Reviews volume & value of mineral production by product (gold, silver, nickel, copper, iron ore, pig iron & steel, lead, zinc, building materials, salt, petroleum, natural gas & other products) followed by mining revenue, mining companies, accidents, & activities of the mining divisions, & the Provincial Assay Office. Looks at summer mining classes, & describes each mine in the province by region & company or product. Additional articles look at development & production of the oil & gas industry in Kent; geography & geology of areas around Lake Nipigon; deposits of pyrite around Ontario; geology of Larder Lake area & its deposits; Abitibi gold; & geological discussion of north of Lake Superior.  
NR ON PR SC ST

### Statistical review : summer mining classes : mines of western Ontario : mines of eastern Ontario : petroleum and natural gas : cement industry of Ontario : explorations in Abitibi : agricultural resources of Abitibi : Loon Lake iron-bearing district : Boston Township iron range : pre-Cambrian nomenclature : iron ranges of Michipicoten west

Toronto : Bureau of Mines, 1905. xvi, 374 p. : ill., *Maps, Bibl. Fold. map not filmed. Published as vol. XIV, part I, of the Ontario Bureau of Mines report, 1905.*  
MICROLOG 97-02556 (5 fiche)

This document is part I of the annual report of the Ontario Bureau of Mines, and contains statistics of the mineral production of the Province for 1904, reports by the inspectors of mines on the working mines of western and eastern Ontario, papers on petroleum and natural gas, and the cement industry of the Province, reports of exploration parties on special mineral districts, and other information relating to the mineral resources and mining industries of the Province.

### Statistiques de la sécurité sociale : Canada et provinces, 1970-71 à 1994-95

Ottawa : Développement des ressources humaines Canada, 1994. 142 p.  
ISBN 0-662-62742-3 GCC-E no MP90-2/17-1995  
MICROLOG 97-02567 (2 fiche)

Le présent rapport fournit, par province, des données annuelles sur les dépenses et, dans la plupart des cas, sur les bénéficiaires d'un ensemble global de programmes de sécurité sociale et de

services sociaux, offerts au Canada, au cours d'une période de 25 ans. Les dépenses de santé sont incluses pour permettre l'établissement des taux des dépenses de sécurité sociale. Les données fournies ici proviennent de diverses sources, tels que nombreux ministères et organismes fédéraux et provinciaux ainsi que des autres organisations. Des descriptions de la méthodologie et un aperçu des changements apportés au présent numéro se trouve à l'annexe.

### The Status of Alberta wildlife : report

Alberta. Wildlife Management. Edmonton : The Division, 1996. 42 p. ISBN 0-7732-5051-4  
MICROLOG 97-02876 (1 fiche)

This document evaluates the well-being or soundness of wildlife populations found in Alberta by reviewing the current state of knowledge of key criteria such as abundance, security of habitat, and current population trends. The review allows the determination of status for all ten amphibians, eight reptiles, 91 mammals, and 373 birds that occur in Alberta. Species lists in the document are intended primarily as a guide through which to prioritize management and/or information gathering activities. Species are separated into five lists, with status categories defined at three levels: at risk of extirpation within the province, not at risk, and unknown. Within each list, species are grouped by taxonomic class and are ordered alphabetically. The appendix provides a taxonomic list of Alberta vertebrates along with both their historic and current status.

### Stratégie d'évaluation de la qualité de l'air intérieur

Préparé par Robert O. Davidge, Gemma Kerr, Tedd Nathanson ; édité par Lan Chi Nguyen Thi. Ottawa : Travaux publics et services gouvernementaux Canada, Services d'architecture et de génie, Division du rendement des immeubles, Technologie, 1993. 33 p. : ill. *L'éd. anglaise (Indoor air quality...)* sur la même fiche.  
MICROLOG 97-02735 (1 fiche)

Ce document décrit une méthode en trois étapes visant à déterminer et à évaluer les problèmes de qualité de l'air intérieur en commençant par une série d'observations et d'inspections du bâtiment, suivies d'une série de mesures simples et enfin, au besoin, de mesures complexes des paramètres de qualité de l'air. Idéalement, en suivant cette méthode, vous pourrez diagnostiquer adéquatement les causes réelles des plaintes relatives à la qualité de l'air de la façon la moins coûteuse et la plus rapide possible. Ce n'est qu'en déterminant les vraies causes des plaintes qu'on pourra planifier les stratégies les plus rentables de correction et de prévention des problèmes.

### Strategy for the development of recreational fisheries in Newfoundland and Labrador

By Robert A. Buchanan...et al. ; prepared for the Canada-Newfoundland Cooperation Agreement for Salmonid Enhancement/Conservation. St. John's : The Province, 1994. xl, 273 p. : ill., Maps, Bibl. *Executive summary (22 p.) laid in.*  
MICROLOG 97-02811 (4 fiche)

This report contains the results of a strategic planning exercise whose goal was to devise a strategy which will maximize the sustainable net economic benefits of the salmonid recreational fishery for both Newfoundland and Canada. After an introduction, it provides background information on salmonid fish resources of the province, including a historical view of stocks, harvests, and fishery management as well as material on how fishery management is handled in some other jurisdictions. It then examines the current state of the recreational fishing industry, covering such issues as resource use, infrastructure, markets, and economic value. Finally, it summarizes the major findings and analyzes some of the key issues from a marketing perspective. Recommendations are provided for realizing economic benefits from future expansion of the recreational fishing industry in the province.

### The Stratigraphy and paleontology of Toronto and vicinity

By Madeleine A. Fritz, W.S. Dyer and W.A. Parks. Toronto : Dept. of Mines, 1925. 137 p. : ill., Maps. *Published as vol. XXXII, part VII of the Ontario Dept. of Mines annual report, 1923. Fold. map not filmed.*  
MICROLOG 97-02501 (2 fiche)

The first part of this report provides detailed descriptions, arranged taxonomically, of fossil invertebrates found in the Toronto area. The second part focuses on the fossil species (mostly Bryozoa and Pelecypoda) found in locations along the Credit River, and includes an outline of the stratigraphy of Credit River rocks. The third part describes the rocks and fossils found in the Dundas Formation (Upper Ordovician) in the Toronto area as well as those found in the Dundas Formation and the overlying Richmond Formation in the lower Credit River area. Correlations between those formations and other stratigraphic sections in Canada and the United States are also discussed.

### Study of the effect of heat aging and cold temperature on the durability of roofing membranes

By R.G. Turenne. Ottawa : Public Works Canada, Accommodation, 1993. iv, 30 p. : ill. *French ed. (Étude de l'effet...) on the same fiche.*  
MICROLOG 97-02740 (1 fiche)

The main purpose of the study was to determine the specific mechanical and chemical properties of several products belonging to four generic groups in order to determine the range of values possible within specific groups and establish acceptable levels of membrane performance for each of these groups. This information would then be used to establish test protocols for the different types of membranes which could be incorporated in the national roofing standards to improve their objectivity. This could provide owners with reliable information on the durability of these membranes at various service temperatures. Manufacturers could also use the information to develop more durable roofing membrane materials.

### Sudbury nickel field restudied

By A.G. Burrows and H.C. Rickaby. Toronto : Dept. of Mines, 1935. iii, 49 p. : ill., Maps, Bibl. *Published as vol. XLIII, part II, of the Ontario Dept. of Mines annual report, 1934. Fold. map not filmed.*  
MICROLOG 97-02538 (1 fiche)

This report reviews the geology and other aspects of the southern nickel range in the Sudbury Basin. It begins with a brief review of the area's topography and exploration history, and a summary of the growth of the nickel industry (including production statistics) and the uses of nickel. It then describes the Sudbury area geology, the rocks of the Sudbury Series, and the four mines in the study area (Creighton, Frodo, Garson, and Falconbridge). Finally, various theories concerning the genesis of the Sudbury nickel ores are discussed.

### Surface water quality impacts following winter applications of hog manure in the Interlake Region, Manitoba, Canada, 1996

By D.J. Green. Winnipeg : Manitoba Environment, Water Quality Management, 1996. x, 104 p. : *Ill.*, *Maps*, *Bibl.* (Report / Manitoba. Manitoba Environment ; no. 96-14)  
MICROLOG 97-02709 (2 fiche)

Describes a study to determine the effects on water quality during spring runoff of hog manure applications on snow cover. The study was conducted near the towns of Silver and Hodgson in the Manitoba Interlake region. Samples were collected prior to spring melt from target fields and a control field with no manure application in order to compare nutrient concentrations available on manure-applied fields with background conditions. Water samples were also collected from ditches receiving field runoff, and from the Icelandic and Fisher rivers. Statistical comparisons are presented between the quality of snow meltwater and runoff from the fields, and river water downstream from the fields. Parameters studied include faecal coliform counts, nutrients (nitrogen, phosphorus), pH, conductivity, biochemical oxygen demand, dissolved and suspended solids, calcium, and sulphate. EV MS PR SC

### Surface water quality impacts following winter applications of hog manure in the Interlake Region, Manitoba, Canada, 1996 : summary document

By D.J. Green. Winnipeg : Manitoba Environment, Water Quality Management, 1996. 11 p. : *Maps* (Report / Manitoba. Manitoba Environment ; no. 96-15)  
MICROLOG 97-02710 (1 fiche)

Summarizes a study to determine the effects on water quality during spring runoff of hog manure applications on snow cover. Samples were collected prior to spring melt from target fields and a control field with no manure application in order to compare nutrient concentrations available on manure-applied fields with background conditions. Water samples were also collected from ditches receiving field runoff, and from the Icelandic and Fisher rivers. Comparisons are presented between the quality of snow meltwater and runoff from the target and control fields, and river water downstream from the target and control fields. An over-

view of results focuses on faecal coliform counts and nutrient concentrations. EV MS PR SC

### Survey of North American heat exchanger integrity test methods

By Martin Thomas. Ottawa : Canada Mortgage & Housing Corporation, Research Division, 1996. v. 17 p. : *Ill.*, *Bibl.*  
MICROLOG 97-02951 (1 fiche)

Presents a survey of Canadian and US gas utilities to identify the different methods currently in use to determine the integrity of natural gas furnace heat exchangers. Survey questions included: who had responsibility for field inspection of residential gas equipment; what testing methods are employed to determine presence of cracks or leaks in heat exchangers; why those methods are used; whether qualitative or quantitative methods are preferred; the confidence level in the methods used; whether specialized equipment is used for the tests, and who supplies such equipment; and under what authority are any cracked or leaking heat exchangers to be replaced. ### Survey of spousal assaults reported to police in British Columbia, 1993-94

Victoria : Ministry of Attorney General, Police Services Division, 1996. 51 p. : *Ill.*  
MICROLOG 97-03042 (1 fiche)

Begins by describing the British Columbia Police Services Division data on spousal assault incidents reported to the police during the first two years following a 1993 revision of the Ministry of Attorney General's wife assault policy. This is followed with a description of the results of a survey of a random sample of spousal assault incidents selected from the Division's database. The main purpose of the survey was to determine the accuracy of disposition data contained within the Division database for spousal assault incidents. The survey also collected additional information on spousal assaults, such as the reasons Crown counsel entered stays of proceedings, the number of no-contact orders, victim service referrals, and the marital status of offenders and victims. Appendices include a glossary, information on the Division's data framework and the survey methodology, and statistical tables on spousal assaults. BC CI JU PR SA SS

### The Sustainable Development Act : overview and highlights for local authorities

Winnipeg : The Province, 1996. 7 p.  
MICROLOG 97-02711 (1 fiche)

The Manitoba Sustainable Development Act is intended to achieve the following goals: establish a legal and institutional basis for implementing sustainable development in the province; promote incorporation of sustainable development into government legislation, programs, policies, and practices; and provide an integrated, efficient, single-window approach to development licensing. This booklet summarizes key principles of the draft Act and highlights various references or points in the Act which relate directly to local authorities, such as part 5, which deals with incorporating sustainable development into public sector operations, and part 7, which establishes a service-oriented, single, integrated development licensing process. **Technical assessment of pressurized grout injection methods for use in historical masonry structures**

By Thameur Mnif and Gérard Ballivy. Ottawa : Public Works & Government Services Canada, 1994. 2 v. : ill., Bibl. Contents: Vol. 1 : Final report - vol. 2 : Field tests.  
MICROLOG 97-02754 (2 fiche)

Previous grouting performed to rehabilitate historical navigational locks has revealed a number of shortcomings in the methods, equipment, and formulation of microfine cement grouts. This report begins with an analysis of current specifications for drilling and cleaning grout boreholes and specifications of cement grouts. It then describes tests and analyses conducted to gain a better understanding of grouting phenomena, including particle size analyses and injectability tests, and presents a review of literature on the use of grouts in restoring historical structures. Finally, recommendations are made regarding the grouting equipment and control instruments used, the injection technique, and field tests to address the problems identified. Also contains the field tests carried out during repair work at 19th-century navigational lock structures in Ontario.

**Technical report on the Project Haven Evaluation and Client Information System : final report**

SPR Associates Inc. Ottawa : Canada Mortgage & Housing Corporation, 1994. lxx, 73 p. : ill.  
MICROLOG 97-02956 (2 fiche)

The Project Haven Program provided capital funds for non-profit community groups and First Nations to create emergency shelters for women and children who experienced family violence. The program focus was on serving women from groups currently under-served with this type of accommodation, such as Aboriginal, rural, visible minority, immigrant, and physically disabled women. A Client Information System (CIS) component of the Program provided profiles of the types of clients served, their needs for housing assistance, and the provision of services to meet client needs. This report describes the implementation of the CIS component and presents a 12-month overview of CIS performance, with information on such matters as shelter participation in CIS, data yield, and data completeness. Some CIS results are then reviewed, including client characteristics, reasons for their coming to shelters, situation after leaving the shelter, services received, and client satisfaction.

Le tétrachloroéthylène, aussi connu sous le nom perchloroéthylène et généralement appelé PERC, a été évaluée comme une matière toxique selon l'article 11 (a) de la Loi canadienne sur la protection de l'environnement. Selon cet article de la loi, une matière est toxique si elle entre ou peut entrer dans l'environnement dans des quantités ou des concentrations qui ont ou peuvent avoir un effet nocif immédiat ou à long terme sur l'environnement. Ce rapport présente les conclusions des consultations et recommande les options pour la gestion des risques des cycles de vie associés aux rejets de PERC par l'industrie du nettoyage à sec.

**Tetrachloroethylene in the dry cleaning sector : report of stakeholder consultations**

Ottawa : Environmental Protection Directorate, Pacific & Yukon Region, 1996. iii, 39 p. : ill., Bibl. *French ed. (Le Tétrachloroéthylène dans l'industrie...)* : 97-02687/1. At head of title: *Canadian Environmental Protection Act : strategic options for the management of toxic substances.* ISBN 0-662-25028-1 CCG-P no. En40-522/1996E  
MICROLOG 97-02694 (1 fiche)

Presents findings of consultations with stakeholders from government, industry, and environmental and health organizations regarding environmental management options for tetrachloroethylene (also known as PERC) used in the dry cleaning industry. Begins with an overview of the toxicity of PERC, its uses in Canada, its releases into the environment from a life cycle management perspective, and a technical and socio-economic profile of the dry cleaning industry. Environmental management options are then discussed, including an economic analysis undertaken for each option (costs to dry cleaners and government, benefits in PERC reduction). Technical projections of PERC use are also made for four scenarios involving various intervention measures in relation to a base case (no intervention). Collateral considerations discussed regarding wastes from PERC dry cleaning, other cleaning technologies, and fabric care labelling. Recommendations are provided on options for managing the life cycle risks associated with PERC releases from the dry cleaning sector.

### Till geochemistry and gold grain results, southern Contwoyto Lake map area, Northwest Territories, 76E/1-8, 12, 13

By B.C. Ward, D.E. Kerr and L.A. Dredge. Ottawa : Natural Resources Canada, Geological Survey of Canada, 1997. 150 p. : ill., Maps, Bibl. (Open file / Geological Survey of Canada ; 3387) *Contribution to the Slave Province NATMAP, Canada's national geoscience mapping program.* MICROLOG 97-03064 (2 fiche)

The Contwoyto Lake map area lies in the central District of Mackenzie not far north of Lac de Gras. The purposes of this report are to release geochemical data from a till sampling program carried out in the area in 1994; to summarize information on surficial materials and glacial history that is relevant to the interpretation of the geochemical data; and to establish regional background concentrations of selected trace and minor elements for mineral exploration and environmental baseline studies. The report includes a review of the area's regional geology, description of field and laboratory methods, and results of analyses of trace element geochemistry, kimberlite trace elements, and gold from heavy mineral concentrates. The appendix contains analytical data tables and maps showing trace/minor element distributions. CA ND NO NR SC

### The Time for regionalization : reforming municipal government in Newfoundland and Labrador

St. John's : Dept. of Municipal & Provincial Affairs, 1996. 31 p. : Maps MICROLOG 97-02889 (1 fiche)

The Newfoundland government believes that the province's system of local government can be improved by adopting a regional approach to the delivery of municipal services. This discussion paper outlines the principles that should guide the reform of local government structures, the background to current initiatives in municipal reform, the government's proposed regionalization concept, and issues requiring consideration prior to implementation. Two primary options for municipal restructuring are discussed: the regional council option and the regional service authority option. The paper ends with an outline of the feasibility studies and the consultation process to be conducted. Maps of regional economic zones, which will form the basis for determining regional groupings, are included. AP MU PA PR SS

### Time spreading at high frequency in a shallow water channel

By Paul C. Hines, Arthur J. Collier and J. Stuart Hutton. Dartmouth, NS : National Defence, Research & Development Branch, Defence Research Establishment Atlantic, 1996. iv, 24 p. : ill., Bibl. (DREA technical memorandum / Defence Research Establishment Atlantic ; 96/209) MICROLOG 97-02903 (1 fiche)

Time spreading measurements provide an indirect measure of the acoustic bandwidth that can be supported by the water channel, which is critical to the design of a sonar system. This paper presents measurements of time spreading over the 20-40 kHz frequency band, collected in a shallow water channel of the Nova Scotia coast. Data were collected using linear frequency modulated pulses two seconds in duration. The paper compares the time spreading measurements with modelled estimates obtained using the Generic Sonar Model. In addition, the data were used to compute the standard deviation of the received echo intensity at each frequency. The standard deviation was computed both using the peak echo level from each of the pulses at a given frequency, and from the total energy received from each of the pings. The results will be used to improve performance predictions of present-day sonars as well as to aid in designing future sonars. CA ND PS SC

### Tips for ensuring good indoor air quality

Ottawa : Public Works Canada, Architectural & Engineering Services, Building Performance Division, Technology, 1992. 84 p. : Bibl. MICROLOG 97-02741 (2 fiche)

This manual recommends ways to promote good indoor air quality in office buildings. The recommendations can also be applied to other types of buildings such as hospitals, schools, and other public buildings. They cover five areas: design and construction, involving the six phases of planning, project definition, implementation, commissioning, operation, and evaluation; building design features including heating, ventilation, and air conditioning (HVAC) systems, kitchens, parking garages, ducts, windows, and building materials selection; maintenance of HVAC and other systems; operation of HVAC and hot water systems; and office planning/building use. ### Too good to lose : better services to children and families, provincial Placement Review Project report

Nova Scotia. Placement Review Project Committee. Halifax : The Committee, 1996. 14 p. MICROLOG 97-02655 (1 fiche)

Against a background of increasing demand for residential placements for children and youth, along with associated support services, the Nova Scotia Dept. of Community Services initiated a placement review project. This report presents findings and recommendations from the review, whose objectives included: conducting a review of present circumstances; analysis of ways in which existing resources are deployed; examining the efficiency of the existing system of resource usage when outcome measures are applied; suggesting more effective protocols for management of placement decisions and support provision; and identifying associated service issues and deficiencies. A set of principles and a common vision determined during the review are presented, along with recommendations in the areas of partnership development, the continuum of services, service delivery, and implementation of recommendations. ### Tradition and change, a strategy for renewable resource development in the Northwest Territories

Yellowknife : Dept. of Renewable Resources, 1994. 23 p. : ill. MICROLOG 97-03043 (1 fiche)

Presents a strategy to protect and enhance the quality of the Northwest Territories environment and to manage and develop renewable resources on a sustainable basis. After an introduction outlining the role and benefits of renewable resources in the territorial economy and the purpose of the strategy, strategies are presented for specific renewable resource sectors: wildlife, forests, fisheries, fur, marine mammals, and agriculture. Each sectoral strategy includes a sector overview, estimates of its actual/imputed value, sector objectives, proposed initiatives, and constraints to development. Concludes

with an outline of action plans for each of those sectors. NO NR PR SC

### Transport of contaminated gas and dust in high-rise apartment buildings

By: Jacques Whitford Environmental Limited, Morrison Hershfield Limited. Ottawa : Canada Mortgage & Housing Corporation, Research Division, 1996. vi, 20 p. : ill., *Bibl.*  
MICROLOG 97-02954 (1 fiche)

Describes a research project undertaken to investigate the level of risk associated with contaminated soil gases and dust in high-rise apartment buildings. The study examined the hypothesis that a high-rise with an underground parking garage can create an adequate concentration-reducing buffer between entry points for gaseous or dust contaminants and living spaces. Study tasks included a literature search, an evaluation of transfer paths of gaseous phase contaminants, and an evaluation of the effect of ventilation systems on those transfer paths. The latter two tasks involved tracer gas studies conducted at three buildings of 15 to 20 storeys, each with ventilated parking garages.

### Tree Farm Licence 10 issued to International Forest Products Limited : rationale for allowable annual cut (AAC) determination, effective December 30, 1996

By Larry Pedersen. Victoria : Ministry of Forests, 1996. 48 p. : *Bibl.*  
MICROLOG 97-03048 (1 fiche)

Tree Farm Licence (TFL) 10 covers about 230,000 hectares and is located about 150 kilometres northwest of Vancouver on the mainland coast of British Columbia. The TFL is held by International Forest Products Ltd. and about 23% of the TFL area is productive forest. After a brief description of the TFL area, this report reviews the principles for determining the allowable annual cut for the area and presents an accounting of the factors and the rationale used in making that determination. These factors include the role of the base-case timber supply forecast, the existing forest inventory, the expected rate of forest growth, the land base contributing to timber harvesting, impediments to forest regeneration, silvicultural treatments, decay and wastage, integrated resource management objectives, harvest flow, and community dependence on the forest industry. The appendix contains relevant sections of provincial forestry legislation.

### Trends in marine-derived nutrient sources to south coastal British Columbia streams : impending implications to salmonid production

By G.A. Larkin and P.A. Slaney. Victoria : Ministry of Environment, Lands & Parks ; Ministry of Forests, 1996. 1, 56 p. : ill., *Bibl.* (Watershed restoration management report / British Columbia. Ministry of Environment, Lands & Parks and British Columbia. Ministry of Forests ; no. 3) On cover: *Watershed Restoration Program.*  
MICROLOG 97-03036 (1 fiche)

Pacific salmon secure the link between the marine and freshwater environment by the annual return of adults from the sea to spawn and die. Almost their entire body weight is of marine origin, and is delivered to the freshwater system through excretion, gametes, and carcass decomposition. There is ample evidence that marine nutrients transported from the sea by salmon escapement are significant and important to the productivity of oligotrophic lakes and streams in which they spawn. Past land-use practices and fish harvesting are well known to have reduced the availability of salmonid carcasses to streams, resulting in reduction of nutrient influx and diminishing productivity in a negative feedback loop that affects the next generation of salmon. This report examines escapements for salmon populations returning to the Georgia Basin, mainland, and Vancouver Island coasts to estimate the status of marine sources of nutrients to salmonid rearing habitats. It is intended as a preliminary investigation of escapement data to assess if marine nutrient influx has decreased in various regions.

### Trihalomethane control at First Nation community waterworks

By A.R. Townshend. Ottawa : Public Works & Government Services Canada, DIAND Technical Services, 1995. viii, 106 p. : ill., *Bibl.*  
MICROLOG 97-02762 (2 fiche)

Trihalomethanes (THMs) are a by-product of chlorination arising from organic matter in raw water supplies. THMs have been classified as suspected probable carcinogens and national guidelines have recently lowered to maximum acceptable concentration for total THMs in water supplies to 0.1 milligram per litre. This report first explains the impact of THMs in drinking water and the trend to stricter water quality control, along with the impact of more stringent THM requirements on First Nation water supply systems. It then summarizes THM control requirements in Canada, the US, and Europe, and reviews the capabilities of various water treatment processes having potential for THM removal and

use at First Nations waterworks. These processes include physical/chemical processes, membrane filtration, biological filtration, and use of alternative disinfectants. The report concludes with recommendations for action. Appendices provide details on various water treatment technologies.

### Uncertainty and forest land use allocation in British Columbia : fuzzy decisions and imprecise coefficients

By Arlene Ellis, G. Cornelis Van Kooten and Erwin Bulte. Victoria : Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II, 1996. 45 p. : *Bibl.* (Working paper / Canada-British Columbia Partnership Agreement on Forest Resource Development: FRDA II ; 96.11)  
MICROLOG 97-02926 (1 fiche)

This paper explains the concepts of fuzzy set theory and applies them to the problem of allocating public forest land on Vancouver Island among competing land uses. Two principal sources of fuzziness are identified: those related to uncertainty in classification (specification of management objectives) and those related to uncertainty concerning how actions affect objectives (imprecise technical coefficients). Comparing the results of classical and fuzzy decision models enables determination of which approach provides improved results, and which is more consistent with the political decision-making process in British Columbia.

### Water odour, Athabasca River, 1994 (post ALPAC)

By Sandra Kenefick...et al. Edmonton : Northern River Basins Study, 1996. 38 p. : ill., Bibl. (Northern River Basins Study project report / Northern River Basins Study (Canada) ; no. 114 ISSN 1192-3571) ISBN 0-662-24916-X CCG-P no. R71-49/3-114E  
MICROLOG 97-02945 (1 fiche)

The purpose of this study was to determine the potential for off-flavour tainting of water and/or fish in the Athabasca River by compounds discharged from pulp mills. Three different analytical methods commonly used in monitoring for the presence of odorous compounds in water supplies are described and results are presented: odour characterization by a trained flavour profile panel; olfactory gas chromatography; and gas chromatography/mass spectroscopy. The usefulness of each method in providing different types of information is noted. The results are compared with those of an earlier survey to indicate the impact of combined effluents at Hinton on the odour of the Athabasca River.

### Watershed assessment model : project update, 1995-96

By Janice Traynor. Edmonton : Alberta Environmental Protection, 1996. 14 p. : *Bibl.* On cover: *Forest Development Research Program. At head of title: Manning Diversified Forest Products Research Trust Fund, MDPF 10/95.*  
ISBN 0-7732-5078-6  
MICROLOG 97-02865 (1 fiche)

Reports progress on development of a watershed assessment model, intended to represent in a computer model a process to ensure that fish, stream, hydrological, and land base information is considered when evaluating land management decisions. Scheduled activities include development of an ArcView interface on a UNIX operating system, preparation of fish and stream inventories, regional hydrology studies, gathering of geographic information systems data, and customizing the model for the Foothills Model Forest region in Alberta. Also includes a summary of the proceedings of a workshop held to outline the current status of the watershed program of the Model Forest. The goal of that program is to develop a planning tool and provide managers with better information to evaluate land management alternatives for hydrologic, fisheries, and aquatic habitat values.

### Welfare incomes : a report 1995

National Council of Welfare (Canada). Ottawa : The Council, 1997. 46 p.  
MICROLOG 97-02570 (1 fiche)

This report estimates welfare incomes for the year for four types of households: a single employable person, a single person with a disability, a single-parent family with a child aged two, and a two-parent family with two children aged ten and 15. It defines welfare, and looks at eligibility, rates of assistance, basic social assistance, special assistance, family allowances, child tax credit, child-related benefits, GST credit, provincial tax credits, adequacy of benefits, welfare and average incomes, provincial and territorial benefits over time, and earnings exemptions.

### Wetlands of the Maritime Provinces : revised documentation for the wetlands inventory

By A.R. Hanson and L. Calkins. Sackville, NB : Environment Canada, Canadian Wildlife Service, Atlantic Region, 1996. 67 p. : *Bibl.* (Technical report series / Canadian Wildlife Service ; no. 267 ISSN 0831-6481) ISBN 0-662-25285-3 CCG-P no. CW69-5/267E  
MICROLOG 97-02776 (1 fiche)

Summarizes information on the Wetland Protection, Mapping & Designation Program, which had its origin with an inventory of wetlands in central Nova Scotia. Program objectives are to provide information on the vegetative life forms, size, distribution, and wildlife value of all wetlands in New Brunswick,

Nova Scotia, and Prince Edward Island. Chapter 1 describes the procedure for freshwater wetland classification, the classification system (covering such factors as wetland classes, size categories, site and cover types), and criteria for wetland evaluation. Chapter 2 describes the coastal habitat classification procedure, classification system, and coastal habitat unit scoring system. Chapter 3 reviews products resulting from the Program, including wetland atlases and databases. Chapter 4 provides a physiological background to Maritimes wetland resources and a regional summary of wetland data for the three provinces studied.

### Written reasons required for Minister's decisions on environmental assessments

Toronto : Ministry of Environment & Energy, Environmental Assessment Branch, 1995. 8 p.  
MICROLOG 97-02644 (1 fiche)

To make Ontario's environmental assessment (EA) process accountable, and to assist participants in understanding EA decision-making, the Minister of Environment & Energy will provide written reasons for all 12 decisions regarding EAs and hearings. This document explains the 12 decision points, including what the decisions involve and (for most of the 12) the considerations on which the decisions will be based.

### The Zero cavity and DPV wall project

University of Waterloo. Building Engineering Group. Ottawa : Canada Mortgage & Housing Corporation, 1993. xxvi, 311 p. : *Ill.*, *Bibl.*  
MICROLOG 97-02948 (4 fiche)

Describes a full-scale field assessment of two alternative solutions to ensuring a clear cavity in a brick veneer rainscreen wall system: filling the cavity with an air- and water-permeable fibrous insulation to reduce the effect of mortar droppings and dams on the cavity (the zero-cavity approach), and avoiding cavity blockage by preventing the mortar from entering the cavity space while at the same time ensuring the drainage, pressure-moderation, and ventilating capabilities of the cavity (the DPV approach). A Datum wall system with a clear cavity was also included in the study for comparison. The construction, instrumentation, and installation of test panels are documented, and the data collected are compiled and analyzed. Results and their implications for wall construction are then presented. Appendices include test data showing cavity temperature, pressure, and relative humidity.

# Personal Name Index

## Index des noms propres

### A

#### Allen, Eric A.

Author: Common tree diseases of British Columbia. MICROLOG 97-02689 (2 fiche)

#### Andrews, W.T.

Author: A Hydroacoustic survey on the continental shelf off British Columbia to evaluate new fisheries acoustic instrumentation and to obtain Pacific hake stock assessment information, May 28 - June 4, 1994. MICROLOG 97-02681 (1 fiche)

#### Antón, Danilo J.

Author: Ciudades sedientas : agua y ambientes urbanos en América Latina. MICROLOG 97-02837 (3 fiche) (Available on fiche only)

#### Archer, Ann

Author: The Accessible Canadian Library II, a resource tool for libraries serving persons with disabilities. MICROLOG 97-02838 (3 fiche)  
Auteur: La Bibliothèque canadienne accessible II, un instrument de travail destiné aux bibliothèques au service des personnes handicapées. MICROLOG 97-02838 (3 fiche)

#### Armstrong, H.S.

Author: Iron deposits in the District of Algoma : appendix, Lakemount property, township 28, range XXIV. MICROLOG 97-02528 (2 fiche)

#### Armstrong, Tanya F.

Author: Assessment of drinking water quality in the Northern River Basins Study area : synthesis report. MICROLOG 97-02974 (2 fiche)

#### Aubry, Tim

Author: Development of a homeless data collection and management system, phase one : final report. MICROLOG 97-02825 (1 fiche)

### B

#### Baker, M.B.

Author: Statistical review : summer mining classes : mines of Ontario : natural gas and petroleum : exploration in Mattagami Valley : agricultural resources of Mattagami : the Animikie Iron range : iron ranges of eastern Michipicoten. MICROLOG 97-02552 (4 fiche)

#### Ballivy, Gérard

Author: Technical assessment of pressurized grout injection methods for use in historical masonry structures. MICROLOG 97-02754 (2 fiche)

#### Bartlett, Kim J.

Author: Just the facts, a review of silviculture and other forestry statistics. MICROLOG 97-03031 (2 fiche)

#### Belcher, D.

Author: Ozone generated by office equipment -- Rev. MICROLOG 97-02737 (2 fiche)  
Auteur: L'Ozone produit par l'équipement de bureau -- Rév. MICROLOG 97-02739 (2 fiche)

#### Bélisle, Claude

Auteur: Contrôleur numérique à canaux multiples pour diodes lasers. MICROLOG 97-02999 (1 fiche)

#### Bergerud, Wendy A.

Author: Introduction to logistic regression models, with worked forestry examples. MICROLOG 97-03032 (2 fiche)

#### Berry, David K.

Author: Alberta's lake sturgeon management plan. MICROLOG 97-02869 (1 fiche)

#### Bezanson, Nelson

Author: Background report : an historical geography of Tantramar's heritage landscapes. MICROLOG 97-03002 (3 fiche)

#### Bissonnette, Luc R.

Author: Multiple-field-of-view lidar tests : monitoring adverse weather for performance assessment of electro-optics weapons. MICROLOG 97-03067 (2 fiche)

#### Blawat, Peter

Author: Guidelines for estimating 1997 crop production costs. MICROLOG 97-02728 (1 fiche)

#### Boessenkool, Kenneth J.

Author: Ending the training tangle : the case against federal-provincial programs under El. MICROLOG 97-02566 (1 fiche)

#### Booth, J.

Author: Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 1 : review of mapping with preliminary recommendations. MICROLOG 97-02680 (1 fiche)

#### Bornhold, Brian D.

Author: Coastal sedimentary processes, Savary Island, British Columbia : a preliminary assessment. MICROLOG 97-02560 (1 fiche)

#### Bossé, Luc

Auteur: Les Invertébrés des fonds meubles et la biogéographie du Fjord du Saguenay. MICROLOG 97-02549 (1 fiche)

#### Bouchard, Marie

Auteur: Coopérative-équité, problématique, contraintes réglementaires, et motivations des membres. MICROLOG 97-02961 (2 fiche)

#### Boudreau, Daniel

Author: Narrowband technologies for tactical communications (U). MICROLOG 97-02902 (1 fiche)

#### Bowes, Garry

Author: Direct seeding into crested wheatgrass : final report. MICROLOG 97-02970 (1 fiche)

#### Brink, Lars

Author: The Hog and pork industries of Denmark and the Netherlands : a competitiveness analysis. MICROLOG 97-02690 (1 fiche)

#### Brooks, Christopher J.

Author: The Effects of wave conditions on dry immersion suit insulation : a comparison between humans and manikin. MICROLOG 97-02842 (1 fiche)

#### Brousseau, Lise

Auteur: Les Réseaux de villes en Europe : étude. MICROLOG 97-02959 (1 fiche)

#### Brown, Robert S.

Author: The Grade 1 cohort of 1981 : tracking outcomes, 1981-95. MICROLOG 97-02812 (1 fiche)

#### Bruce, E.L.

Author: Geology of the townships of Janes, McNish, Pardo and Dana : Moose Mountain-Wanapitell area. MICROLOG 97-02534 (1 fiche)  
Author: Geology of township 47, Missinaibi Area. MICROLOG 97-02530 (1 fiche)  
Author: Iron formation of Lake St. Joseph : eastern part of Lake St. Joseph : area south of the west end of Lake St. Joseph. MICROLOG 97-02515 (1 fiche)

#### Buchanan, Robert A.

Author: Strategy for the development of recreational fisheries in Newfoundland and Labrador. MICROLOG 97-02811 (4 fiche)

#### Buckley, L.P.

Author: Bitumen immobilization of aqueous wastewater by thin-film evaporation. MICROLOG 97-02789 (1 fiche)

#### Bulte, Erwin

Author: Uncertainty and forest land use allocation in British Columbia : fuzzy decisions and imprecise coefficients. MICROLOG 97-02926 (1 fiche)

#### Burrows, A.G.

Author: Kirkland Lake gold area : Lebel and Gauthier townships. MICROLOG 97-02502 (2 fiche)  
Author: Sudbury nickel field restudied. MICROLOG 97-02538 (1 fiche)

#### Burt, A.J.

Author: Benthic invertebrate survey of the St. Marys River, 1985, vol. 2 : appendices 4 to 6. MICROLOG 97-02641 (2 fiche)  
Author: Benthic invertebrate survey of the St. Marys River, 1985, vol. 1 : main report. MICROLOG 97-02659 (2 fiche)

#### Burwash, E.M.

Author: Geology of Ontario-Manitoba boundary, Winnipeg River to Bloodvein River, 1921 : Bloodvein River to twelfth base line, 1922. MICROLOG 97-02514 (1 fiche)

#### Byrne, C.A.

Author: Air quality monitoring in Alberta : summary report, 1995. MICROLOG 97-02854 (1 fiche)

### C

#### Calkins, L.

Author: Wetlands of the Maritime Provinces : revised documentation for the wetlands inventory. MICROLOG 97-02776 (1 fiche)

#### Callaghan, Diana

Compilateur(trice): Entente de développement du nord de l'Ontario (EDNO) : Programme de foresterie du Nord : état d'avancement des projets. MICROLOG 97-02686 (2 fiche)

#### Carter, E.W.

Author: A Preliminary report on the adult chinook productivity study conducted on the Cowichan River during 1995. MICROLOG 97-02684 (1 fiche)

#### Chamois, Paul

Author: Report for Mineral Investment Stimulation Program : Belledune-Heron property, 1992, New Brunswick, NTS 21 P/13. MICROLOG 97-02976 (1 fiche)

- Chan, T.**  
Author: Regional groundwater flow in the Alkakan Research Area : model development and calibration. MICROLOG 97-02725 (1 fiche)  
Author: Verification of the MOTIF code, version 3.0. MICROLOG 97-02727 (1 fiche)

Author: The Stratigraphy and paleontology of Toronto and vicinity, part III : gastropoda, cephalopoda, and vermes. MICROLOG 97-02500 (1 fiche)  
Author: The Stratigraphy and paleontology of Toronto and vicinity. MICROLOG 97-02501 (2 fiche)

## G

**Gagnon, Hélène**

Author: Development of modern methods for determination of stabilizers in propellants. MICROLOG 97-03068 (2 fiche)

**Gauthier, Daniel**

Auteur: Sommaire de la situation concernant l'introduction d'espèces non indigènes par l'eau de lest des navires au Canada et dans d'autres pays. MICROLOG 97-02544 (1 fiche)

**Gemin, J.J.**

Author: Water plant optimization study : Fort Erie Rosehill Water Treatment Plant. MICROLOG 97-02650 (3 fiche)  
 Author: Water plant optimization study : Sault Ste. Marie water supply. MICROLOG 97-02705 (3 fiche)  
 Author: Water plant optimization study : Thunder Bay water supply. MICROLOG 97-02706 (4 fiche)

**Gendreau, Paul**

Author: Predicting adult offender recidivism : what works! MICROLOG 97-02668 (1 fiche)

**George, M.V.**

Auteur: Projections de la population des minorités visibles, Canada, provinces et régions, 1991-2016. MICROLOG 97-02985 (2 fiche)  
 Author: Projections of visible minority population groups, Canada, provinces and regions, 1991-2016 - Rev. MICROLOG 97-02987 (2 fiche)

**Gilbert, M.**

Auteur: Hypothèses reliées aux effets environnementaux du projet Grande Baleine sur l'écosystème marin côtier du sud-est de la baie d'Hudson. MICROLOG 97-02569 (1 fiche)

**Gilroy, Layton E.**

Author: Measurement and linear prediction of hull pressure spectra on CFAV Quest : results of Q210, vol. I. MICROLOG 97-02840 (1 fiche)

**Ginsberg, Stephen**

Author: Issues affecting the translation of 3D databases. MICROLOG 97-02745 (1 fiche)

**Gobas, F.A.**

Author: Biosorption, bioaccumulation and food chain transfer of organic chemicals. MICROLOG 97-02645 (2 fiche)

**Godbout, Marc**

Auteur: Etude de faisabilité pour établir le profil des investisseurs de logement local au Canada. MICROLOG 97-03026 (1 fiche)

**Goggin, Claire**

Author: Predicting adult offender recidivism : what works! MICROLOG 97-02668 (1 fiche)

**Goudey, J. Stephen**

Editor: Aquatic Toxicity Workshop : proceedings 1996. MICROLOG 97-02577 (3 fiche)

**Graham, A.R.**

Author: German-Currie area, District of Cochrane : Groundhog-Kamiskotia area, District of Cochrane. MICROLOG 97-02507 (1 fiche)  
 Author: Pickle Lake-Crow River area, District of Kenora, Patricia portion : Sturgeon Lake gold area, districts of Kenora and Thunder Bay : Obonga Lake chromite area, District of Thunder Bay. MICROLOG 97-02516 (1 fiche)

**Gray, Stephen L.**

Auteur: Inventaire des forêts du Canada, 1991, version 1994 : un addenda à l'inventaire de forêts du Canada 1991. MICROLOG 97-02998 (1 fiche)

**Green, D.J.**

Author: Surface water quality impacts following winter applications of hog manure in the Interlake Region, Manitoba, Canada, 1996. MICROLOG 97-02709 (2 fiche)  
 Author: Surface water quality impacts following winter applications of hog manure in the Interlake Region, Manitoba, Canada, 1996 : summary document. MICROLOG 97-02710 (1 fiche)

**Green, W.F.**

Author: Geology of base line running west from near mile 19, western boundary of the Nipigon Forest Reserve : geology of certain base and meridian lines west of Lake Nipigon : Kenogamissi Lake area, including Townships of Denton and Keefer. MICROLOG 97-02513 (1 fiche)

**Griffin, Dennis**

Author: Air quality assessment, Thunder Bay Terminals Limited, Thunder Bay, 1991. MICROLOG 97-02832 (1 fiche)

**Griffin, H.D.**

Author: Air quality assessment, Thunder Bay Terminals Limited, Thunder Bay, 1989. MICROLOG 97-02724 (1 fiche)

## H

**Hachem, H.M.**

Author: Low temperature effects on the microstructure of cement paste cured in seawater. MICROLOG 97-02769 (3 fiche)

**Hancock, James R.**

Author: NATO Panel VII/SICA international training exercise on the identification of peptides. MICROLOG 97-02847 (1 fiche)

**Hanson, A.R.**

Author: Wetlands of the Maritime Provinces : revised documentation for the wetlands inventory. MICROLOG 97-02776 (1 fiche)

**Hargrave, W.J.**

Author: Water plant optimization study : Belleville Water Treatment Plant, project no. 7-2036. MICROLOG 97-02597 (3 fiche)

**Harkness, R.B.**

Author: Natural gas in 1930 : petroleum in 1930. MICROLOG 97-02504 (1 fiche)  
 Author: Natural gas in 1931 : petroleum in 1931. MICROLOG 97-02503 (1 fiche)  
 Author: Natural gas in 1933 : petroleum in 1933. MICROLOG 97-02536 (1 fiche)  
 Author: Natural gas in 1944 : petroleum in 1944. MICROLOG 97-02522 (2 fiche)  
 Author: Natural gas in 1945 : petroleum in 1945. MICROLOG 97-02523 (1 fiche)

**Hart, D.R.**

Author: Benthic invertebrate survey of the St. Marys River, 1985, vol. 2 : appendices 4 to 6. MICROLOG 97-02641 (2 fiche)  
 Author: Benthic invertebrate survey of the St. Marys River, 1985, vol. 1 : main report. MICROLOG 97-02659 (2 fiche)

**Hatsivasillou, Fivos**

Author: A Novel approach to the application of higher order neural networks to image classification. MICROLOG 97-02901 (1 fiche)

**Hay, D.E.**

Author: Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 1 : review of mapping with preliminary recommendations. MICROLOG 97-02680 (1 fiche)

**Hillier, Brian**

Auteur: Rapport. MICROLOG 97-02483 (1 fiche)  
 Author: A Report. MICROLOG 97-02482 (1 fiche)

**Hines, Paul C.**

Author: Time spreading at high frequency in a shallow water channel. MICROLOG 97-02903 (1 fiche)

**Hirshhorn, Ronald**

Author: Foreign direct investment and market framework policies : reducing frictions in APEC policies on competition and intellectual property. MICROLOG 97-02938 (2 fiche)  
 Auteurs: L'investissement étranger direct et les politiques d'encadrement du marché : réduire les frictions dans les politiques axées sur la concurrence et la propriété intellectuelle au sein de l'APEC. MICROLOG 97-02938 (2 fiche)

**Hodge, Gerald**

Author: The Grayling of Canadian suburbs : patterns, pace and prospects. MICROLOG 97-02957 (2 fiche)

**Holme, R.J.**

## Titres de collections

### Aboriginal policing series. Canada. Solicitor General Canada

First Nations police officers survey.  
MICROLOG 97-02981 (3 fiche)

### AECL research. Atomic Energy of Canada Ltd.

AECL-11081 Regional groundwater flow in the Atikokan Research Area : model development and calibration. MICROLOG 97-02725 (1 fiche)

AECL-11275 Crystal structure of thin oxide films grown on Zr-Nb alloys studied by RHEED. MICROLOG 97-02783 (1 fiche)

AECL-11321 Source-term model for the SYVAC3-NSURE performance assessment code. MICROLOG 97-02784 (1 fiche)

AECL-11333 Fission product tellurium and cesium telluride chemistry revisited. MICROLOG 97-02785 (1 fiche)

AECL-11471 Microbially influenced corrosion of copper nuclear fuel waste containers in a Canadian disposal vault. MICROLOG 97-02786 (1 fiche)

AECL-11495 Preliminary analysis of the creep behaviour of nuclear fuel-waste container materials. MICROLOG 97-02755 (1 fiche)

AECL-11496 Verification of the MOTIF code, version 3.0. MICROLOG 97-02727 (1 fiche)

AECL-11500 Programmer's guide for the CC3 computer models of the concept for disposal of Canada's nuclear fuel waste. MICROLOG 97-02660 (2 fiche)

AECL-11526 Aquatic dispersion modelling of a tritium plume in Lake Ontario. MICROLOG 97-02787 (1 fiche)

AECL-11529 Recommended food chain parameter values and distributions for use around CANDU sites in Ontario. MICROLOG 97-02788 (1 fiche)

AECL-11541 Bitumen immobilization of aqueous radwaste by thin-film evaporation. MICROLOG 97-02789 (1 fiche)

AECL-11542 Liquid radwaste processing with spiral wound reverse osmosis. MICROLOG 97-02756 (1 fiche)

AECL-11544 A Review of the low-temperature creep behaviour of titanium. MICROLOG 97-02702 (1 fiche)

AECL-11552 A Copper container corrosion model for the in-room emplacement of used CANDU fuel. MICROLOG 97-02698 (1 fiche)

AECL-11567 A Description of 60Co gamma irradiation facilities in the Radiation Biology and Health Physics Branch. MICROLOG 97-02757 (1 fiche)

AECL-11608 Hydrogen absorption by grade-2 titanium. MICROLOG 97-02703 (1 fiche)

AECL-11708 High-temperature chemistry of molybdenum, cesium, iodine and UO<sub>2</sub>+x. MICROLOG 97-02973 (1 fiche)

### Avis. Québec (Province). Conseil de la famille

La Médiation préalable en matière familiale. MICROLOG 97-02640 (1 fiche)

### Backgrounder. Ontario. Legislative Research Service

no. B-4 Post-secondary education reforms in other provinces. MICROLOG 97-02813 (1 fiche)

### Biometrics Information handbook. British Columbia. Ministry of Forests

no. 7 Introduction to logistic regression models, with worked forestry examples. MICROLOG 97-03032 (2 fiche)

### Cahier de recherche. École des hautes études commerciales (Montréal, Québec)

no 95-14 Coopérative-équité, problématique, contraintes réglementaires, et motivations des membres. MICROLOG 97-02961 (2 fiche)

### Canadian data report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

no. 984 Cruise details and biological information from the Pacific Ocean perch larval surveys aboard the R/V W.E. Ricker, April 16-30, 1992, and June 9-18, 1993. MICROLOG 97-02675 (2 fiche)

no. 998 Pre-logging data on macroinvertebrate drift from the Takla Lake tributaries, in the central Interior of British Columbia from 1991-94. MICROLOG 97-02674 (2 fiche)

no. 999 1989 Atlantic salmon sport catch statistics : Maritime Provinces / S.F. O'Neil...et al. Halifax : Dept. of Fisheries & Oceans, Maritimes Science Branch, Diadromous Fish Division, 1996. v, 81 p. : ill., Bibl. MICROLOG 97-02989 (1 fiche)

### Canadian manuscript report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

no. 2361 Juvenile coho salmon enumeration studies at Black Creek, Vancouver Island, / By T.C. Nelson and K. Simpson. Nanaimo, BC : Fisheries & Oceans Canada, Science Branch, Stock Assessment Division, Pacific Biological Station, 1996. ix, 40 p. : ill., Bibl. MICROLOG 97-02699 (1 fiche)

no. 2362 Bottom trawl survey for rockfish in Queen Charlotte Sound, September 11 to 22, 1995. MICROLOG 97-02683 (2 fiche)

no. 2363 A Hydroacoustic survey of Pacific hake on the continental shelf off British Columbia from the Canada/U.S. boundary to Queen Charlotte Sound, August 15 - 31, 1994. MICROLOG 97-02682 (1 fiche)

no. 2366 A Preliminary report on the adult chinook productivity study conducted on the Cowichan River during 1995. MICROLOG 97-02684 (1 fiche)

no. 2378 A Hydroacoustic survey on the continental shelf off British Columbia to evaluate new fisheries acoustic instrumentation and to obtain Pacific hake stock assessment information, May 28 - June 4, 1994. MICROLOG 97-02681 (1 fiche)

no. 2379 Estimation of the 1994 Harrison River chinook salmon escapement. MICROLOG 97-02685 (1 fiche)

no. 2383 Pacific Stock Assessment Review Committee (Canada) : Annual report for, 1995 / By J. Rice...et al. (editors). Nanaimo, BC : Dept. of Fisheries & Oceans, Pacific Biological Station, 1996. iv, 242 p. : ill., Bibl. MICROLOG 97-02986 (3 fiche)

no. 2385 Newfoundland Region Salmonid Stock Assessment Meeting, 1996 : proceedings. MICROLOG 97-02978 (1 fiche)

no. 2386 A Field guide to counting and measuring salmonids using the Silhouette Imaging and Counting System (SIACS). MICROLOG 97-02993 (2 fiche)

### Canadian technical report of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

no. 2118 Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 1 : review of mapping with preliminary recommendations. MICROLOG 97-02680 (1 fiche)

no. 2119 Standard methods for sampling resources and habitats in coastal subtidal regions of British Columbia, part 2 : review of sampling with preliminary recommendations. MICROLOG 97-02679 (2 fiche)

no. 2126 Created and restored sedge marshes in the Lower Fraser River and estuary : an evaluation of their functioning as fish habitat. MICROLOG 97-02678 (2 fiche)

no. 2131 Radio telemetry observations of sockeye salmon (*Oncorhynchus nerka*) spawners in Chilko River and Chilko Lake : investigation of the role of stress in a mark-recapture study. MICROLOG 97-02677 (1 fiche)

no. 2134 Slope rockfish stock assessment for the west coast of Canada in 1996 and recommended yields for 1997. MICROLOG 97-02676 (2 fiche)

no. 2144 Aquatic Toxicity Workshop : proceedings, 1996 / Editors, J.S. Goudey...et al. Calgary, AB : Dept. of Fisheries & Oceans, 1997. xiv, 196 p. : ill., Bibl. MICROLOG 97-02577 (3 fiche)

no. 2177 Population Index estimate for the belugas of the St. Lawrence in 1995. MICROLOG 97-02545 (2 fiche)

### Canadian translation of fisheries and aquatic sciences. Canada. Dept. of Fisheries & Oceans

no. 5657 *Capillaria delamurei* sp. n. (Nematoda, Trichocephalata) from the Caspian Sea. MICROLOG 97-02969 (1 fiche)

no. 5659 Trichinellosis of walrus in the Soviet Arctic. MICROLOG 97-03000 (1 fiche)

### Choix sur les finances publiques. Institut de recherche en politiques publiques

vol 1, no 4 Répartition régionale des dépenses fiscales touchant les corporations. MICROLOG 97-02802 (1 fiche)

Strategy for the development of recreational fisheries in Newfoundland and Labrador. 97-02811/4

Towards New Brunswick's cultural future. 97-03004/1

Video lottery program review. 97-02949/4

## Depository Program

The Accessible Canadian library II, a resource tool for libraries serving persons with disabilities. 97-02838/3

Analyse des données d'une étude sur la formation des bancs de glace : rapport final. 97-03027/1

Aquatic dispersion modelling of a tritium plume in Lake Ontario. 97-02787/1

La Bibliothèque canadienne accessible II, un instrument de travail destiné aux bibliothèques au service des personnes handicapées. 97-02838/3

Bitumen immobilization of aqueous radwaste by thin-film evaporation. 97-02789/1

Budget, 1997. 97-02934/3

Budget, 1997. 97-02935/3

Canada. Administration du pipe-line du Nord : Rapport annuel 1995-96. 97-02933/1

Canada. Correctional Investigator : Annual report 1995-96. 97-02917/4

Canada. Enquêteur correctionnel : Rapport annuel 1995-96. 97-02917/4

Canada health action : building on the legacy, vol. I : final report. 97-02673/1

Canada health action : building on the legacy, vol. II : synthesis reports and issues papers. 97-02795/4

Canada. Northern Pipeline Agency : Annual report 1995-96. 97-02933/1

Canadian Police Research Centre : Annual report 1995-96. 97-02791/2

Canadian tide and current tables : Pacific Coast, 1995. 97-02636/3

Centre canadien de recherches policières : Rapport annuel 1995-96. 97-02791/2

Changement climatique et activités de loisir dans la Réserve de parc national Nahanni. 97-02975/1

The Class of 90, a compendium of findings from the 1992 National Graduates Survey of 1990 graduates. 97-03010/2

Climate change and recreation in Nahanni National Park Reserve. 97-02975/1

A Copper container corrosion model for the in-room emplacement of used CANDU fuel. 97-02698/1

Crown corporations and other corporate interests of Canada : Annual report to Parliament, 1996. 97-02666/6

Crystal structure of thin oxide films grown on Zr-Nb alloys studied by RHEED. 97-02783/1

A Description of 60Co gamma irradiation facilities in the Radiation Biology and Health Physics Branch. 97-02757/1

Élimination des obstacles au réaménagement des terrains contaminés à des fins résidentielles : rapport final. 97-02563/2

Enquête en laboratoire et surveillance sur place des murs à écran pare-pluie à pressions équilibrées. 97-02543/1

Enterprise Cape Breton Corporation (Canada) : Annual report 1995-96. 97-02541/1

Excise Act review : a proposal for a revised framework for the taxation of alcohol and tobacco products. 97-02930/2

First Nations police officers survey. 97-02981/3

Fission product tellurium and cesium telluride chemistry revisited. 97-02785/1

La Gestion publique dans le nouveau millénaire : à quel point réduire la présence gouvernementale? 97-02851/1

Governing in the millennium : how much less government? 97-02851/1

Grands projets de l'état : préposés aux possibilités de sous-traitance. 97-02997/1

The Halifax Summit, sustainable development, and international institutional reform. 97-02929/2

High-temperature chemistry of molybdenum, cesium, iodine and UO<sub>2</sub> + x. 97-02973/1

Hydrogen absorption by grade-2 titanium. 97-02703/1

Laboratory investigation and field monitoring of pressure equalized rainscreen walls. 97-02542/1

Liquid radwaste processing with spiral wound reverse osmosis. 97-02756/1

Major Crown projects : subcontracting, opportunities, contacts. 97-02997/1

Microbially influenced corrosion of copper nuclear fuel waste containers in a Canadian disposal vault. 97-02786/1

Multiculturalism, meeting the government commitment, 1995-96. 97-02726/3

Le Multiculturalisme, réalisation de l'engagement du gouvernement, 1995-96. 97-02726/3

Organismes de service spéciaux : aspects financiers. 97-02885/2

Organismes de service spéciaux : comités consultatifs de gestion, rôle et activités. 97-02886/2

Organismes de service spéciaux : plans d'entreprise et rapports annuels. 97-02852/1

- Organismes de service spéciaux : problèmes de gestion des ressources humaines. 97-02829/2
- Organismes de service spéciaux : vérification et évaluation. 97-02887/2

# Other Canadian Reference Sources

## - Available from Micromedia -

---

### Canadian Index

A comprehensive index providing access to nearly 100,000 citations each year from: nine major daily newspapers, over 200 Canadian trade and business periodicals, over 50 specialized Canadian trade magazines for which indexing is unavailable elsewhere, and more than 350 general periodicals.

---

### KIOSK: CBCA

KIOSK: CBCA is a reference tool which combines a high quality indexing and abstracting database (CBCA) with direct access to the fulltext content of the articles indexed.

---

### CBCA Fulltext

CBCA Fulltext provides fulltext access to Canadian periodicals and current affairs information, and incorporates the largest and most comprehensive subject guide to periodical literature. CBCA Fulltext allows searching on Windows, Macintosh, DOS and UNIX platforms.

---

### CBCA OnDisc

CBCA OnDisc is the Knight Ridder CD-ROM version of the Canadian Index, giving you access to ten years of indexing. It includes every citation in the Canadian Index, plus thousands of informative abstracts which do not appear in the print edition.

---

### KIOSK: Maclean's

Published in cooperation with Maclean's magazine, KIOSK: Maclean's contains every article and news report published by Canada's Weekly Newsmagazine over an eight year period.

---

### CNI Clips: Press Clippings on Microfiche

CNI Clips is a unique service which provides the full text of more than 40,000 Canadian Press news stories and feature articles each year, and is delivered in a practical and economical microfiche format.

---

### Canadian Education Index

Canadian Education Index covers more than 200 Canadian education periodicals, as well as reports and monographs from the educational research community across Canada. In addition, the Index covers report literature from government agencies, educational faculties and teachers' associations, and large school boards.

---

### Canadian Education Index Thesaurus

Canadian Education Index Thesaurus is a bilingual controlled vocabulary of over 5,000 terms, developed for the indexing and retrieval of French or English-language material in Canadian education, and is an invaluable research aid for users of the Canadian Education Index.
